### A SUMMARY OF HOUSE BILL 4241 AS INTRODUCED 1-31-95

Public Act 335 of 1993 (House Bill 5121) made a number of amendments to the School Code, including the requirement that school districts adopt a core academic curriculum established by the State Board of Education. The bill would eliminate that requirement. Provisions in the code requiring districts to adopt a core academic curriculum and requiring the state board to develop a recommended core curriculum would remain. Those provisions pre-date Public Act 335.
