21 than 15% of the funds received in the local bridge fund may be used
22 for critical repair of large bridges and emergencies as determined
23 by the local bridge advisory board. Beginning October 1, 2005,
24 funds remaining after the funds allocated for critical large bridge
25 repair and emergencies are deducted shall be distributed by the
26 board to the regional bridge councils created under this section.
27 One regional council shall be formed for each department of

1 transportation region as those regions exist on October 1, 2004.

2 The regional councils shall consist of 2 members of the county road
3 association of Michigan from counties in the region, 2 members of

12 regional bridge councils according to all of the following ratios,
13 which shall be assigned a weight expressed as a percentage as
14 determined by the board, with each ratio receiving no greater than
15 a 50% weight and no less than a 25% weight:

16 (a) A ratio with a numerator that is the total number of local
17 bridges in the region and a denominator that is the total number of
18 local bridges in this state.

19 (b) A ratio with a numerator that is the total local bridge
20 deck area in the region and a denominator that is the total local
21 bridge deck area in this state.

22 (c) A ratio with a numerator that is the total amount of
23 structurally deficient local bridge deck area in the region and a
24 denominator that is the total amount of structurally deficient
25 local bridge deck area in this state.

26 (8) Beginning October 1, 2005, the regional bridge councils
27 shall allocate the funds received from the board for the

1 preservation, improvement, and reconstruction of existing bridges
2 or for the construction of bridges to replace existing bridges in
3 whole or in part in each region.

4 (9) Beginning January 1, 2007 and each January after 2007, the
5 department shall submit a report to the chair and the minority
6 vice-chair of the appropriations committees of the senate and the
7 house of representatives, and to the standing committees on
8 transportation of the senate and the house of representatives, on
9 all of the following activities for the previous state fiscal year:

10 (a) A listing of how much money was dedicated for emergency
11 and large bridge repair.

12 (b) A listing of what emergency and large bridge repair
13 projects were funded.

14 (c) The actual weights used in the calculation required under
15 subsection (7).

16 (d) A listing of the total money distributed to each region.

17 (e) A listing of what specific projects were funded pursuant
18 to subsection (8).

19 (10) The state transportation commission shall borrow money
20 and issue notes or bonds in an amount of not less than
21 \$30,000,000.00 to supplement the funding provided for the local
22 bridge program under subsection (6). The bonds or notes issued
23 pursuant to this subsection may be issued by the commission for any
24 purpose for which other local bridge funds may be used under this
25 section. The bonds or notes authorized by this subsection shall be
26 issued by resolution of the state transportation commission
27 consistent with the requirements of section 18b.

1 (11) The state transportation department shall promulgate
2 rules pursuant to the administrative procedures act of 1969, 1969
3 PA 306, MCL 24.201 to 24.328, governing the administration of the
4 local bridge program. The rules shall set forth the eligibility
5 criteria for financial assistance under the program and other
6 matters related to the program that the department considers
7 necessary and desirable. The department shall take into
8 consideration the availability of federal aid and other financial
9 resources of the highway authority responsible for the bridge, the
10 importance of the bridge to the highway, road, or street network,

17 shall determine what bridge projects are selected for funding from
18 the local bridge fund created in subsection (5) and shall make a
19 list of selected projects available to interested parties in the
20 region. A determination that a bridge project is selected for
21 funding in a given fiscal year is not approval to disburse the
22 funds.

23 (14) Beginning October 1, 2008, a county road commission,
24 city, or village may implement a bridge project if the bridge
25 project has been selected for funding and is included in the
26 appropriate regional bridge council's current multiyear bridge plan
27 for the local bridge program but the regional bridge council has

1 not allocated funds to the bridge project for the fiscal year that
2 the bridge project is on the current multiyear bridge plan. A
3 county road commission, city, or village may borrow funds to
4 implement a project that has been selected for funding and is
5 included in the appropriate regional bridge council's current
6 multiyear bridge plan but has not been allocated funds by the
7 regional bridge council. Based on available local bridge funds,
8 when a bridge project that was implemented with borrowed funds is
9 allocated funding in a subsequent fiscal year, the funding shall
10 only be used to repay the amount approved by the multiyear bridge
11 plan when the funds were borrowed. To be eligible for repayment of
12 the amount borrowed, a bridge project that has been implemented
13 with borrowed funds shall be administered through the department's
14 local bridge program.

