Within 24 months after the effective date of this section, an individual who is exempt under this subsection shall provide the department of state police a set of fingerprints and the department of state police shall input those fingerprints into the automated fingerprint identification system database established under subsection (12). That individual may transfer to another adult foster care facility that is under the same ownership with which he or she was employed or under contract. If that individual wishes to transfer to an adult foster care facility that is not under the same ownership, he or she may do so provided that a criminal history check is conducted by the new facility in accordance with subsection (4). If an individual who is exempt under this subsection is subsequently convicted of a crime or offense described under subsection (1)(a) through (g) or found to be the subject of a substantiated finding described under subsection (1)(i) or an order or disposition described under subsection (1)(h), or is found to have been convicted of a relevant crime described under subsection (1)(a), he or she is no longer exempt and shall be terminated from employment or denied employment.

The individual, at the time of initial application, shall provide identification acceptable to the department of state police.

(4) Upon receipt of the written consent and identification required under subsection (3), the adult foster care facility that has made a good faith offer of employment or independent contract shall make a request to the department of state police to conduct a criminal history check on the individual and input the individual's fingerprints into the automated fingerprint identification system database, and shall make a request to the relevant licensing or regulatory department to perform a check of all relevant registries established pursuant to federal and state law and regulations for any substantiated findings of abuse, neglect, or misappropriation of property. The request shall be made in a manner prescribed by the department of state police and the relevant licensing or regulatory department or agency. The adult foster care facility shall make the written consent and identification available to the department of state police and the relevant licensing or

regulatory department or agency. If the department of state police or the federal bureau of investigation charges a fee for conducting the initial criminal history check, the charge shall be paid by or reimbursed by the department with federal funds as provided to implement a pilot program for national and state background checks on direct patient access employees of long-term care facilities or providers in accordance with section 307 of the medicare prescription drug, improvement, and modernization act of 2003, Public Law 108-173. The adult foster care facility shall not seek reimbursement for a charge imposed by the department of state police or the federal bureau of investigation from the individual who is the subject of the initial criminal history check. The department of state police shall conduct an initial criminal history check on the individual named in the request. The department of state police shall provide the department with a written report of the criminal history check conducted under this subsection that contains a criminal record. The report shall contain any criminal history record information on the individual maintained by the department of state police.

An individual described in this subsection shall provide the department of state police with a set of fingerprints. The department of state police shall complete the criminal history check under subsection (4) and, except as otherwise provided in this subsection, provide the results of its determination under subsection (4) and the results of the federal bureau of investigation determination to the department within 30 days after the request is made. If the requesting adult foster care facility is not a state department or agency and if a criminal conviction is disclosed on the written report of the criminal history check obtained under subsection (4) or the federal bureau of investigation determination, the department shall notify the adult foster care facility and the individual in writing of the type of crime disclosed on the written report of the criminal history check obtained under subsection (4) or the federal bureau of investigation determination without disclosing the details of the crime. The notification shall inform the facility or agency and the applicant regarding the appeal process in section 34c. Any charges imposed by the department of state police or the federal bureau of investigation for conducting an initial criminal history check or making a determination under this subsection shall be paid in the manner required under subsection (4).

(6) If an adult foster care facility determines it necessary to employ or independently contract with an individual before receiving the results of the individual's criminal history check required under this section, the adult foster care facility may conditionally employ the individual if both of the following apply:

(a) The adult foster care facility requests the criminal history check required under this section, upon conditionally employing the individual.

(b) The individual signs a written statement indicating all of the following:

(i) That he or she has not been convicted of 1 or more of the crimes that are described in subsection (1)(a) to (g) within the applicable time period prescribed by subsection (1)(a) to (g).

(iii) That he or she has not been the subject of a substantiated finding as described in subsection (1)(i).

(iv) The individual agrees that, if the information in the criminal history check conducted under this section does not confirm the individual's statement under subparagraphs (i) to (iii), his or her employment will be terminated by the adult foster care facility as required under subsection (1) unless and until the individual can prove that the information is incorrect.

(v) That he or she understands the conditions described in subparagraphs (i) to (iv) that result in the termination of his or her employment and that those conditions are good cause for termination.

(7) The department shall develop and distribute the model form for the statement required under subsection (6)(b). The department shall make the model form available to adult foster care facilities upon request at no charge.

(8) If an individual is conditionally employed under subsection (6), and the report described in subsection (4) or (5), if applicable, does not confirm the individual's statement under subsection (6)(b)(i) to (iii), the adult foster care facility shall terminate the individual's employment as required by subsection (1).

(9) An individual who knowingly provides false information regarding his or her identity, criminal convictions, or substantiated findings on a statement described in subsection (6)(b)(i) to (iii) is guilty of a misdemeanor punishable by imprisonment for not more than 93 days or a fine of not more than \$500.00, or both.

(10) An adult foster care facility shall use criminal history record information obtained under subsection (4) or (5) only for the purpose of evaluating an individual's qualifications for employment in the position for which he or she has applied and for the purposes of subsections (6) and (8). An adult foster care facility or an employee of the adult foster care facility shall not disclose criminal history record information obtained under this section to a person who is not directly involved in evaluating the individual's qualifications for employment or independent contract. An individual who knowingly uses or disseminates the criminal history record information obtained under subsection (4) or (5) in violation of this subsection is guilty of a misdemeanor punishable by imprisonment for not more than 93 days or a fine of not more than \$1,000.00, or both. Upon written request from another adult foster care facility, psychiatric facility or intermediate care facility for people with mental retardation, or health facility or agency that is considering employing or independently contracting with an individual, an adult foster care facility that has obtained criminal history record information under this section on that individual shall, with the consent of the applicant, share the information with the requesting adult foster care facility, psychiatric facility or intermediate care facility for people with mental retardation, or health facility or agency. Except for a knowing or intentional release of false information, an adult foster care facility has no liability in connection with a background check conducted under this section or the release of criminal history record information under this subsection.

