House Bill 4848 (Substitute S-1 as reported)  
Sponsor: Representative Joel Sheltrown  
House Committee: Transportation  
Senate Committee: Transportation

**CONTENT**

The bill would amend the Michigan Transportation Fund (MTF) law to permit a county road commission, beginning November 1, 2008, to spend 50%, rather than 30%, of primary road funds on the county local road system.

Under the law, funds from the MTF are returned to each county according to a specific formula. After certain allocations, each county road commission must spend 75% of the remaining amount returned to the county for the preservation, construction, acquisition, and extension of the county primary road system.

Up to 30% of the amount designated for the county primary road system may be spent on the county local road system of that county. The bill would increase that percentage to 50%, beginning November 1, 2008.

MCL 247.662

Legislative Analyst: Curtis Walker

**FISCAL IMPACT**

The bill would potentially alter the distribution of county expenses on different types of roads. The bill would not affect State revenue or expenditures, or affect the total amount of revenue distributed to local road agencies, either individually or collectively. The bill would increase the share of funds distributed for use on county primary roads that may be diverted to fund expenditures on the county local road system.