15 Sec. 11. (1) A fund to be known as the state trunk line fund
16 is established and shall be set up and maintained in the state
17 treasury as a separate fund. The money deposited in the state trunk
18 line fund is appropriated to the state transportation department

25 state highway commission or the state transportation commission
26 under contracts entered into before July 18, 1979, under 1941 PA
27 205, MCL 252.51 to 252.64, which contributions have been pledged

1 before July 18, 1979, for the payment of the principal and interest

3 payment of which a sufficient sum is irrevocably appropriated.

4 (ii) For the payment of the principal and interest upon bonds
5 designated "State of Michigan, State Highway Commissioner, Highway

11 (iii) For the payment of the principal and interest on bonds
12 issued under section 18b for transportation purposes other than
13 comprehensive transportation purposes as defined by law and the
14 payment of contributions of the state highway commission or state
15 transportation commission to be made pursuant to contracts entered
16 into under section 18d, which contributions are pledged to the
17 payment of principal and interest on bonds issued under the
18 authorization of section 18d and contracts executed pursuant to
19 that section. A sufficient portion of the fund is irrevocably
20 appropriated to pay, when due, the principal and interest on bonds
21 or notes issued under section 18b for purposes other than
22 comprehensive transportation purposes as defined by law, and to pay
23 the annual contributions of the state highway commission and the
24 state transportation commission as are pledged for the payment of
25 bonds issued pursuant to contracts authorized by section 18d.

26 (b) For the transfer of funds appropriated pursuant to section
27 ~~10(1)(g)~~ **10(1)(I)** to the transportation economic development fund,

1 but the transfer shall be reduced each fiscal year by the amount of
2 debt service to be paid in that year from the state trunk line fund
3 for bonds, notes, or other obligations issued to fund projects of
4 the transportation economic development fund, which amount shall be
5 certified by the department.

6 (c) For the transfer of funds appropriated pursuant to section

19 needs, and the availability of funding.

20 (iii) Consistent with the other requirements for these funds,
21 the first priority for funds deposited pursuant to this subdivision
22 for rail grade crossing improvements and retirement shall be to
23 match federal funds from the railroad-highway grade crossing
24 improvement program or other comparable federal programs if a match
25 is required under federal law.

26 (iv) If the department and the road authority with jurisdiction
27 over the crossing formally agree that the grade crossing should be

1 eliminated by permanent closing of the public road or street, the
2 physical removal of the crossing, roadway within railroad rights of
3 way and street termination treatment will be negotiated between the
4 road authority and railroad company. The funds provided to the road
5 authority as a result of the crossing closure will be credited to
6 its account representing the same road or street system on which
7 the crossing is located and shall be used for any transportation
8 purpose within that road authority's jurisdiction.

9 (D) FOR THE TRANSFER OF FUNDS APPROPRIATED PURSUANT TO SECTION

11 otherwise appropriated, distributed, determined, or set aside by
12 law shall be used for the construction or reconstruction of the
13 national system of interstate and defense highways, referred to in
14 this act as "the interstate highway system" to the extent necessary
15 to match federal aid funds as the federal aid funds become
16 available for that purpose; and, for the construction and
17 reconstruction of the state trunk line system.

18 **(H)** ~~(g)~~—The state transportation department may enter into

5 purpose of providing funds for the preservation of highways, roads,
6 streets, and bridges. Of the amounts appropriated for state trunk
7 line projects, the department shall, where possible, secure
8 warranties of not less than 5-year full replacement guarantee for
9 contracted construction work. If an appropriate certificate is
10 filed under section 18e but only to the extent necessary, this
11 subsection shall not prohibit the use of any amount of money
12 restricted as to use by section 9 of article IX of the state
13 constitution of 1963 and deposited in the state trunk line fund for
14 the payment of debt service on bonds, notes, or other obligations
15 pledging for the payment thereof money restricted as to use by
16 section 9 of article IX of the state constitution of 1963 and
17 deposited in the state trunk line fund, whenever issued, as
18 specified under subsection (1)(a). The amounts which are deducted
19 from the state trunk line fund for the purpose of the calculation
20 required by this subsection are as follows:

25 for projects on the national highway system and for the payment of

1 matching requirements for projects on the national highway system.