(11) As a condition of continued employment, each employee or independent contractor shall do both of the following:

(a) Agree in writing to report to the adult foster care facility immediately upon being arraigned on 1 or more of the criminal offenses listed in subsection (1)(a) to (g), upon being convicted of 1 or more of the criminal offenses listed in subsection (1)(a) to (g), upon becoming the subject of an order or disposition described under subsection (1)(h), and upon becoming the subject of a substantiated finding described under subsection (1)(i). Reporting of an arraignment under this subdivision is not cause for termination or denial of employment.

(b) If a set of fingerprints is not already on file with the department of state police, provide the department of state police with a set of fingerprints.

(12) In addition to sanctions set forth in this act, a licensee, owner, administrator, or operator of an adult foster care facility who knowingly and willfully fails to conduct the criminal history checks as required under this section is guilty of a misdemeanor punishable by imprisonment for not more than 1 year or a fine of not more than \$5,000.00, or both.

(13) In collaboration with the department of state police, the department of information technology shall establish an automated fingerprint identification system database that would allow the department of state police to store and maintain all fingerprints submitted under this section and would provide for an automatic notification at the time a subsequent criminal arrest fingerprint card submitted into the system matches a set of fingerprints previously submitted in accordance with this section. Upon such notification, the department of state police shall immediately notify the department and the department shall immediately contact the respective adult foster care facility with which that individual is associated. Information in the database established under this subsection is confidential, is not subject to disclosure under the freedom of information act, 1976 PA 442, MCL 15.231 to 15.246, and shall not be disclosed to any person except for purposes of this act or for law enforcement purposes.

(14) If an individual independently contracts with an adult foster care facility, subsections (1) and (2) do not apply if the contractual work performed by the individual is not directly related to the clinical, health care, or personal services delivered by the adult foster care facility or if the individual's duties are not performed on an ongoing basis with direct access to residents. This exception includes, but is not limited to, an individual who independently contracts with the adult foster care facility to provide utility, maintenance, construction, or communication services.

(15) Within 1 year after the effective date of the amendatory act that added this section, the department shall submit a written report to the legislature regarding each of the following:

(a) The impact and effectiveness of this amendatory act.

(b) The feasibility of implementing criminal history checks on volunteers who work in the adult foster care facilities and on state agency employees who are involved in the licensing of the adult foster care facilities and regulation of the employees.

(c) The amount of federal funds provided to implement a pilot program for national and state criminal history checks on direct access employees of long-term care facilities or providers, the amount of those funds expended to date, and the amount of those funds remaining.

(16) By March 1, 2007, the department and the department of state police shall develop and implement an electronic web-based system to assist the adult foster care facilities required to check relevant registries and conduct criminal history checks of its employees and independent contractors and to provide for an automated notice to the adult foster care facilities for the individuals entered in the system who, since the initial check, have been convicted of a disqualifying offense or have been the subject of a substantiated finding of abuse, neglect, or misappropriation of property.

(17) The department shall submit to the legislature not later than 3 years after the effective date of the amendatory act that added this subsection a written report regarding the department's plan to continue performing criminal history checks if adequate federal funding is not available to continue performing future criminal history checks.

125.2663 Brownfield plan; provisions.

Sec. 13. (1) Subject to section 15, the board may implement a brownfield plan. The brownfield plan may apply to 1 or more parcels of eligible property whether or not those parcels of eligible property are contiguous and may be amended to apply to additional parcels of eligible property. Except as otherwise authorized by this act, if more than 1 parcel of eligible property is included within the plan, the tax increment revenues under the plan shall be determined individually for each parcel of eligible property. Each plan or an amendment to a plan shall be approved by the governing body of the municipality and shall contain all of the following:

(a) A description of the costs of the plan intended to be paid for with the tax increment revenues or, for a plan for eligible properties qualified on the basis that the property is owned or under the control of a land bank fast track authority, a listing of all eligible activities that may be conducted for 1 or more of the eligible properties subject to the plan.

(b) A brief summary of the eligible activities that are proposed for each eligible property or, for a plan for eligible properties qualified on the basis that the property is owned or under the control of a land bank fast track authority, a brief summary of eligible activities conducted for 1 or more of the eligible properties subject to the plan.

(c) An estimate of the captured taxable value and tax increment revenues for each year of the plan from each parcel of eligible property, or from all eligible properties qualified on the basis that the property is owned or under the control of a land bank fast track authority, and in the aggregate. The plan may provide for the use of part or all of the captured taxable value, including deposits in the local site remediation revolving fund, but the portion intended to be used shall be clearly stated in the plan. The plan shall not provide either for an exclusion from captured taxable value of a portion of the captured taxable value or for an exclusion of the tax levy of 1 or more taxing jurisdictions unless the tax levy is excluded from tax increment revenues in section 2(dd), or unless the tax levy is excluded from capture under section 15.

(d) The method by which the costs of the plan will be financed, including a description of any advances made or anticipated to be made for the costs of the plan from the municipality.

(e) The maximum amount of note or bonded indebtedness to be incurred, if any.

(f) The duration of the brownfield plan, which shall not exceed the lesser of the period authorized under subsections (4) and (5) or 30 years.

(g) An estimate of the impact of tax increment financing on the revenues of all taxing jurisdictions in which the eligible property is located.

(h) A legal description of each parcel of eligible property to which the plan applies, a map showing the location and dimensions of each eligible property, a statement of the characteristics that qualify the property as eligible property, and a statement of whether personal property is included as part of the eligible property. If the project is on property that is functionally obsolete, the taxpayer shall include, with the application, an affidavit signed by a level 3 or level 4 assessor, that states that it is the assessor's expert opinion that the property is functionally obsolete and the underlying basis for that opinion.

