Senate Bill 772 (as enrolled) Sponsor: Senator Ron Jelinek Committee: Appropriations

Date Completed: 10-1-07

CONTENT

The annual appropriation bills for fiscal year (FY) 2007-08 will not be signed into law by the Governor by October 1, 2007. Absent enacted appropriation bills, the State would have no ability to fund any programs or to pay for any expenses incurred after October 1, 2007. The provision of temporary or interim appropriations will eliminate this potential disruption in State governmental programs and services. Senate Bill 772 provides for interim appropriations for the month of October 2007. The bill provides appropriations for the period October 1, 2007, through October 31, 2007, for all State departments and agencies, the legislative branch, the judicial branch, universities, community colleges, and capital outlay programs.

FISCAL IMPACT

The bill provides for Gross appropriations of \$2.8 billion, of which \$977.4 million are funded with General Fund/General Purpose (GF/GP) appropriations. The bill also includes the appropriation authorization for 181.5 unclassified positions, 509.0 exempted positions, and 56,269.3 full-time equated classified positions. The funding levels assumed in the bill, with several exceptions, are for $1/12^{\text{th}}$ (8.3%) of the FY 2006-07 year-to-date level of appropriations. There is a single line-item appropriation, with several exceptions, for most departments. The bill also contains language that instructs the Executive branch to distribute the line-item appropriation for each department based on the policies, procedures, and conditions during FY 2006-07. The final items in the bill are numerous boilerplate language sections which are necessary to ensure that departmental operations continue during October 2007 at the same level as in the 2006-07 fiscal year.

Departmental Line-Item Appropriations

The appropriations for the Departments of Agriculture, Attorney General, Civil Rights, Community Health, Corrections, Education, Environmental Quality, History, Arts and Libraries, Human Services, Information Technology, Labor and Economic Growth, Military and Veterans Affairs, Natural Resources, State, and State Police, the Executive Office, and the Michigan Strategic Fund represent an appropriation equal to $1/12^{\rm th}$ (8.3%) of the FY 2006-07 year-to-date level of appropriations. The appropriations for the Legislature, the Legislative Auditor General, and the Judicial branch also represent an appropriation equal to 1/12th (8.3%) of the FY 2006-07 year-to-date level of appropriations. The appropriations for the Departments of Management and Budget, Treasury, and Transportation also include a specific appropriation line item for debt service payments on outstanding bonds. The appropriations in these Departments for debt service payments are equal to the projected level of debt service payments due in October 2007.

The appropriations for community colleges and universities are equal to the projected State appropriations that the institutions would receive in October 2007 based on the payment schedules currently in law. In addition, the bill contains line-item appropriations for the payment of funding that was delayed to help balance the FY 2006-07 State budget. The level of appropriations for the payment of the delayed FY 2006-07 funding equals \$25.8 million for community colleges and \$138.7 million for universities. Table 1 summaries the Gross and GF/GP appropriations included in the bill.
