9 (2) Each person who participates in the sport of ORV riding
10 accepts the risks associated with that sport insofar as the dangers
11 are inherent. Those risks include, but are not limited to, injuries
12 to persons or property that can result from variations in terrain;
13 defects in traffic lanes; surface or subsurface snow or ice
14 conditions; bare spots; rocks, trees, and other forms of natural
15 growth or debris; and collisions with fill material, decks,
16 bridges, signs, fences, trail maintenance equipment, or other ORVs.
17 Those risks do not include injuries to persons or property that
18 result from the use of an ORV by another person in a careless or
19 negligent manner likely to endanger person or property. When an ORV
20 is operated in the vicinity of a railroad right-of-way, each person
21 who participates in the sport of ORV riding additionally assumes
22 risks including, but not limited to, entanglement with railroad
23 tracks, switches, and ties and collisions with trains and train-
24 related equipment and facilities.