(i) Estimates of the number of persons residing on each eligible property to which the plan applies and the number of families and individuals to be displaced. If occupied residences are designated for acquisition and clearance by the authority, the plan shall include a demographic survey of the persons to be displaced, a statistical description of the housing supply in the community, including the number of private and public units in existence or under construction, the condition of those in existence, the number of owner-occupied and renter-occupied units, the annual rate of turnover of the various types of housing and the range of rents and sale prices, an estimate of the total demand for housing in the community, and the estimated capacity of private and public housing available to displaced families and individuals.

(j) A plan for establishing priority for the relocation of persons displaced by implementation of the plan.

(k) Provision for the costs of relocating persons displaced by implementation of the plan, and financial assistance and reimbursement of expenses, including litigation expenses and expenses incident to the transfer of title, in accordance with the standards and provisions of the uniform relocation assistance and real property acquisition policies act of 1970, Public Law 91-646.

(l) A strategy for compliance with 1972 PA 227, MCL 213.321 to 213.332.

(m) A description of proposed use of the local site remediation revolving fund.

(n) Other material that the authority or governing body considers pertinent.

(2) The percentage of all taxes levied on a parcel of eligible property for school operating expenses that is captured and used under a brownfield plan and all tax increment finance plans under 1975 PA 197, MCL 125.1651 to 125.1681, the tax increment finance authority act, 1980 PA 450, MCL 125.1801 to 125.1830, or the local development financing act, 1986 PA 281, MCL 125.2151 to 125.2174, shall not be greater than the combination of the plans' percentage capture and use of all local taxes levied for purposes other than for the payment of principal of and interest on either obligations approved by the electors or obligations pledging the unlimited taxing power of the local unit of government. This subsection shall apply only when taxes levied for school operating purposes are subject to capture under section 15.

(3) Except as provided in this subsection and subsections (5), (15), and (16), tax increment revenues related to a brownfield plan shall be used only for costs of eligible activities attributable to the eligible property, the captured taxable value of which produces the tax increment revenues, including the cost of principal of and interest on any obligation issued by the authority to pay the costs of eligible activities attributable to the eligible property, and the reasonable costs of preparing a work plan or remedial action plan for the eligible property, including the actual cost of the review of the work plan or remedial action plan

under section 15. For property owned or under the control of a land bank fast track authority, tax increment revenues related to a brownfield plan may be used for eligible activities attributable to any eligible property owned or under the control of the land bank fast track authority, the cost of principal of and interest on any obligation issued by the authority to pay the costs of eligible activities, the reasonable costs of preparing a work plan or remedial action plan, and the actual cost of the review of the work plan or remedial action plan under section 15. Tax increment revenues captured from taxes levied by this state under the state education tax act, 1993 PA 331, MCL 211.901 to 211.906, or taxes levied by a local school district shall not be used for eligible activities described in section 2(m)(iv)(E).

(4) Except as provided in subsection (5), a brownfield plan shall not authorize the capture of tax increment revenue from eligible property after the year in which the total amount of tax increment revenues captured is equal to the sum of the costs permitted to be funded with tax increment revenues under this act.

(5) A brownfield plan may authorize the capture of additional tax increment revenue from an eligible property in excess of the amount authorized under subsection (4) during the time of capture for the purpose of paying the costs permitted under subsection (3), or for not more than 5 years after the time that capture is required for the purpose of paying the costs permitted under subsection (3), or both. Excess revenues captured under this subsection shall be deposited in the local site remediation revolving fund created under section 8 and used for the purposes authorized in section 8. If tax increment revenues attributable to taxes levied for school operating purposes from eligible property are captured by the authority for purposes authorized under subsection (3), the tax increment revenues captured for deposit in the local site remediation revolving fund also may include tax increment revenues attributable to taxes levied for school operating purposes in an amount not greater than the tax increment revenues levied for school operating purposes captured from the eligible property by the authority for the purposes authorized under subsection (3). Excess tax increment revenues from taxes levied for school operating purposes for eligible activities authorized under subsection (15) by the Michigan economic growth authority shall not be captured for deposit in the local site remediation revolving fund.

(6) An authority shall not expend tax increment revenues to acquire or prepare eligible property, unless the acquisition or preparation is an eligible activity.

(7) Costs of eligible activities attributable to eligible property include all costs that are necessary or related to a release from the eligible property, including eligible activities on properties affected by a release from the eligible property. For purposes of this subsection, “release” means that term as defined in section 20101 of the natural resources and environmental protection act, 1994 PA 451, MCL 324.20101.

(8) Costs of a response activity paid with tax increment revenues that are captured pursuant to subsection (3) may be recovered from a person who is liable for the costs of eligible activities at an eligible property. This state or an authority may undertake cost recovery for tax increment revenue captured. Before an authority or this state may institute a cost recovery action, it must provide the other with 120 days’ notice. This state or an authority that recovers costs under this subsection shall apply those recovered costs to the following, in the following order of priority:

(a) The reasonable attorney fees and costs incurred by this state or an authority in obtaining the cost recovery.

(b) One of the following:

(i) If an authority undertakes the cost recovery action, the authority shall deposit the remaining recovered funds into the local site remediation fund created pursuant to section 8, if such a fund has been established by the authority. If a local site remediation fund has not been established, the authority shall disburse the remaining recovered funds to the local taxing jurisdictions in the proportion that the local taxing jurisdictions' taxes were captured.

(ii) If this state undertakes a cost recovery action, this state shall deposit the remaining recovered funds into the revitalization revolving loan fund established under section 20108a of the natural resources and environmental protection act, 1994 PA 451, MCL 324.20108a.

