House Bill 4330

Sponsor: Rep. Paul Condino

Committee: Judiciary

Complete to 4-22-08

A SUMMARY OF HOUSE BILL 4330 AS INTRODUCED 3-27-07

The bill would amend the Corrections Code to require that a parole order for a prisoner serving a sentence for aggravated stalking include a requirement that the prisoner's location be monitored by a global positioning monitoring system during the entire period of parole.

As used in the bill, "global positioning monitoring system" would mean a system that electronically determined and reported the location of an individual by means of an ankle bracelet transmitter or similar device worn by the individual, which transmitted latitude and longitude data to monitoring authorities through global positioning satellite technology.
