Rev. Ray A. Strawser II, Chaplain of Memorial Healthcare Hospice in Owosso, offered the following invocation:

“God of all peoples, places, and times,  
God Who gives each breath we take and the vital strength of body, mind and spirit.  
God the source of liberty and justice for all.

We gather today in this historic hall mindful of the legacy of those who have served this great state since its founding. Through the dedicated service, wisdom, passion, and sacrifice willing women and men, this state has grown to be a land of invention, innovation, and opportunity. Elected leaders from diverse communities have labored together to navigate the challenges and complexities of times past, enabling us to be the Historic and Great state of Michigan.

We are equally mindful of the great cause and great need of our day—to be the servant leaders in our time, for in our hands lie the future prosperity and strength of our homes and institutions, our businesses and communities, our human, economic, and natural resources. We recognize that the lives of every citizen of this state is shaped by every discussion, every partnership, every goal, every bill, every law and every decision made in the halls, offices and chamber of this edifice.

God, we pause to acknowledge that serving well the great people of this state requires Your wisdom, guidance and strength. Therefore I ask Your blessing to fall upon every person and every task in this historic building. Whether religious or not, I ask You to move in the hearts and minds of every elected representative and staff person this day. Give understanding and patience where there might be disagreement. Give unity when differences seem so large. The details of this work may seem small, but the needs are great. Compel and enable all who serve here to be selfless, wise, visionary and strong in the great cause we call Michigan.

I humbly seek Your blessing on this assembly today. AMEN.”

The Speaker called the Speaker Pro Tempore to the Chair.

Rep. Greig moved that Reps. Garrett and Phelps be excused from today’s session.  
The motion prevailed.

### Motions and Resolutions

Reps. Wentworth, Albert, Hoitenga, Barrett and Johnson offered the following resolution:

**House Resolution No. 50.**

A resolution to urge the Congress of the United States to eliminate the “widows’ tax” on the surviving spouses of retired U.S. military service members.

Whereas, Retired military service members may participate in the Survivor Benefit Program. The Survivor Benefit Program is an optional annuity designed to provide a lifetime monthly benefit to the surviving spouse of a service member. The annuity payments offset part of the retirement income lost as a result of the service member’s death. The annuity’s premium is paid by the retired service member through a deduction from their monthly retirement benefit check; and

Whereas, The U.S. Department of Veterans Affairs provides a tax-free monthly benefit to the surviving spouses of eligible military service members who died as a result of service-related injuries or diseases. The Dependency and Indemnity Compensation program’s earned benefit expresses a measure of thanks from a grateful nation to a fallen soldier’s family. Benefits start with a standard monthly allowance for the surviving spouse and additional benefits are provided under certain circumstances; and

Whereas, Under federal law, a surviving spouse is punished for having both a paid annuity and earned indemnity benefits. When a surviving spouse of a military retiree is eligible to receive a monthly annuity payment through the Survivor Benefit Program and has been awarded a monthly benefit through the Dependency and Indemnity Compensation program, the retirement annuity is offset dollar-for-dollar by the amount of benefits received because of their service-related death. This offset is commonly referred to throughout the veterans’ community as the “widows’ tax” and can cause \$14,580 a year or more in reduced payments to beneficiaries; and

Whereas, The indemnity compensation should be in addition to the retirement annuity rather than in place of it. The rationale and qualifications for these two programs are wholly different. The Survivor Benefit Program is a personal financial decision made by a military retiree to provide some degree of financial security to their surviving spouse while the Veterans Affairs indemnity program is an earned benefit awarded following a service-connected death. The Survivor Benefit

Program's mandated premium payments set it apart from the indemnity program's survivor benefits, and the government should not be taking the annuity benefits bought by service members for their families. Congress should ensure that the families who have given so much in the service of their country receive all of their military survivor benefits and retirement annuities; now, therefore, be it

Resolved by the House of Representatives, That we urge the Congress of the United States to eliminate the "widows' tax" on the surviving spouses of retired U.S. military service members; and be it further

Resolved, That copies of this resolution be transmitted to the President of the United States Senate, the Speaker of the United States House of Representatives, and the members of the Michigan congressional delegation.