(iii) If this state and an authority each undertake a cost recovery action, undertake a cost recovery action jointly, or 1 on behalf of the other, the amount of any remaining recovered funds shall be deposited pursuant to subparagraphs (i) and (ii) in the proportion that the tax increment revenues being recovered represent local taxes and taxes levied for school operating purposes, respectively.

(9) Approval of the brownfield plan or an amendment to a brownfield plan shall be in accordance with the notice and approval provisions of this section and section 14.

(10) Before approving a brownfield plan for an eligible property, the governing body shall hold a public hearing on the brownfield plan. Notice of the time and place of the hearing shall be given by publication twice in a newspaper of general circulation designated by the municipality, the first of which shall be not less than 20 or more than 40 days before the date set for the hearing.

(11) Notice of the time and place of the hearing on a brownfield plan shall contain all of the following:

(a) A description of the property to which the plan applies in relation to existing or proposed highways, streets, streams, or otherwise.

(b) A statement that maps, plats, and a description of the brownfield plan are available for public inspection at a place designated in the notice and that all aspects of the brownfield plan are open for discussion at the public hearing required by this section.

(c) Any other information that the governing body considers appropriate.

(12) At the time set for the hearing on the brownfield plan required under subsection (10), the governing body shall provide an opportunity for interested persons to be heard and shall receive and consider communications in writing with reference to the brownfield plan. The governing body shall make and preserve a record of the public hearing, including all data presented at the hearing.

(13) Not less than 20 days before the hearing on the brownfield plan, the governing body shall provide notice of the hearing to the taxing jurisdictions that levy taxes subject to capture under this act. The authority shall fully inform the taxing jurisdictions about the fiscal and economic implications of the proposed brownfield plan. At that hearing, an official from a taxing jurisdiction with millage that would be subject to capture under this act has the right to be heard in regard to the adoption of the brownfield plan.

(14) The authority shall not enter into agreements with the taxing jurisdictions and the governing body of the municipality to share a portion of the captured taxable value of an eligible property. Upon adoption of the plan, the collection and transmission of the amount of tax increment revenues as specified in this act shall be binding on all taxing

units levying ad valorem property taxes or specific taxes against property located in the zone.

(15) Except as provided by subsection (18), if a brownfield plan includes the capture of taxes levied for school operating purposes or the use of tax increment revenues related to a brownfield plan for the cost of eligible activities attributable to more than 1 eligible property that is adjacent and contiguous to all other eligible properties covered by the development agreement, whether or not the captured taxes are levied for school operating purposes, approval of a work plan by the Michigan economic growth authority before January 1, 2008 to use school operating taxes and a development agreement between the municipality and an owner or developer of eligible property are required if the revenues will be used for infrastructure improvements that directly benefit eligible property, demolition of structures that is not response activity under part 201 of the natural resources and environmental protection act, 1994 PA 451, MCL 324.20101 to 324.20142, lead or asbestos abatement, or site preparation that is not response activity under section 20101 of the natural resources and environmental protection act, 1994 PA 451, MCL 324.20101. The eligible activities to be conducted described in this subsection shall be consistent with the work plan submitted by the authority to the Michigan economic growth authority. The department's approval is not required for the capture of taxes levied for school operating purposes for eligible activities described in this subsection.

(16) The limitations of section 15(1) upon use of tax increment revenues by an authority shall not apply to the following costs and expenses:

(a) In each fiscal year of the authority, \$75,000.00 for the following purposes for tax increment revenues attributable to local taxes:

(i) Reasonable and actual administrative and operating expenses of the authority.

(ii) Baseline environmental assessments, due care activities, and additional response activities related directly to work conducted on prospective eligible properties prior to approval of the brownfield plan.

(b) Reasonable costs of preparing a work plan or remedial action plan or the cost of the review of a work plan for which tax increment revenues may be used under section 13(3).

(17) A brownfield authority may reimburse advances, with or without interest, made by a municipality under section 7(3), a land bank fast track authority, or any other person or entity for costs of eligible activities with any source of revenue available for use of the brownfield authority under this act and may enter into agreements related to those reimbursements. A reimbursement agreement for these purposes and the obligations under that reimbursement agreement shall not be subject to section 12 or the revised municipal finance act, 2001 PA 34, MCL 141.2101 to 141.2821.

(18) If a brownfield plan includes the capture of taxes levied for school operating purposes, approval of a work plan by the Michigan economic growth authority in the manner required under section 15(14) to (16) is required in order to use tax increment revenues attributable to taxes levied for school operating purposes for purposes of eligible activities described in section 2(m)(iv)(E) for 1 or more parcels of eligible property. The work plan to be submitted to the Michigan economic growth authority under this subsection shall be in a form prescribed by the Michigan economic growth authority. The eligible activities to be conducted and described in this subsection shall be consistent with the work plan submitted by the authority to the Michigan economic growth authority. The department's approval is not required for the capture of taxes levied for school operating purposes for eligible activities described in this section.

125.2665 Prohibited conduct; work plan or remedial action plan; documents to be submitted for approval; factors to be considered in plan review; written request pertaining to baseline environmental assessment activities or due care activities; additional response activities; reimbursement of costs to review work plan or remedial action plan; report; distribution of remaining funds; use of school operating taxes.

Sec. 15. (1) An authority shall not do any of the following:

(a) For eligible activities not described in section 13(15), use taxes levied for school operating purposes captured from eligible property unless the eligible activities to be conducted on the eligible property are eligible activities under part 201 of the natural resources and environmental protection act, 1994 PA 451, MCL 324.20101 to 324.20142, consistent with a work plan or remedial action plan approved by the department after July 24, 1996 and before January 1, 2008.

(b) For eligible activities not described in section 13(15), use funds from a local site remediation revolving fund that are derived from taxes levied for school operating purposes unless the eligible activities to be conducted are eligible activities under part 201 of the natural resources and environmental protection act, 1994 PA 451, MCL 324.20101 to 324.20142, consistent with a work plan or remedial action plan that has been approved by the department after July 24, 1996.

