**REGULATORY IMPACT STATEMENT
and COST-BENEFIT ANALYSIS (RIS)**

Agency Information:

Department name:

Licensing and Regulatory Affairs

Bureau name:

Bureau of Professional Licensing

Name of person filling out RIS:

Weston MacIntosh

Phone number of person filling out RIS:

517-241-9269

E-mail of person filling out RIS:

MacIntoshW1@michigan.gov

Rule Set Information:

ARD assigned rule set number:

2020-112 LR

Title of proposed rule set:

Behavior Analysts - General Rules

Comparison of Rule(s) to Federal/State/Association Standard

1. Compare the proposed rules to parallel federal rules or standards set by a state or national licensing agency or accreditation association, if any exist.

There are no parallel federal rules or standards set by a state or national licensing agency.

The rules require, as a condition of licensure, evidence of certification by the Behavior Analyst Certification Board (BACB), a nonprofit corporation that is exempt from taxation under section 501(c)(3) of the internal revenue code of 1986, 26 USC 501. The rules adopt the professional standards of the BACB.

A. Are these rules required by state law or federal mandate?

Promulgation of the rules must occur under state law, including MCL 333.16145, 333.16148, 333.18257, and 333.18259 as well as Executive Reorganization Nos. 1991-9, 1996-2, 2003-1 and 2011-4, MCL 338.3501, 445.2001, 445.2011, and 445.2030.

No federal mandate demands the rules.

B. If these rules exceed a federal standard, please identify the federal standard or citation, describe why it is necessary that the proposed rules exceed the federal standard or law, and specify the costs and benefits arising out of the deviation.

The rules do not exceed a federal standard or law.

2. Compare the proposed rules to standards in similarly situated states, based on geographic location, topography, natural resources, commonalities, or economic similarities.

Licensure of Behavior Analysts and Assistant Behavior Analysts is necessary in Michigan under PA 403 of 2016. The rules supply the conditions and requirements for licensure, relicensure, and renewal for behavior analysts and assistant behavior analysts.

When compared to other Great Lakes states (Illinois, Indiana, Minnesota, New York, Ohio, Pennsylvania, and Wisconsin), Michigan's licensure requirements are like those states that mandate licensure for the practice of applied behavior analysis. Three of the other Great Lakes states have rules regulating the practice of applied behavior analysis.

Illinois does not regulate the practice of applied behavior analysis and does not license behavior analysts and assistant behavior analysts.

Indiana does not regulate the practice of applied behavior analysis and does not license behavior analysts and assistant behavior analysts.

Minnesota does not regulate the practice of applied behavior analysis and does not license behavior analysts and assistant behavior analysts.

New York regulates the practice of applied behavior analysis and licenses behavior analysts and certifies assistant behavior analysts.

Ohio regulates the practice of applied behavior analysis and certifies behavior analysts.

Pennsylvania does not regulate the practice of applied behavior analysis and does not license behavior analysts and assistant behavior analysts.

Wisconsin regulates the practice of applied behavior analysis and licenses behavior analysts.

The proposed rules are consistent with the rules of those states that also regulate the practice of applied behavior analysis.

A. If the rules exceed standards in those states, please explain why and specify the costs and benefits arising out of the deviation.

Statute demands promulgation of rules related to licensure. The rules do not exceed the licensing requirements of other states.

3. Identify any laws, rules, and other legal requirements that may duplicate, overlap, or conflict with the proposed rules.

There are no federal regulations for Behavior Analysts and Assistant Behavior Analysts. There are no laws, rules, or other legal requirements that duplicate, overlap, or conflict with the proposed rules.

A. Explain how the rules have been coordinated, to the extent practicable, with other federal, state, and local laws applicable to the same activity or subject matter. This section should include a discussion of the efforts undertaken by the agency to avoid or minimize duplication.

Review of applicable statutory law avoided unnecessary duplication in the rules.

4. If MCL 24.232(8) applies and the proposed rules are more stringent than the applicable federally mandated standard, provide a statement of specific facts that establish the clear and convincing need to adopt the more stringent rules.

No federal mandate demands the rules.

