House Bill 4771 (Substitute H-2)

Sponsor: Representative William Martin

House Committee: Public Health

Senate Committee: Health Policy

Date Completed: 2-29-88

SUMMARY OF HOUSE BILL 4771 (H-2) as passed by the House:

The bill would amend the Public Health Code to permit a health profession licensing board, before licensing, registering, or certifying an applicant for licensure, to require the applicant to obtain certification from a "national association or federation of state professional licensing boards". The certification would have to state either that no disciplinary proceedings were pending against the applicant, or, if sanctions had been imposed, that they were not in force at the time of the application. These provisions would apply to an applicant who is licensed to practice a health profession in another state or who is registered or holds specialty certification from another state.

Currently, the board is required to make an independent inquiry concerning possible disciplinary proceedings or sanctions imposed against an applicant.

MCL 333.16186

Legislative Analyst: L. Arasim

FISCAL IMPACT

The bill would have no fiscal impact on State or local government.
