**Detroit River International Crossing Study
Scoring Form – Evaluation Factors**

How Important Are These Items?

We want to know how you value the seven evaluation factors listed below. To provide us your opinion, please rate them on the scale of "1" through "100", with the highest rating indicating the item you believe is *most important*. Draw a line from the dot (•) following each factor on the left, to the scale on the right, to indicate your opinion. If you choose, you can have all factors at the same point on the scale at the right. When finished, return your form to a project representative, or by email, or by fax at the addresses listed at the bottom of this form.

Your opinions will be used to evaluate the impacts of the Illustrative Alternatives of the Detroit River International Crossing Project. In that process the Detroit River International Crossing Partnership must also consider the project's Purpose and Need Statement (attached). Therefore, a proposed river crossing alternative's international and national importance from economic and travel/transportation (including freight) perspectives may be overriding considerations throughout the evaluation. Thank you.

Factor

Rating Scale

Maintain Air Quality

•

Protect Community/Neighborhood Characteristics

•

Maintain Consistency with Local Planning

•

Protect Cultural Resources

•

Protect the Natural Environment

•

Improve Regional Mobility

•

Assess How Project Can Be Built