5. If MCL 24.232(9) applies and the proposed rules are more stringent than the applicable federal standard, provide either the Michigan statute that specifically authorizes the more stringent rules OR a statement of the specific facts that establish the clear and convincing need to adopt the more stringent rules.

No federal mandate demands the rules.

Purpose and Objectives of the Rule(s)

6. Identify the behavior and frequency of behavior that the proposed rules are designed to alter.

The specific topics that the proposed rules address, and the purpose of the proposed rules are set forth below:

R 338.1801, R 338.1827, R 338.1831, and R 338.1835 include grammatical revisions to the language in the current rules.

R 338.1821. This rule pertains to training standards for identifying victims of human trafficking. The rule revision supplies specific dates in which the training requirement must be satisfied.

R 338.1823. This rule pertains to applications for licensure. The rule revises the requirements for verification of licenses held in other jurisdictions.

R 338.1824. This rule pertains to requirements for licensure by endorsement. This rule addition incorporates the recent legislative changes that allow licensure by endorsement for individuals licensed in another state or a province of Canada and revises the requirements for verification of licenses held in other jurisdictions.

R 338.1825. This rule pertains to requirements for relicensure. The rule revises the requirements for verification of licenses held in other jurisdictions.

R 338.1832. This rule pertains to telehealth. The rule addition supplies conditions related to consent, scope of practice, and standard of care for telehealth services.

R 338.1833. This rule pertains to adoption of standards. The rule revision adopts the updated ethical code.

A. Estimate the change in the frequency of the targeted behavior expected from the proposed rules.

Promulgation of rules related to licensure is necessary under statute. This supplies a regulatory framework for the practice of applied behavior analysis. The proposed changes supply greater clarity to licensees and aid in understanding the requirements of the rules.

B. Describe the difference between current behavior/practice and desired behavior/practice.

Statute regulates the practice of applied behavior analysis. This mandates licensure for provision of those services. Adding clarifications on points that may have been ambiguous under prior rules will make compliance easier for applicants and licensees.

C. What is the desired outcome?

Regulation is necessary for individuals who wish to practice as Behavior Analysts and Assistant Behavior Analysts. By improving and clarifying the rules, applicants and licensees should find compliance easier. This should result in fewer questions, fewer regulatory problems, and greater safety and protection of the public.

7. Identify the harm resulting from the behavior that the proposed rules are designed to alter and the likelihood that the harm will occur in the absence of the rule.

The proposed rule set updates the previously adopted rules. Specifically, changes include the following:

R 338.1821 pertains to training standards for identifying victims of human trafficking. The rule revision clarifies the dates in which the applicant or licensee must complete the training.

R 338.1823 pertains to applications for licensure. The rule revision clarifies the proof requirements an applicant licensed in another jurisdiction must satisfy for verification of a license.

R 338.1824 pertains to requirements for licensure by endorsement. The rule revision clarifies the conditions that an applicant must satisfy to qualify for licensure by endorsement, to align with recent corresponding legislative changes.

R 338.1825 pertains to requirements for relicensure. The rule revision clarifies the proof requirements an applicant licensed in another jurisdiction must satisfy for verification of a license.

R 338.1832 pertains to telehealth. The new rule protects patients by outlining the conditions for telehealth services.

R 338.1833 pertains to adoption of standards. The rule revision ensures licensees follow the most up-to-date ethical code in the practice of applied behavior analysis.

A. What is the rationale for changing the rules instead of leaving them as currently written?

The proposed rule set supplies clarity to all rules on licensure.

8. Describe how the proposed rules protect the health, safety, and welfare of Michigan citizens while promoting a regulatory environment in Michigan that is the least burdensome alternative for those required to comply.

The proposed rules supply a regulatory mechanism for the practice of applied behavior analysis. To protect the health, safety, and welfare of Michigan's citizens, it is important that members of the profession adhere to educational and professional standards.

9. Describe any rules in the affected rule set that are obsolete or unnecessary and can be rescinded.

No rescission of any rules is necessary.