(c) Use funds from a local site remediation revolving fund created pursuant to section 8 that are derived from taxes levied for school operating purposes for the eligible activities described in section 13(15) unless the eligible activities to be conducted are consistent with a work plan approved by the Michigan economic growth authority.

(d) Use taxes captured from eligible property to pay for eligible activities conducted before approval of the brownfield plan except for costs described in section 13(16).

(e) Use taxes levied for school operating purposes captured from eligible property for response activities that benefit a party liable under section 20126 of the natural resources and environmental protection act, 1994 PA 451, MCL 324.20126, except that a municipality that established the authority, for taxes levied after 2004, may use taxes levied for school operating purposes captured from eligible property for response activities associated with a landfill.

(f) Use taxes captured from eligible property to pay for administrative and operating activities of the authority or the municipality on behalf of the authority except for costs described in section 13(16) and for the reasonable costs for preparing a work plan or remedial action plan for the eligible property, including the actual cost of the review of the work plan or remedial action plan under this section.

(2) To seek department approval of a work plan under subsection (1)(a) or (b) or remedial action plan, the authority shall submit all of the following for each eligible property:

(a) A copy of the brownfield plan.

(b) Current ownership information for each eligible property and a summary of available information on proposed future ownership, including the amount of any delinquent taxes, interest, and penalties that may be due.

(c) A summary of available information on the historical and current use of each eligible property, including a brief summary of site conditions and what is known about environmental contamination as that term is defined in section 20101 of the natural resources and environmental protection act, 1994 PA 451, MCL 324.20101.

(d) Existing and proposed future zoning for each eligible property.

(e) A brief summary of the proposed redevelopment and future use for each eligible property.

(f) A separate work plan or remedial action plan, or part of a work plan or remedial action plan, for each eligible activity to be undertaken.

(3) Upon receipt of a request for approval of a work plan or remedial action plan under subsection (2) that pertains to baseline environmental assessment activities or due care activities, or both, or a portion of a work plan or remedial action plan that pertains to only baseline environmental assessment activities or due care activities, or both, the department shall provide 1 of the following written responses to the requesting authority within 60 days:

(a) An unconditional approval.

(b) A conditional approval that delineates specific necessary modifications to the work plan or remedial action plan, including, but not limited to, individual activities to be added or deleted from the work plan or remedial action plan and revision of costs.

(c) If the work plan or remedial action plan lacks sufficient information for the department to respond under subdivision (a) or (b), a letter stating with specificity the necessary additions or changes to the work plan or remedial action plan to be submitted before a plan will be considered by the department.

(4) In its review of a work plan or remedial action plan, the department shall consider all of the following:

(a) Whether the individual activities included in the work plan or remedial action plan are sufficient to complete the eligible activity.

(b) Whether each individual activity included in the work plan or remedial action plan is required to complete the eligible activity.

(c) Whether the cost for each individual activity is reasonable.

(5) If the department fails to provide a written response under subsection (3) within 60 days after receipt of a request for approval of a work plan or remedial action plan that pertains to baseline environmental assessment activities or due care activities, or both, the authority may proceed with the baseline environmental assessment activities or due care activities, or both, as outlined in the work plan or remedial action plan as submitted for approval. Except as provided in subsection (6), baseline environmental assessment activities or due care activities, or both, conducted pursuant to a work plan or remedial action plan that was submitted to the department for approval but for which the department failed to provide a written response under subsection (3) shall be considered approved for the purposes of subsection (1).

(6) The department may issue a written response to a work plan or remedial action plan that pertains to baseline environmental assessment activities or due care activities, or both, more than 60 days but less than 6 months after receipt of a request for approval. If the department issues a written response under this subsection, the authority is not required to conduct individual activities that are in addition to the individual activities included in the work plan or remedial action plan as it was submitted for approval and failure to conduct these additional activities shall not affect the authority's ability to capture taxes under subsection (1) for the eligible activities described in the work plan or remedial action plan initially submitted under subsection (5). In addition, at the option of the authority, these additional individual activities shall be considered part of the work plan or remedial

action plan of the authority and approved for purposes of subsection (1). However, any response by the department under this subsection that identifies additional individual activities that must be carried out to satisfy the baseline environmental assessment or due care requirements, or both, of part 201 of the natural resources and environmental protection act, 1994 PA 451, MCL 324.20101 to 324.20142, must be satisfactorily completed for the baseline environmental assessment or due care activities, or both, to be considered acceptable for the purposes of compliance with part 201 of the natural resources and environmental protection act, 1994 PA 451, MCL 324.20101 to 324.20142.

(7) If the department issues a written response under subsection (6) to a work plan or remedial action plan that pertains to baseline environmental assessment activities or due care activities, or both, and if the department's written response modifies an individual activity proposed by the work plan or remedial action plan of the authority in a manner that reduces or eliminates a proposed response activity, the authority must complete those individual activities included in the baseline environmental assessment or due care activities, or both, in accordance with the department's response in order for that portion of the work plan or remedial action plan to be considered approved for purposes of subsection (1), unless 1 or more of the following conditions apply:

(a) Obligations for the individual activity have been issued by the authority, or by a municipality on behalf of the authority, to fund the individual activity prior to issuance of the department's response.

(b) The individual activity has commenced or payment for the work has been irrevocably obligated prior to issuance of the department's response.

(8) It shall be in the sole discretion of an authority to propose to undertake additional response activities at an eligible property under a brownfield plan. The department shall not require a work plan or remedial action plan for either baseline environmental assessment activities or due care activities, or both, to include additional response activities.

(9) The department may reject the portion of a work plan or remedial action plan that includes additional response activities and may consider the level of risk reduction that will be accomplished by the additional response activities in determining whether to approve or reject the work plan or remedial action plan or a portion of a plan.

