A SUMMARY OF HOUSE BILL 5739 AS INTRODUCED 6-7-88

The bill would authorize the Department of Natural Resources to convey a 269.6-acre parcel of state land to the Presque Isle soil conservation district for consideration of \$1. The property could only be used for public park purposes, and upon termination of that use or if used for any other purpose, title to the property would immediately revert to the state. In such a case, the state would assume no liability for any improvements made by the Presque Isle soil conservation district. The conveyance would be by quitclaim deed approved by the attorney general and would reserve to the state all coal, oil, gas, and other mineral rights. Revenue from the bill would be credited to the general fund.