Fiscal Impact on the Agency

Fiscal impact is an increase or decrease in expenditures from the current level of expenditures, i.e. hiring additional staff, higher contract costs, programming costs, changes in reimbursements rates, etc. over and above what is currently expended for that function. It does not include more intangible costs for benefits, such as opportunity costs, the value of time saved or lost, etc., unless those issues result in a measurable impact on expenditures.

10. Please provide the fiscal impact on the agency (an estimate of the cost of rule imposition or potential savings for the agency promulgating the rule).

There is no expected fiscal impact on the agency for promulgating the proposed rules.

11. Describe whether or not an agency appropriation has been made or a funding source provided for any expenditures associated with the proposed rules.

There has been no agency appropriation for the proposed rules because there are no expected agency expenditures associated with the proposed rules.

12. Describe how the proposed rules are necessary and suitable to accomplish their purpose, in relationship to the burden(s) the rules place on individuals. Burdens may include fiscal or administrative burdens, or duplicative acts.

The proposed rules supply a mechanism for the licensing and regulation of individuals in this state, as mandated by statute. Applicants and licensees will continue to have a cost related burden associated with licensing, renewal, or relicensure. The cost of licensure for a licensed Behavior Analyst and Assistant Behavior Analyst is \$443.70. The cost of relicensure for a licensed Behavior Analyst and Assistant Behavior Analyst is \$463.70. The cost of renewal of licensure for a licensed Behavior Analyst and Assistant Behavior Analyst is \$367.20.

A. Despite the identified burden(s), identify how the requirements in the rules are still needed and reasonable compared to the burdens.

The rules are necessary to supply a mechanism for licensing and regulation of the profession. The rules are not more restrictive than allowed by statute. Despite the cost related burden of licensing, the rules and regulations are necessary to supply a framework of standards for educational and licensure requirements.

Impact on Other State or Local Governmental Units

13. Estimate any increase or decrease in revenues to other state or local governmental units (i.e. cities, counties, school districts) as a result of the rule. Estimate the cost increases or reductions for other state or local governmental units (i.e. cities, counties, school districts) as a result of the rule. Include the cost of equipment, supplies, labor, and increased administrative costs in both the initial imposition of the rule and any ongoing monitoring.

There is no expected increase or decrease in revenues to other state or local government units, nor are there cost increases or reductions on other state or local government units expected because of the proposed rules. There is no expected increase or decrease in revenues to other state or local government units, nor are there cost increases or reductions on other state or local government units expected because of the proposed rules.

14. Discuss any program, service, duty, or responsibility imposed upon any city, county, town, village, or school district by the rules.

The proposed rules do not impose any program, service, duty, or responsibility upon any city, county, town, village, or school district.

A. Describe any actions that governmental units must take to be in compliance with the rules. This section should include items such as record keeping and reporting requirements or changing operational practices.

No action is necessary for governmental units to follow the rule(s).

15. Describe whether or not an appropriation to state or local governmental units has been made or a funding source provided for any additional expenditures associated with the proposed rules.

State and local government units will incur no added expenditures because of implementing the proposed rules. Therefore, no appropriation or funding source is necessary.

Rural Impact

16. In general, what impact will the rules have on rural areas?

There is no expected disparate impact on rural areas because of the proposed rules.

A. Describe the types of public or private interests in rural areas that will be affected by the rules.

There is no expected disparate impact of public or private interests in rural areas because of the proposed rules.

Environmental Impact

17. Do the proposed rules have any impact on the environment? If yes, please explain.

No, the proposed rules will have no impact on the environment.

Small Business Impact Statement

18. Describe whether and how the agency considered exempting small businesses from the proposed rules.

The public health code authorizes the board and the department to regulate individuals with behavior analyst and assistant behavior analyst licenses, not small businesses. Even if a licensee's practice qualified as a small business, the department could not exempt the licensee's small business because it would create disparity in the regulation of the profession.

19. If small businesses are not exempt, describe (a) the manner in which the agency reduced the economic impact of the proposed rules on small businesses, including a detailed recitation of the efforts of the agency to comply with the mandate to reduce the disproportionate impact of the rules upon small businesses as described below (in accordance with MCL 24.240(1)(a-d)), or (b) the reasons such a reduction was not lawful or feasible.

There is no expected economic impact on small businesses because of the proposed rules. The proposed rules affect individual licensees rather than small businesses.