(10) The department's approval or rejection of a work plan under subsection (1)(a) or (b) or remedial action plan for additional response activities is final.

(11) The authority shall reimburse the department for the actual cost incurred by the department or a contractor of the department to review a work plan under subsection (1)(a) or (b) or remedial action plan under this section. Funds paid to the department under this subsection shall be deposited in the cost recovery subaccount of the cleanup and redevelopment fund created under section 20108 of the natural resources and environmental protection act, 1994 PA 451, MCL 324.20108.

(g) A copy of the development agreement required under section 13(15), which shall include, but is not limited to, a detailed summary of any and all ownership interests, monetary considerations, fees, revenue and cost sharing, charges, or other financial arrangements or other consideration between the parties.

(a) An unconditional approval that includes an enumeration of eligible activities and a maximum allowable capture amount.

(b) A conditional approval that delineates specific necessary modifications to the work plan, including, but not limited to, individual activities to be added or deleted from the work plan and revision of costs.

(c) A denial and a letter stating with specificity the reason for the denial. If a work plan is denied under this subsection, the work plan may be subsequently resubmitted.

(15) In its review of a work plan under subsection (1)(c) or section 13(15), the Michigan economic growth authority shall consider the following criteria to the extent reasonably applicable to the type of activities proposed as part of that work plan when approving or denying a work plan:

(a) Whether the individual activities included in the work plan are sufficient to complete the eligible activity.

(b) Whether each individual activity included in the work plan is required to complete the eligible activity.

(c) Whether the cost for each individual activity is reasonable.

(d) The overall benefit to the public.

(e) The extent of reuse of vacant buildings and redevelopment of blighted property.

(f) Creation of jobs.

(g) Whether the eligible property is in an area of high unemployment.

(h) The level and extent of contamination alleviated by or in connection with the eligible activities.

- (k) If the developer or projected occupant of the new development is moving from another location in this state, whether the move will create a brownfield.

- (m) Other state and local incentives available to the developer, landowner, or corporate entity for the project of the developer, landowner, or corporate entity that is included in the work plan.
- (n) Any other criteria that the Michigan economic growth authority considers appropriate for the determination of eligibility or for approval of the work plan.
- (16) If the Michigan economic growth authority fails to provide a written response under subsection (14) within 65 days after receipt of a request for approval of a work plan, the eligible activities shall be considered approved and the authority may proceed with the eligible activities described in section 13(15) as outlined in the work plan as submitted for approval.
- (17) The Michigan economic growth authority's approval of a work plan under section 13(15) is final.
- (18) The authority shall reimburse the Michigan economic growth authority for the actual cost incurred by the Michigan economic growth authority or a contractor of the Michigan economic growth authority to review a work plan under this section.
- (19) The Michigan economic growth authority shall submit a report each year on or before March 1 to each member of the legislature that contains all of the following:

- (20) All taxes levied for school operating purposes that are not used for eligible activities consistent with a work plan approved by the department or the Michigan economic growth authority or for the payment of interest under section 13 and that are not deposited in a local site remediation revolving fund shall be distributed proportionately between the local school district and the school aid fund.
- (21) An authority shall not use taxes levied for school operating purposes captured from eligible property for eligible activities for a qualified facility or for eligible activities for property located in an economic opportunity zone.

324.32702 Legislative findings and declarations; authority.

Sec. 32702. (1) The legislature finds and declares that:

(a) A diversion of water out of the basin of the Great Lakes may impair or destroy the Great Lakes. The legislature further finds that a limitation on such diversions is authorized by and is consistent with the mandate of section 52 of article IV of the state constitution of 1963 that the legislature provide for the protection of the air, water, and other natural resources of the state from pollution, impairment, and destruction.

(b) Water use registration and reporting are essential to implementing the principles of the Great Lakes charter and necessary to support the state’s opposition to diversion of waters of the Great Lakes basin and to provide a source of information on water use to protect Michigan’s rights when proposed water losses affect the level, flow, use, or quality of waters of the Great Lakes basin.

(c) The waters of the state are valuable public natural resources held in trust by the state, and the state has a duty as trustee to manage its waters effectively for the use and enjoyment of present and future residents and for the protection of the environment.

(d) The waters of the Great Lakes basin are a valuable public natural resource, and the states and provinces of the Great Lakes region and Michigan share a common interest in the preservation of that resource.

(e) Any new diversion of waters of the Great Lakes basin for use outside of the Great Lakes basin will have significant economic and environmental impact adversely affecting the use of this resource by the Great Lakes states and Canadian provinces.

(f) The continued availability of water for domestic, municipal, industrial, and agricultural water supplies, navigation, hydroelectric power and energy production, recreation, and the maintenance of fish and wildlife habitat and a balanced ecosystem are vital to the future economic health of the states and provinces of the Great Lakes region.

(g) Future interbasin diversions and consumptive uses of waters of the Great Lakes basin may have significant adverse impacts upon the environment, economy, and welfare of the Great Lakes region and of this state.

(h) The states and provinces of the Great Lakes region have a duty to protect, conserve, and manage their shared water resources for the use and enjoyment of present and future residents.

(i) The waters of the Great Lakes basin are capable of concurrently serving multiple uses, and such multiple uses of water resources for municipal, public, industrial, commercial, agriculture, mining, navigation, energy development and production, recreation, water quality maintenance, and the maintenance of fish and wildlife habitat and a balanced ecosystem and other purposes are encouraged, recognizing that such uses are interdependent and must be balanced.

(2) The legislature has the authority under sections 51 and 52 of article IV of the state constitution of 1963 to regulate the withdrawal and uses of the waters of the state, including both surface water and groundwater, to promote the public health, safety, and welfare and to protect the natural resources of the state from pollution, impairment, and destruction, subject to constitutional protections against unreasonable or arbitrary governmental action and the taking of property without just compensation. This authority extends to all waters within the territorial boundaries of the state.

