

SENATE BILL NO. 1016

April 21, 2022, Introduced by Senator POLEHANKI and referred to the Committee on Appropriations.

A bill to establish an electric vehicle charging equipment rebate program for residents of this state who purchase and install certain at-home charging equipment; to establish a process for the application and awarding of rebates; and to prescribe the powers and duties of certain state entities and officers.

THE PEOPLE OF THE STATE OF MICHIGAN ENACT:

1 Sec. 1. (1) Subject to an appropriation, the department shall
2 establish and implement an electric vehicle charging equipment
3 rebate program for residents of this state who purchase and install

1 at-home charging equipment at their principal residence after
2 October 1, 2022. The department shall develop an application
3 process for individuals to apply for rebates under this program. To
4 be eligible for a rebate under this program, the applicant must be
5 a resident of this state and the at-home charging system purchased
6 must be new and installed at the purchaser's principal residence.
7 The purchase of at-home charging equipment does not need to be in
8 conjunction or simultaneous with the purchase of an electric
9 vehicle to be eligible for a rebate under this program. The
10 department may require applicants to submit documentation with the
11 application as necessary to determine the eligibility of the
12 applicant for a rebate under this program.

13 (2) Subject to the limitations under this section, an
14 applicant who submits a completed application for the purchase and
15 installation of at-home charging equipment within 120 days of
16 making that purchase is eligible to receive a rebate in an amount
17 of not more than \$500.00. Upon receipt of a completed application,
18 the department must determine eligibility of the applicant and, if
19 eligible, issue the rebate within a reasonable time.

20 (3) An applicant is limited to a rebate for the purchase and
21 installation of 1 at-home charging equipment per calendar year.

22 Sec. 3. As used in this act:

23 (a) "At-home charging equipment" means either of the
24 following:

25 (i) A Level 1 charger that charges using a 120-volt system.

26 (ii) A Level 2 charger that charges using a 208-volt to 240-
27 volt system, and that is installed in or near a residential home,
28 and uses either a J1772, CHAdeMO, or combined charging system
29 connector.

1 (b) "Principal residence" means that term as defined in
2 section 7dd of the general property tax act, 1893 PA 206, MCL
3 211.7dd.