A. Identify and estimate the number of small businesses affected by the proposed rules and the probable effect on small businesses.

The department does not collect or have access to information that would allow it to find and estimate the potentially affected number of small businesses. It is impossible to estimate the number of small businesses affected by the proposed rules. The only small businesses affected by these rules are health practitioners practicing in small business settings. The department does not track or have access to this type of information since it is not a data repository.

The rules do not affect the operation of the small business. The probable impact on small business is small.

B. Describe how the agency established differing compliance or reporting requirements or timetables for small businesses under the rules after projecting the required reporting, record-keeping, and other administrative costs.

Because the proposed rules pertain to individuals and not small businesses, they do not have differing compliance or reporting requirements or timetables for small businesses. They are unnecessary for the proposed rules.

C. Describe how the agency consolidated or simplified the compliance and reporting requirements for small businesses and identify the skills necessary to comply with the reporting requirements.

The proposed rules do not impose any reporting requirements.

D. Describe how the agency established performance standards to replace design or operation standards required by the proposed rules.

The agency did not set up performance standards to replace design or operation standards.

20. Identify any disproportionate impact the proposed rules may have on small businesses because of their size or geographic location.

The proposed rules affect individual licensees rather than small businesses. Therefore, there is no expected disproportionate impact on small businesses based on size or geographic location because of the rules.

21. Identify the nature of any report and the estimated cost of its preparation by small businesses required to comply with the proposed rules.

The proposed rules do not need any reports.

22. Analyze the costs of compliance for all small businesses affected by the proposed rules, including costs of equipment, supplies, labor, and increased administrative costs.

There is no expectation of an effect on small businesses because of the proposed rules, nor are there any added costs, because the proposed rules apply to individuals and not businesses.

23. Identify the nature and estimated cost of any legal, consulting, or accounting services that small businesses would incur in complying with the proposed rules.

The proposed rules, which apply to individuals and not businesses, should not create a need for any legal, consulting, or accounting services for small businesses to be able to follow the proposed rules.

24. Estimate the ability of small businesses to absorb the costs without suffering economic harm and without adversely affecting competition in the marketplace.

Since the rules affect individual licensees rather than small businesses, there is no expected cause of economic harm or for the rules to adversely affect a small business' competition in the marketplace.

25. Estimate the cost, if any, to the agency of administering or enforcing a rule that exempts or sets lesser standards for compliance by small businesses.

The proposed rules impose requirements on individual licensees rather than small businesses. Even if a licensee's practice qualifies as a small business, the department could not exempt the licensee's small business because it would create disparity in regulation of the profession. Therefore, exempting or setting lesser standards of competence for small businesses is not in the best interest of the public.

26. Identify the impact on the public interest of exempting or setting lesser standards of compliance for small businesses.

The department is not able to exempt licensees that own a small business. If the department exempted small businesses, it would create a disparity in the regulation of a profession and have a negative impact on public safety.

27. Describe whether and how the agency has involved small businesses in the development of the proposed rules.

Development of the proposed rules involved consultation with the Michigan Board of Behavior Analysts, whose members include small business employees.

A. If small businesses were involved in the development of the rules, please identify the business(es).

Development of the proposed rules involved consultation with the Michigan Board of Behavior Analysts, whose members include small business employees.

Cost-Benefit Analysis of Rules (independent of statutory impact)

28. Estimate the actual statewide compliance costs of the rule amendments on businesses or groups.

There are no small businesses affected by the proposed rules. Those affected are individuals who are engaged in the practice of applied behavior analysis.

A. Identify the businesses or groups who will be directly affected by, bear the cost of, or directly benefit from the proposed rules.

The licensees must follow the rules.

B. What additional costs will be imposed on businesses and other groups as a result of these proposed rules (i.e. new equipment, supplies, labor, accounting, or recordkeeping)? Please identify the types and number of businesses and groups. Be sure to quantify how each entity will be affected.

There will be no expected added costs imposed upon licensees because of compliance with these proposed rules.

29. Estimate the actual statewide compliance costs of the proposed rules on individuals (regulated individuals or the public). Include the costs of education, training, application fees, examination fees, license fees, new equipment, supplies, labor, accounting, or recordkeeping.

