DISCLOSURE OF VOTING PREFERENCES FOR ISD BOARD MEMBERS

Bill/Sponsor **HOUSE BILL 4947 as introduced, Rep. John J. Gleason**

House Committee Education

Analysis **Summary**

House Bill 4947 would amend the Revised School Code to require the disclosure of constituent school boards' voting preferences for intermediate school board (ISD) members. Currently under the law, when the members of an intermediate school board are elected by the members of the ISD's constituent district school boards, that election is held by a body composed of one member of the board of each constituent school district. Under House Bill 4947, the board of a constituent school district would be required to designate its representative to this electoral body by resolution. In the resolution designating its representative, the board of the constituent school district also would be required to identify the candidate the board supported for each position that was to be filled on the intermediate school board, and to direct its representative to vote for that individual or individuals.

Fiscal Impact

This bill would have no state or local fiscal impact.
