Re: Testimony against SB 929, HB 5246, HB 5477

Dear esteemed Michigan House Representatives:

It seems to me that the 21st Century Jobs (MSF) is simply MI picking winners and losers with regard to MI businesses at the expense of the taxpayers. It's our version of DOE's ... Solyndra type picks. Why must the state engage in that taxpayer money "investment"? Simply make Michigan Laws more business friendly. Stop with special breaks, incentives and special carve-outs. It's fundamentally unjust to all Michigan citizens. I've read about the MSF's energy focus.. "wind, sun, trees, algae, grasses and bio-solids". Seriously? Those are hugely inefficient and expensive energy sources and that's what you're trying to push on Michigan? This whole 21st Century Jobs fund is nothing more than Crony-Capitalism which isn't capitalism as all.

Michigan deserves solid legislation that encourages all types businesses to relocate here of their own volition, without taxpayer paid bribes or taxpayer paid "investment". Freedom is the best way and a business friendly (low taxes and regulations) free market system will bring prosperity to all of Michigan... not just ones trying to make energy from manure "bio-solids".

How about some nice Right to Work legislation? You'll get businesses to come to Michigan without costing us a dime. Please allow that 21st Century Jobs fund to simply fizzle out...like the VOLT battery. We've gone the 40 miles already.

Thank you for your time and consideration. I'm sorry I could not appear before you today but I'm in Washington D.C. protesting Obamacare.

**My Best,
Isabelle Terry
