RE: COMPLETE STREETS, H.B. 6151 and 6152

Dear Committee Members,

Revex, Inc. would like to thank the committee for taking testimony regarding Complete Streets legislation, H.B. 6151 and 6152. (Brief introductory information about Revex, Inc.)

We support Complete Streets legislation. Ensuring that people of all ages and abilities can safely and easily use the roadways will boost the economy and create safer, healthier communities.

We strongly believe that now and in the future, urban areas which incorporate the Complete Streets philosophy will attract more dynamic companies and talented professionals than areas that don't. The growth of my business, and of Michigan, will require such people. It's critical that we make Michigan attractive to these growth-oriented companies and high-skill individuals.

Complete Streets increases residential and commercial property values, attracts new development, reduces the time, hassle and cost of travel, and encourages local residents to buy goods and services in their own neighborhoods.

Making our roads safer will not only help Michigan attract talented individuals and companies, it will also encourage citizens to bike, walk and use public transit, rather than driving. By integrating physical activity into their daily lives, Michigan residents can help combat the state's growing obesity rate.

Passing this legislation will help Michigan become a stronger, healthier and more competitive state. We at Revex, Inc. encourage lawmakers to support H.B. 6151 and 6152.

Sincerely,

Michael Aughenbaugh
President
