A SUMMARY OF HOUSE BILL 5665 AS INTRODUCED 5-25-88

The bill would amend the Insurance Code to require an insurer or the assigned claims facility, if applicable, to determine whether a person obtaining personal protection insurance benefits has also received medical services under a program for medical assistance for the medically indigent, or under a resident county hospitalization program. Under the bill, if it is determined that the person has received medical services under a program for medical assistance, then the insurer or the assigned claims facility would be required to first reimburse the program before paying the person claiming personal protection insurance benefits.
