House Bill 5512
Sponsor: Rep. Thomas Scott
Committee: Public Health

Complete to 3-21-88

A SUMMARY OF HOUSE BILL 5512 AS INTRODUCED 3-16-88

The Public Health Code requires ambulance operations to provide at least one ambulance and proper personnel and equipment for response to requests for emergency assistance 24 hours a day, 7 days a week. The bill would amend the code to make an exception to that requirement for ambulance services which are operated by nonprofit organizations that do not charge a fee for their services and do not pay their personnel. Such operations would have to operate not less than 12 hours a day, 3 days a week.