2 (c) Amounts expended for the construction of a highway,
3 street, road, or bridge to 1 or more of the following or for the
4 payment of debt service on bonds, notes, or other obligations
5 issued after July 1, 1983, for the purpose of providing funds for
6 the construction of a highway, street, road, or bridge to 1 or more
7 of the following:

8 (i) A location for which a building permit has been obtained
9 for the construction of a manufacturing or industrial facility.

10 (ii) A location for which a building permit has been obtained
11 for the renovation of, or addition to, a manufacturing or
12 industrial facility.

13 (d) Amounts expended for capital outlay other than for
14 highways, roads, streets, and bridges or to pay debt service on

16 the purpose of providing funds for capital outlay other than for
17 highways, roads, streets, and bridges.

18 (e) Amounts expended for the operating expenses of the state
19 transportation department other than the units of the department

3 state transportation department and the approval by resolution of
4 the state transportation commission, those amounts expended for
5 projects vital to the economy of this state, a region, or local
6 area or the safety of the public. The resolution shall state the
7 cost of the project exempted from this subsection.

8 (3) Notwithstanding any other provision of this act, the state
9 transportation department shall expend annually at least 90% of the
10 federal revenue distributed to the credit of the state trunk line
11 fund in that year, except for federal revenue expended for the
12 purposes described in subsection (2)(b), (c), (f), and (i) and for
13 the payment of notes issued under section 18b(9) on the
14 preservation of highways, roads, streets, and bridges. The
15 requirement of this subsection shall be waived if compliance would
16 cause this state to be ineligible according to federal law for
17 federal revenue, but only to the extent necessary to make this
18 state eligible according to federal law for that revenue.

19 (4) Notwithstanding any other provision of this section, the
20 state transportation department may loan money to county road
21 commissions, cities, and villages for paying capital costs of
22 transportation purposes described in the second paragraph of
23 section 9 of article IX of the state constitution of 1963 from the
24 proceeds of bonds or notes issued pursuant to section 18b or from
25 the state trunk line fund. Loans made directly from the state trunk
26 line fund shall be made only after provision of funds for the
27 purposes specified in subsection (1)(a) to ~~(f)~~—(G). Loans described

1 in this subsection are not subject to the revised municipal finance
2 act, 2001 PA 34, MCL 141.2101 to 141.2821.

3 (5) County road commissions, cities, and villages may borrow
4 money from the proceeds of bonds or notes issued under section 18b
5 or the state trunk line fund for the purposes set forth in
6 subsection (4) that shall be repayable, with interest, from 1 or
7 more of the following:

8 (a) The money to be received by the county road commission,
9 city, or village from the Michigan transportation fund, except to
10 the extent the money has been or may in the future be pledged by
11 contract in accordance with 1941 PA 205, MCL 252.51 to 252.64, or
12 has been or may in the future be pledged for the payment of the
13 principal and interest upon notes issued pursuant to 1943 PA 143,
14 MCL 141.251 to 141.254, or has been or may in the future be pledged
15 for the payment of principal and interest upon bonds issued under
16 section 18c or 18d, or has been or may in the future be pledged for
17 the payment of the principal and interest upon bonds issued
18 pursuant to 1952 PA 175, MCL 247.701 to 247.707.

19 (b) Any other legally available funds of the city, village, or
20 county road commission, other than the general funds of the county.

21 (6) Loans made pursuant to subsection (4) if required by the
22 state transportation department may be payable by deduction by the
23 state treasurer, upon direction of the state transportation
24 department, from the periodic disbursements of any money returned
25 by the state under this act to the county road commission, city, or
26 village, but only after sufficient money has been returned to the
27 county road commission, city, or village to provide for the payment

1 of contractual obligations incurred or to be incurred and principal
2 and interest on notes and bonds issued or to be issued under 1941
3 PA 205, MCL 252.51 to 252.64, 1943 PA 143, MCL 141.251 to 141.254,
4 1952 PA 175, MCL 247.701 to 247.707, or section 18c or 18d. The
5 interest rates and payment schedules of any loans made from the
6 proceeds of bonds or notes issued pursuant to section 18b shall be
7 established by the state transportation department to conform as
8 closely as practicable to the interest rate and repayment schedules
9 on the bonds or notes issued to make the loans. However, the state
10 transportation department may allow for the deferral of the first
11 payment of interest or principal on the loans for a period of not
12 to exceed 1 year after the respective first payment of interest or
13 principal on the bonds or notes issued to make the loans.

