Chairperson Sandborn
Lansing, MI

Re: Senate Bill 142

Dear Chairperson Sandborn,

We would like to show our support for bill 142 for electrical licensing reciprocity in an effort to help retain jobs for Michigan residents. As there are a lot of States that will allow licensing to cross state lines as long as all of the same requirements are met. Only those states that hold the same requirements as Michigan should be allowed to use the reciprocity license.

We feel that not only would this help to retain residents in Michigan when there is not enough Michigan jobs, but could also generate more income of license revenue from out of state people. This would also allow Michigan residents a fair opportunity to compete with many other workers in the country if required to travel to find work.

Again thank you for your efforts in promoting bill 142.

Sincerely,

David F. Beemer
President