Applicants and licensees will continue to have a cost related burden associated with licensing, renewal, or relicensure. The cost of licensure for a licensed Behavior Analyst and Assistant Behavior Analyst is \$443.70. The cost of relicensure for a licensed Behavior Analyst and Assistant Behavior Analyst is \$463.70. The cost of renewal of licensure for a licensed Behavior Analyst and Assistant Behavior Analyst is \$367.20.

A. How many and what category of individuals will be affected by the rules?

The rules affect all individuals who seek licensure as Behavior Analysts and Assistant Behavior Analysts.

B. What qualitative and quantitative impact do the proposed changes in rules have on these individuals?

The fees involved will be like those incurred in other regulated professions.

30. Quantify any cost reductions to businesses, individuals, groups of individuals, or governmental units as a result of the proposed rules.

There are no expected reductions in costs to businesses, individuals, groups of individuals, or governmental units because of the proposed rules.

31. Estimate the primary and direct benefits and any secondary or indirect benefits of the proposed rules. Please provide both quantitative and qualitative information, as well as your assumptions.

The proposed rules use clear, concise language, and implement the statutory requirements for licensing. The clear, concise language allows the public, licensees, and schools to better understand the requirements for licensure.

32. Explain how the proposed rules will impact business growth and job creation (or elimination) in Michigan.

There is no expected significant impact on business growth, job growth, or job elimination because of the rules.

33. Identify any individuals or businesses who will be disproportionately affected by the rules as a result of their industrial sector, segment of the public, business size, or geographic location.

The department does not expect any disproportionate effect on any individuals or businesses by their industrial sector, segment of the public, business size, or geographical location.

34. Identify the sources the agency relied upon in compiling the regulatory impact statement, including the methodology utilized in determining the existence and extent of the impact of the proposed rules and a cost-benefit analysis of the proposed rules.

Behavior Analyst Certification Board (BACB)
<https://www.bacb.com/>

New York
<http://www.op.nysed.gov/prof/aba/abalic.htm#>

Ohio
<https://psychology.ohio.gov/Applicants/Certified-Ohio-Behavior-Analyst>

Wisconsin
<https://dsps.wi.gov/Pages/Professions/BehaviorAnalyst/Default.aspx>

A. How were estimates made, and what were your assumptions? Include internal and external sources, published reports, information provided by associations or organizations, etc., that demonstrate a need for the proposed rules.

Since statute mandates the rules, no estimate was necessary.

Alternative to Regulation

35. Identify any reasonable alternatives to the proposed rules that would achieve the same or similar goals.

Since statute mandates the rules, there are no reasonable alternatives to the proposed rules.

A. Please include any statutory amendments that may be necessary to achieve such alternatives.

Since statute mandates the rules, there are no reasonable alternatives to the proposed rules.

36. Discuss the feasibility of establishing a regulatory program similar to that proposed in the rules that would operate through private market-based mechanisms. Please include a discussion of private market-based systems utilized by other states.

Since statute mandates the rules, private market-based systems cannot serve as an alternative. The licensing and regulation of Behavior Analysts and Assistant Behavior Analysts are state functions, so a regulatory program independent of state intervention cannot be set up. One could consider applied behavior analysis professional associations as regulatory mechanisms that are independent of state intervention; however, these professional organizations would provide the public with significantly less protection because membership in these organizations is voluntary. This means an individual who meets the membership requirements, but does not join, would still be able to practice and there would be no way to ensure the individual's competency or hold the individual accountable for harm done to clients.

37. Discuss all significant alternatives the agency considered during rule development and why they were not incorporated into the rules. This section should include ideas considered both during internal discussions and discussions with stakeholders, affected parties, or advisory groups.

Since statute mandates the rules, there are no reasonable alternatives to the proposed rules. There were no alternatives that the department considered to achieve the intended changes. They are necessary for the administration and enforcement of the licensing process.

Additional Information

38. As required by MCL 24.245b(1)(c), please describe any instructions regarding the method of complying with the rules, if applicable.

The rules include the instructions for compliance.
