

**A typical family outing on Michigan St. Patrick's Day. Eight of the people in this photo have a known risk for sudden cardiac arrest. There is an AED in the diaper bag.**

**We need AEDs in public places and we need to know how to respond in emergencies.**

**What better place to be prepared than in our schools who serve us all in some way?**

**Four of these children have a known risk for sudden cardiac arrest. We are lucky that we know. Others who are at risk do not always know.**
