Rep. Lisa L. Howze, from the 2nd District, offered the following invocation:

“Our Father which art in heaven hallowed be Thy name. Thy kingdom come, Thy will be done on this space of earth called Michigan, as it is in heaven.

Lord God You have endowed each legislator in this body with the opportunity to serve the people of the great state of Michigan. Because of our interconnectedness, we know that we are not only responsible for the citizens in one small corner of the state, but we acknowledge that our collective decisions impact people of all backgrounds and faiths in every corner of this state. We must not and cannot take this fact for granted.

As we therefore walk the streets of the Capitol, and travel the corridors of this building, and enter into the Chambers of this House, our hands are lifted to You in praise and our hearts are filled with thanksgiving.

We humbly submit ourselves to You in prayer and seek Your guidance as we carry out our responsibilities. As we turn away from our political ideologies and focus our attention on the fruits of the spirit - that which is true, noble, just, pure, lovely and of good report - then are we worthy of the title Honorable.

Lord God, we pray that You will hear the outcries of the people of this state who are in need; we pray that You will forgive them of their wrongdoings and shortcomings whether real or perceived; and finally Lord God, we pray that You will heal our land, here in the state of Michigan and across this nation. We trust that You will do it. For what may seem impossible to man, we know that all things are possible with and through You, God.

All these things we pray in the name of the deity that we proclaim to have awoken us from our sleep and slumber this morning.

Let every heart say, Amen!”

The Committee on Energy and Technology, by Rep. Horn, Chair, reported

House Concurrent Resolution No. 9.

A concurrent resolution to urge the Federal Energy Regulatory Commission to grant a rehearing and modify its December 16, 2010 order approving the Midwest Independent Transmission System Operator's cost allocation proposal to socialize transmissions costs.

(For text of concurrent resolution, see House Journal No. 25, p. 311.)

With the recommendation that the following substitute (H-1) be adopted and that the concurrent resolution then be adopted.

Substitute for House Concurrent Resolution No. 9.

A concurrent resolution to urge the Federal Energy Regulatory Commission to grant a rehearing and modify its December 16, 2010 order approving the Midwest Independent Transmission System Operator's cost allocation proposal to share transmission costs.

Whereas, The need for and cost of new, long distance transmission lines are important challenges facing the electric industry in the United States. New transmission facilities are needed to provide essential electric reliability and meet the future demands of a technologically driven economy. However, the Department of Energy estimates that expanding the use of wind power could require transmission expansion costs of \$60 billion by 2030; and

Whereas, Ultimately, the costs of new transmission and who pays these costs are determined by the Federal Energy Regulatory Commission (FERC). Under the Federal Power Act, FERC has the authority to regulate interstate transmission and must ensure that transmission rates are just and reasonable. Justness is also a centerpiece of FERC's Order 890, first issued in 2007, which establishes the commission's transmission cost allocation principles. Under Order 890, FERC stated that when determining who pays for new transmission, it will first consider whether the cost allocation proposal fairly assigns costs among participants, including those who cause them to be incurred and those who otherwise benefit from them. FERC also stated the intent to consider the support of state authorities and participants when approving cost allocation proposals; and

Whereas, The transmission tariff proposed by the Midwest Independent Transmission System Operator (MISO), which controls the grid in Michigan, 12 other states, and the province of Manitoba, proposes to allocate 100 percent of the costs of certain transmission projects designated as "Multi Value Projects" (MVP) to all customers in the MISO region. The tariff does not consider the unique situation of Michigan as a peninsular state that may not benefit from the construction of transmission lines in other parts of the MISO region. Additionally, the tariff does not adequately consider the principle of cost causation with regard to lower voltage transmission facilities proposed for shared cost allocation; and

Whereas, Since Michigan accounts for 20 percent of the MISO load, Michigan consumers would be responsible for one-fifth of any new MVP transmission facilities approved to be built in the MISO region. FERC's ruling allows for an uncommon method of allocating costs on a regional basis. There are concerns about the cost benefit analysis that is being used by MISO to approve MVP transmission facilities; and

Whereas, Several states, utilities, and ratepayer groups have filed for rehearing and clarification, including the Michigan Public Service Commission; now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That we support the Michigan Public Service Commission's and the MISO Northeast Transmission Customers' requests for clarification and applications for rehearing of FERC's December 16 Order approving the Midwest Independent Transmission System Operator's cost allocation proposal to share transmission costs; and be it further

Resolved, That copies of this resolution be transmitted to the Chairman of the Federal Energy Regulatory Commission, the Chairman of the Michigan Public Service Commission, the President and Chief Executive Officer of the Midwest Independent Transmission System Operator, and the members of the Michigan congressional delegation.
