The bill amends current law to allow the Office of Fire Safety to contract with the fire marshal of a city having a population of not less than 750,000 to perform fire safety inspections on adult foster care facilities. Current law allows for such contracting with a city having a population of not less than 1,000,000. The revision would continue to allow the City of Detroit to contract with the State for such inspections. Since the bill does not alter the effect of current law, it would have no fiscal impact on the State or on local units of government.