324.32703 Diversion of waters prohibited.

Sec. 32703. Subject to section 32704, the waters of the Great Lakes basin within the boundaries of this state shall not be diverted out of the Great Lakes basin.

324.32703a Diversion; authorization; conditions.

Sec. 32703a. (1) If the prohibition in section 32703 is determined to be invalid, the waters of the state shall not be diverted unless authorized by law.

(2) When considering whether to grant legislative approval for a diversion, the legislature shall consider sections 51 and 52 of article IV of the state constitution of 1963 and whether the project serves a public purpose, whether the project will result in no material harm to the waters of the state, the public trust, or related purposes, and whether the project would result in any improvement to the waters of the state or the water dependent natural resources of the state.

324.32704a Diversion; proposal; comment period; notification; waiver.

Sec. 32704a. The governor shall establish a public comment period with regard to a proposal subject to 42 USC 1962d-20 to divert waters of the Great Lakes basin outside of the Great Lakes basin and shall notify the standing committees of the legislature with jurisdiction over issues primarily pertaining to natural resources and the environment of his or her receipt of the proposal. The governor may waive the comment period under this section if he or she determines that it is necessary to take immediate action to provide humanitarian relief or firefighting capabilities.

324.32707 Reporting requirements; forms; water use reporting fees.

Sec. 32707. (1) Except as provided in subsections (2) and (3), a person who is required to register under section 32705 or holds a permit under section 32723 shall file a report

annually with the department on a form provided by the department. Reports shall be submitted by April 1 of each year. Except as provided in subsection (8), reports shall include the following information:

- (a) The amount and rate of water withdrawn on an annual and monthly basis.
- (b) The source or sources of the water supply.
- (c) The use or uses of the water withdrawn.
- (d) The amount of consumptive use of water withdrawn.

(e) If the source of the water withdrawn is groundwater, the location of the well or wells in latitude and longitude, with the accuracy of the reported location data to within 25 feet.

(f) If the source of water withdrawn is groundwater, the static water level of the aquifer or aquifers, if practicable.

(g) Other information specified by rule of the department.

(h) At the discretion of the registrant or permit holder, the baseline capacity of the withdrawal and, if applicable, a description of the system capacity. If the registrant or permit holder chooses to report the baseline capacity under this subdivision, that information shall be included in the next report submitted by the registrant or permit holder after the effective date of the amendatory act that added this subdivision. Information reported under this subdivision needs only to be reported to the department on 1 occasion.

(i) At the discretion of the registrant or permit holder, the amount of water returned to the source watershed.

(2) If a person reports the information required by this section to the department in conjunction with a permit or for any other purpose, that reporting, upon approval of the department, shall satisfy the reporting requirements of this section.

(3) The owner of a farm who reports water use under section 32708 is not required to report under subsection (1).

(4) The department may, upon request from a person required to report under this section, accept a formula or model that provides to the department's satisfaction the information required in subsection (1).

(5) The department shall develop forms for reporting under this section that minimize paperwork and allow for a notification to the department instead of a report if the annual amount of water withdrawn by a person required to report under this section is within 4% of the amount last reported and the other information required in subsection (1) has not changed since the last year in which a report was filed.

(6) Information described in section 32701(c)(i)(C) that is provided to the department under subsection (1)(h) is exempt from disclosure under the freedom of information act, 1976 PA 442, MCL 15.231 to 15.246, and shall not be disclosed unless the department determines that the withdrawal is causing an adverse resource impact.

(7) Except as otherwise provided in this subsection, a person who files an annual report or notification under this section shall annually remit a water use reporting fee of \$200.00 to the department. Beginning when a water withdrawal assessment tool becomes effective upon legislative enactment pursuant to the recommendations of the groundwater conservation advisory council under section 32803, a person who files an annual report or notification under this section shall annually remit a water use reporting fee of \$100.00 to the department. Water use reporting fees shall be remitted to the department in conjunction with the annual report or notification submitted under this section. The department shall transmit water use reporting fees collected under this section to the state treasurer

to be credited to the water use protection fund created in section 32714. A water use reporting fee is not required for a report or notification related to a farm that reports withdrawals under section 32708 or for a report under subsection (8).

(8) A person who withdraws less than 1,500,000 gallons of water in any year shall indicate this fact on the reporting form and is not required to provide information under subsection (1)(a) or (d). A person who withdraws less than 1,500,000 gallons of water in any year is not required to pay the water use reporting fee under subsection (7).

324.32713 Civil action.

Sec. 32713. The department may request the attorney general to commence a civil action for appropriate relief, including a permanent or temporary injunction, for a violation of this part or a rule promulgated under this part. An action under this section shall be brought in the circuit court for the county of Ingham or for the county in which the defendant is located, resides, or is doing business. The court has jurisdiction to restrain the violation and to require compliance. In addition to any other relief granted, the court may impose a civil fine of not more than \$1,000.00. However, a person who knowingly violates section 32721 or 32723 or the terms of a permit issued under section 32723 is responsible for the payment of a civil fine of not more than \$5,000.00 per day of violation. In addition to a fine, the attorney general may file a suit in a court of competent jurisdiction to recover the full value of the costs of surveillance and enforcement by the state resulting from the violation.

324.32714 Water use protection fund; creation; disposition of assets; investments; money remaining in fund; expenditures.

Sec. 32714. (1) The water use protection fund is created within the state treasury.

(2) The state treasurer may receive money or other assets from any source for deposit into the fund. The state treasurer shall direct the investment of the fund, and shall credit to the fund interest and earnings from fund investments.

(3) Money in the fund at the close of the fiscal year shall remain in the fund and shall not lapse into the general fund.

