

Dear Representative,

I can't tell you how important it will be to see that ***this bill passes***. Gov. Granholm's approach may have been a bit too zealous, but this is the perfect compromise. Just when things started to get rolling we pulled the rug out. Film makers need **certainty and predictability** before they will invest again here. Once a critical mass is formed, maybe at that time this should once again be revisited, but not until then.

Regards,

Rod Myers CPA
