Michigan Medicaid Quality and Value

June 12, 2013

Michigan Medicaid Works Access/Quality

- Michigan Medicaid provides access by requiring assignment of each HMO enrollee to a primary care physician
- Privatized system based on quality and capacity
- Michigan Medicaid has adopted the highest standard of measurement and transparency on access and quality

Michigan Medicaid Works Access/Quality

Michigan Medicaid has adopted the highest standard of accountability and transparency. HMO performance requirements include:

- Accreditation by an external entity
- An annual audited Healthcare Effectiveness Data and Information Set (HEDIS) report
- All required HEDIS measures must be deemed reportable (free of material bias)
- An annual adult Consumer Assessment of Healthcare Providers and Systems (CAHPS) survey report (measures experience of health care)

Incentivized Improvements in Quality

Medicaid incentivizes improvements in clinical quality including:

- Women's Care
- Living with Illness (e.g. Diabetes, Asthma, Controlling hypertension)
- Care of Children
- Access to Care (Adults and Children)

Significant Improvements in Incentivized Quality Measures

- Cervical cancer screening rates increased from 68.5% in 2008 to 75.5% in 2012
- The percentage of diagnosed hypertensive beneficiaries whose blood pressure was controlled increased from 56.1% in 2008 to 63.5% in 2012.
- The percentage of children 15 months of age and younger who received 6 or more Well-Child visits increased from 61.6% of all Medicaid children screened in 2008 to 75.3%in 2012
- The percentage of children 12-19 years old who had a visit with a PCP increased from 82.1% in 2008 to 90.6% in 2012.
- **Michigan Medicaid Managed Care currently ranks above the National HEDIS 50th percentile for all of these measures.**
