FRONTIER COMMUNICATIONS TESTIMONY ON
Amendments to the Michigan Telecommunications Act
Senate Bill 636

Thank you Chairman Nesbitt and the members of the Energy and Technology Committee for the opportunity to talk with you in regards to the proposed amendments to the Michigan Telecommunications Act. Frontier Communications supports the proposed amendments to the Michigan Telecommunications Act with substitute Senate Bill 636.

This group of statute changes moves public policy in Michigan forward to encourage increased investment in advanced services for residents and businesses. Generally, Senate Bill 636 streamlines and simplifies a number of administrative processes greatly reducing the cost of government overburden on providers of advanced services.

Frontier would like to thank the members of the industry and MPSC staff for the collaborative process to bring the legislation forward.

Thank you again for the opportunity to talk with you and I would be happy to take any questions.

Robert E Stewart

State Director – Government and External Affairs
