Final ☐

Brief description of policy:

The purpose of this policy is to expand Medicaid plans that cover Targeted Case Management-Recuperative Care to include MI Health Link Integrated Care Organizations.

Reason for policy (problem being addressed):

MI Health Link (MHL) program area staff have requested that MHL be added as a covered plan/program for recuperative care.

Budget implication:

☒ budget neutral

☐ will cost MDHHS \$, and (select one) budgeted in current appropriation

☐ will save MDHHS \$

Is this policy change mandated per federal requirements?

No.

Does policy have operational implications on other parts of MDHHS?

No.

Does policy have operational implications on other departments?

No.

Summary of input:

☐ controversial (Explain)

☒ acceptable to most/all groups

☐ limited public interest/comment

Proposed Policy Draft

Michigan Department of Health and Human Services
Health Services

Distribution: Medicaid Health Plans (MHP), Integrated Care Organizations (ICO),
Recuperative Care Providers

Issued: May 30, 2025 (proposed)

Subject: Targeted Case Management- Recuperative Care - Updating Covered
Plans

Effective: July 1, 2025 (proposed)

Programs Affected: Targeted Case Management - Recuperative Care, Medicaid, MI Health
Link

The purpose of this bulletin is to update Medicaid plans that cover Targeted Case
Management - Recuperative Care.

Effective July 1, 2025, MI Health Link will provide coverage for beneficiaries seeking admission to a recuperative care provider. These beneficiaries will follow the same process that is used by Medicaid Health Plans. Prior authorization must be obtained from the MDHHS Program Review Division for room and board, and the Integrated Care Organization (ICO) must be contacted for prior authorization for care coordination. (Refer to the [MDHHS Medicaid Provider Manual](#), Special Programs chapter, Targeted Case Management - Recuperative Care section for more information.)

When the beneficiary is enrolled in an ICO, the ICO care coordinator and the recuperative care provider are expected to collaborate with each other for continuity of care purposes, and to avoid duplication of care coordination services.
