The Department of Environment, Great Lakes and Energy will hold a public hearing to receive public comments on proposed changes to the Part 10. Intermittent Testing and Sampling rule set.

The general purpose of the proposed rules is to outline applicable intermittent testing and sampling procedures referenced throughout the Michigan Air Pollution Control Rules. The proposed changes to Part 10 will:

1. Update reference guidelines and publications to align with current versions used.
2. Remove adoption by reference information that has been transferred into R 336.1902.
3. Modify R 336.2001 to provide clarity and create a unified rule to house the authority of the department surrounding performance testing.
4. Add language to R 336.2001 and R 336.2003 to clarify the timing surrounding notifications to the department of a performance test and to define the start of a stack test by when a probe from the first sample enters the stack.
5. Add references to applicable tables and rules in R 336.2041(13) regarding the automobile protocol reference.

By authority conferred on the director of the Director of the Environment, Great Lakes, and Energy by sections 5503 and 5512 of the Natural Resources and Environmental Protection Act, 1994 PA 451, MCL 324.5503 and 324.5512, and Executive Reorganization Order Nos. 1995-16, 2009-31, 2011-1, and 2019-1, MCL 324.99903, 324.99919, 324.99921, and 324.99923.