The resolution was referred to the Committee on Military and Veterans Affairs.

Reps. Rabhi, Wittenberg, Hoadley, Hammoud, Sowerby, Clemente, Ellison, Lucido, Hertel, Pagan, Gay-Dagnogo, Sabo, Chang, Neeley, Durhal, Santana, Cochran, Geiss, Jones and Love offered the following resolution:

**House Resolution No. 51.**

A resolution to urge the Governor and Attorney General to exercise their authority as guardians of the public trust to terminate the 1953 easement and shut down the Enbridge Energy Line 5 pipelines on the bottomlands of the Straits of Mackinac.

Whereas, The Great Lakes are crucial to Michigan's economy, ecology, and identity. Our state's freshwater resources are vital to agriculture, fishing, manufacturing, tourism, wildlife, and drinking water. One in five Michigan jobs are directly connected to our water resources; and

Whereas, An oil spill in the Straits of Mackinac would be devastating for our state. The United States Coast Guard testified before Congress in 2015 that the Coast Guard would not be able to respond effectively to a leak in the Great Lakes, particularly if a leak occurred under ice cover. Modeling conducted in 2016 by University of Michigan hydrodynamics researchers determined that a rupture of Line 5 would likely contaminate at least 700 miles of coastline; and

Whereas, The Enbridge Energy Line 5 pipeline under the Straits of Mackinac is 64 years old, and transports nearly 23 million gallons of light crude oil and natural gas liquids daily through an ecologically vulnerable area; and

Whereas, The state of Michigan holds the bottomlands of the Great Lakes in inalienable public trust and in 1953 granted Enbridge an easement to operate Line 5 under the Straits. The terms of the easement require that Enbridge "follow the usual, necessary and proper procedures for the type of operation involved, and at all times shall exercise the due care of a reasonably prudent person for the safety and welfare of all persons and all public and private property"; and

Whereas, Because of the age of the pipeline, the buildup of biota, the lack of adequate emergency response plans, and the fact that hydrocarbon flows are 80 percent above the original specifications, Enbridge is not operating Line 5 with due care; and

Whereas, Enbridge is in longstanding material breach of specific structural conditions of the easement; and

Whereas, The easement requires the pipeline be not less than 0.812 inches thick, but some areas are up to 41 percent thinner than required due to milling defects in the original construction. Additionally, areas of corrosion eroding up to 26 percent of the pipeline thickness were detected in 2013; and

Whereas, The easement requires supportive anchors at least every 75 feet, but inspections as early as 1979 have repeatedly found unsupported spans exceeding this length as erosion washes out areas previously supported on the lake bottom. Most recently, unsupported spans were revealed in the summer of 2016 despite assurances from Enbridge in 2014 that the problem would not recur. Inadequate support puts cumulative stress on the pipeline and its welds over the long term; and

Whereas, The easement requires the pipeline be protected by an anticorrosion coating. A work plan submitted by Enbridge to the U.S. Environmental Protection Agency in 2016 indicates at least 19 areas of apparent delamination of this coating; and

Whereas, The easement requires Enbridge post a liability bond of at least \$1 million and a surety bond of \$100,000, amounts that do not even approach the likely cost of cleanup given that Enbridge's spill in the Kalamazoo River cost over \$1.2 billion. According to the Michigan Petroleum Pipeline Task Force Report, Enbridge has yet to document that it is in compliance with even this minimal requirement; and

Whereas, The Governor and Attorney General have a duty to protect the people and economy of Michigan and to ensure the public trust in the Great Lakes; and

Whereas, Further study and delay are unnecessary and hazardous because it is already evident that Enbridge's material breaches of the easement present an unacceptable risk of catastrophe that cannot be remedied in the 90-day period provided in the easement agreement; now, therefore, be it

Resolved by the House of Representatives, That we urge the Governor and Attorney General to exercise their authority immediately to terminate the 1953 easement and shut down the Enbridge Energy Line 5 pipelines on the bottomlands of the Straits of Mackinac; and be it further

Resolved, That copies of this resolution be transmitted to the Governor and Attorney General.

The resolution was referred to the Committee on Energy Policy.