14 (7) The amount borrowed by a county road commission, city, or
15 village pursuant to subsection (5) shall not be included in, or
16 charged against, any constitutional, statutory, or charter debt
17 limitation of the county, city, or village and shall not be
18 included in the determination of the maximum annual principal and
19 interest requirements of, or the limitations upon, the maximum
20 annual principal and interest incurred under 1941 PA 205, MCL
21 252.51 to 252.64, 1943 PA 143, MCL 141.251 to 141.254, 1952 PA 175,
22 MCL 247.701 to 247.707, or section 18c or 18d.

23 (8) The county road commission, city, or village is not
24 required to seek or obtain the approval of the electors, the
25 municipal finance commission or its successor agency, or, except as
26 provided in this subsection, the department of treasury to borrow
27 money pursuant to subsection (5). The borrowing is not subject to

1 the revised municipal finance act, 2001 PA 34, MCL 141.2101 to
2 141.2821, or to section 5(g) of the home rule city act, 1909 PA
3 279, MCL 117.5. The state transportation department shall give at
4 least 10 days' notice to the state treasurer of its intention to
5 make a loan under subsection (4). If the state treasurer gives
6 notice to the director of the state transportation department
7 within 10 days of receiving the notice from the state
8 transportation department, that, based upon the then existing
9 financial or credit situation of the county road commission, city,
10 or village, it would not be in the best interests of the state to
11 make a loan under subsection (4) to the county road commission,
12 city, or village, the loan shall not be made unless the state
13 treasurer, after a hearing, if requested by the affected county
14 road commission, city, or village, subsequently gives notice to the
15 director of the state transportation department that the loan may
16 be made on the conditions that the state treasurer specifies.

17 (9) The state transportation commission may borrow money and
18 issue bonds and notes under, and pursuant to the requirements of,
19 section 18b to make loans to county road commissions, cities, and
20 villages for the purposes described in the second paragraph of
21 section 9 of article IX of the state constitution of 1963, as
22 provided in subsection (4). A single issue of bonds or notes may be
23 issued for the purposes specified in subsection (4) and for the
24 other purposes specified in section 18b. The house and senate
25 transportation appropriations subcommittees shall be notified by
26 the department if there are extras and overruns sufficient to
27 require approval of either the state administrative board or the

1 commission, or both, on any contract between the department and a
2 local road agency or a private business.

3 (10) The director of the state transportation department,
4 after consultation with representatives of the interests of county
5 road commissions, cities, and villages, shall establish, by
6 intergovernmental communication, procedures for the implementation
7 and administration of the loan program established under
8 subsections (4) to (9).

9 (11) Not more than 10% per year of all of the funds received
10 by and returned to the state transportation department from any
11 source for the purposes of this section may be expended for
12 administrative expenses. The department shall be subject to section
13 14(5) if more than 10% per year is expended for administrative
14 expenses. As used in this subsection, "administrative expenses"
15 means those expenses that are not assigned including, but not
16 limited to, specific road construction or preservation projects and
17 are often referred to as general or supportive services.
18 Administrative expenses shall not include net equipment expense,
19 net capital outlay, debt service principal and interest, and
20 payments to other state or local offices which are assigned, but
21 not limited to, specific road construction projects or preservation
22 activities.

23 (12) Any performance audits of the department shall be
24 conducted according to government auditing standards issued by the
25 United States general accounting office.

26 (13) Contracts entered into to advance money to a county road
27 commission, city, or village under subsection ~~(1)(g)~~ **(1)(H)** are not

1 subject to the revised municipal finance act, 2001 PA 34, MCL
2 141.2101 to 141.2821.

3 (14) As used in this section, "rail grade crossing improvement
4 purposes" means 1 or more of the following:

5 (a) The installation and modernization of active and passive
6 warning devices at railroad grade crossings.

7 (b) The installation or improvement of grade crossing
8 surfaces.

9 (c) Modification, relocation, or modernization of railroad

13 innovative applications.

14 (e) Construction of new grade separations.

15 (f) A cash incentive payment made pursuant to subsection
16 (1)(c)(iv) for any public road or street crossing, in an amount no
17 greater than the cost of installing flashing light signals and half
18 roadway gates at the crossing.

19 (g) Any other work that would be eligible for funding under
20 the federal railroad-highway grade crossing improvement program or
21 other comparable programs.
