RE: Driver's Training Awareness Bill

ABATE of Michigan is both excited and very supportive of this legislation to require driver's training classes to cover motorcycles and bicycles. We have trained over 80,000 driver's training students on a voluntary basis already sending members into driver education classes stressing that they "Look Twice to save a Life." Some of our regions have been turned away from driver's education programs because it was not required by the state. This legislation would provide us a valid argument to allow our members to offer an awareness program in their local driver's training classes.

Thank you,

Vince Consiglio
