**OVERVIEW**

The Executive recommended supplemental for Michigan Natural Resources Trust Fund (MNRTF) acquisition and development projects totals \$39,665,200. The supplemental request for the Department of Natural Resources (DNR) has a net impact of \$0 on appropriations and consists of several fund source shifts involving federal funding and the Michigan State Waterways Fund. These adjustments are intended to help ensure that available federal funding is utilized by the state and makes additional Michigan State Waterways funding available for capital outlay boating access projects.
