House Bill 5288 (proposed substitute H-2)

Sponsor: Rep. Andrew Beeler
Committee: Elections and Ethics
Complete to 10-5-21

Analysis available at
<http://www.legislature.mi.gov>

SUMMARY:

House Bill 5288 would amend the Michigan Election Law to require applicants for absent voter (AV) ballots to physically sign the application and not be allowed to use a digital or electronic signature to sign an application. Additionally, the secretary of state, a county, city, or township clerk, an organization, and any individual employed by, contracted by, or associated with an organization would be prohibited from providing an online AV ballot application that does not require the applicant to physically sign the application.

Also, while the statute currently allows a person to apply for an AV ballot in person or by mail, the bill would provide that the application may be in person or in writing by mail, email, or fax. It also would provide that AV ballot applications cannot be sent out or made available more than 75 days before an election.

Currently, the secretary of state allows registered voters to apply for an AV ballot online.¹ In addition to requirements that the applicant include his or her full name, driver's license or state ID number, birth date, eye color as printed on the license or state ID, and last four digits of the applicant's Social Security number, the application includes the following attestation:

* Signature

I authorize the Secretary of State to send my stored digital signature to my city or township clerk for my absent voter ballot application.

Yes No

MCL 168.759

FISCAL IMPACT:

The bill would have no fiscal impact on the Department of State or local units of government.