(4) The department may expend money from the fund, upon appropriation, only for 1 or more of the following:

(a) The implementation and administration of this part.

(b) The preparation of the statewide groundwater inventory and map under section 32802.

(c) The expenses of the groundwater conservation advisory council under part 328.

(d) The implementation and administration of part 317.

324.32721 Large quantity withdrawal; prohibitions.

Sec. 32721. (1) A person shall not make a new or increased large quantity withdrawal from the waters of the state that causes an adverse resource impact to a designated trout stream.

(2) Beginning 2 years after the effective date of the amendatory act that added this section, a person shall not make a new or increased large quantity withdrawal from the waters of the state that causes an adverse resource impact.

(3) This section does not apply to the baseline capacity of a large quantity withdrawal or a well capable of making a large quantity withdrawal that existed on the effective date of the amendatory act that added this section.

(4) This section does not apply to a withdrawal that is utilized solely for fire suppression.

324.32722 Presumption.

Sec. 32722. (1) Until a water withdrawal assessment tool becomes effective upon legislative enactment pursuant to the recommendations of the groundwater conservation advisory council under section 32803, there is a rebuttable presumption that a new or increased large quantity withdrawal will not cause an adverse resource impact in violation of section 32721 under either of the following circumstances:

(a) The location of the withdrawal is more than 1,320 feet from the banks of a designated trout stream.

(b) The withdrawal depth of the well is at least 150 feet.

(2) A presumption under subsection (1) may be rebutted by a preponderance of evidence that a new or increased large quantity withdrawal from the waters of the state has caused or is likely to cause an adverse resource impact.

324.32723 Water withdrawal permit; persons required to obtain; application; fee; issuance; conditions; revocation; petition for contested case hearing; exemptions from permit requirements; definitions.

Sec. 32723. (1) Except as provided in subsection (10), the following persons shall obtain a water withdrawal permit prior to making the withdrawal:

(a) A person who develops withdrawal capacity to make a new withdrawal of over 2,000,000 gallons of water per day from the waters of the state, other than the Great Lakes and their connecting waterways, to supply a common distribution system.

(b) A person who develops increased withdrawal capacity beyond baseline capacity of more than 2,000,000 gallons of water per day from the waters of the state, other than the Great Lakes and their connecting waterways, to supply a common distribution system.

(c) A person who develops withdrawal capacity to make a new withdrawal of more than 5,000,000 gallons of water per day from the Great Lakes and their connecting waterways to supply a common distribution system.

(d) A person who develops increased withdrawal capacity beyond baseline capacity of more than 5,000,000 gallons of water per day from the Great Lakes and their connecting waterways to supply a common distribution system.

(2) A person shall apply for a permit under this section by submitting an application to the department containing the information described in section 32706. In addition, until 5 years after the effective date of the amendatory act that added this section, the applicant shall submit an application fee in the amount of \$2,000.00. The department shall transmit water use reporting fees collected under this section to the state treasurer to be credited to the water use protection fund created in section 32714. The department shall provide public notice of all applications received under this section.

(3) A permit application is considered to be administratively complete effective 30 days after it is received by the department unless the department notifies the applicant, in writing, during this 30-day period that the application is not administratively complete or that the fee required to be accompanied with the application has not been paid. If the department determines that the application is not administratively complete, the notification shall specify the information necessary to make the application administratively complete. If the department notifies the applicant as provided in this subsection, the 30-day period is tolled until the applicant submits to the department the specified information or fee.

(4) The department shall make a decision whether to grant or deny a permit under this section within 120 days of receipt of an administratively complete application.

(5) The department shall issue a permit under subsection (1)(a) or (b) if the department determines that the withdrawal is not likely to cause an adverse resource impact.

(6) The department shall issue a permit under subsection (1)(c) or (d) if all of the following conditions are met:

(a) All water withdrawn, less any consumptive use, is returned, either naturally or after use, to the source watershed.

(b) The withdrawal will be implemented so as to ensure that the proposal will result in no individual or cumulative adverse resource impacts. Cumulative adverse resource impacts under this subdivision shall be evaluated by the department based upon available information gathered by the department.

(c) Subject to section 32726, the withdrawal will be implemented so as to ensure that it is in compliance with all applicable local, state, and federal laws as well as all legally binding regional interstate and international agreements, including the boundary waters treaty of 1909.

(d) The proposed use is reasonable under common law principles of water law in Michigan.

(e) The applicant has considered voluntary generally accepted water management practices or environmentally sound and economically feasible water conservation measures.

(7) A permit issued under part 31 pursuant to 33 USC 1326(b) shall be considered sufficient to demonstrate that there will not be an adverse resource impact under section 32721 and satisfies the conditions for a permit under this section. Upon receipt of a permit application and evidence that the applicant holds a part 31 permit described in this subsection, the department shall grant the applicant a permit under this subsection.

(8) The department may revoke a permit issued under this section if the department determines following a hearing, based upon clear and convincing scientific evidence, that the withdrawal is causing an adverse resource impact.

(9) A person who is aggrieved by a determination of the department under this section related to a permit may file a sworn petition with the department setting forth the grounds and reasons for the complaint and asking for a contested case hearing on the matter pursuant to the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328. A petition filed more than 60 days after action on the permit may be rejected by the department as being untimely. The department shall issue a final decision on a petition for a contested case hearing within 6 months after receiving the petition. A determination, action, or inaction by the department following a contested case hearing is subject to judicial review as provided in the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328.

(10) The following are not required to obtain a permit under this section:

(b) A person who makes seasonal withdrawals of not more than 2,000,000 gallons of water per day average in any consecutive 90-day period to supply a common distribution system.

(c) A person engaged in producing bottled drinking water who receives approval by the department under a water source review conducted under section 17 of the safe drinking water act, 1976 PA 399, MCL 325.1017.
