**Subject:** Please pass Grant's Bill SB 423 and SB 424

Dear Senator Hune and members of the Agriculture Committee,

On behalf of Puppy Mill Awareness of Southeast Michigan, I am writing you today to ensure you understand that we are in full support of only humane euthanasia. Please pass Grant's Bill SB 423 and SB 424 so we can finally ban the gassing of shelter pets in Michigan.

With training and funding, many counties have already elected to remove their ineffective, inefficient, dangerous and expensive gas chambers. However, we still need this legislation to ensure shelter pets receive the humane treatment if euthanasia is necessary.

We strongly object to any animals needlessly suffering when there are safe alternatives available.

Thank you

---
