A SUMMARY OF HOUSE BILL 5524 AS INTRODUCED 3-24-88

The bill would amend the Solid Waste Management Act to prohibit an owner or operator of a disposal area from accepting solid waste that was not generated in Michigan unless the owner or operator obtained a letter from the designated planning agency for the county in which the disposal area was located that stated that the acceptance of solid waste that was not generated in the state was consistent with the approved county solid waste management plan. The bill would also prohibit a person from transporting solid waste that was not generated in the state over a road, railroad, or waterway in the state unless the transporting unit was clearly identified in letters at least two inches high identifying that it was a solid waste hauler and identifying the state where the solid waste was collected.
