*The People of the State of Michigan enact:*

Sec. 6. (1) “Center program” means a program operated by a district or by an intermediate district for special education pupils from several districts in programs for pupils with autism spectrum disorder, pupils with severe cognitive impairment, pupils with moderate cognitive impairment, pupils with severe multiple impairments, pupils with hearing impairment, pupils with visual impairment, and pupils with physical impairment or other health impairment. Programs for pupils with emotional impairment housed in buildings that do not serve regular education pupils also qualify. Unless otherwise approved by the department, a center program either shall serve all constituent districts within an intermediate district or shall serve several districts with less than 50% of the pupils residing in the operating district. In addition, special education center program pupils placed part-time in noncenter programs to comply with the least restrictive environment provisions of section 612 of part B of the individuals with disabilities education act, 20 USC 1412, may be considered center program pupils for pupil accounting purposes for the time scheduled in either a center program or a noncenter program.

(2) “District and high school graduation rate” means the annual completion and pupil dropout rate that is calculated by the center pursuant to nationally recognized standards.

(3) “District and high school graduation report” means a report of the number of pupils, excluding adult participants, in the district for the immediately preceding school year, adjusted for those pupils who have transferred into or out of the district or high school, who leave high school with a diploma or other credential of equal status.

(4) “Membership”, except as otherwise provided in this article, means for a district, public school academy, university school, or intermediate district the sum of the product of .90 times the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the pupil membership count day for the current school year, plus the product of .10 times the final audited count from the supplemental count day for the immediately preceding school year. All pupil counts used in this subsection are as determined by the department and calculated by adding the number of pupils registered for attendance plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by a subsequent department audit. For the purposes of this section and section 6a, for a school of excellence that is a cyber school, as defined in section 551 of the revised school code, MCL 380.551, and is in compliance with section 553a of the revised school code, MCL 380.553a, a pupil’s participation in the cyber school’s educational program is considered regular daily attendance. The amount of the foundation allowance for a pupil in membership is determined under section 20. In making the calculation of membership, all of the following, as applicable, apply to determining the membership of a district, public school academy, university school, or intermediate district:

(a) Except as otherwise provided in this subsection, and pursuant to subsection (6), a pupil shall be counted in membership in the pupil’s educating district or districts. An individual pupil shall not be counted for more than a total of 1.0 full-time equated membership.

(b) If a pupil is educated in a district other than the pupil’s district of residence, if the pupil is not being educated as part of a cooperative education program, if the pupil’s district of residence does not give the educating district its approval to count the pupil in membership in the educating district, and if the pupil is not covered by an exception specified in subsection (6) to the requirement that the educating district must have the approval of the pupil’s district of residence to count the pupil in membership, the pupil shall not be counted in membership in any district.

(c) A special education pupil educated by the intermediate district shall be counted in membership in the intermediate district.

(d) A pupil placed by a court or state agency in an on-grounds program of a juvenile detention facility, a child caring institution, or a mental health institution, or a pupil funded under section 53a, shall be counted in membership in the district or intermediate district approved by the department to operate the program.

(e) A pupil enrolled in the Michigan schools for the deaf and blind shall be counted in membership in the pupil’s intermediate district of residence.

(f) A pupil enrolled in a career and technical education program supported by a millage levied over an area larger than a single district or in an area vocational-technical education program established pursuant to section 690 of the revised school code, MCL 380.690, shall be counted only in the pupil’s district of residence.

(g) A pupil enrolled in a university school shall be counted in membership in the university school.

(h) A pupil enrolled in a public school academy shall be counted in membership in the public school academy.

(i) For a new district, university school, or public school academy beginning its operation after December 31, 1994, membership for the first 2 full or partial fiscal years of operation shall be determined as follows:

(i) If operations begin before the pupil membership count day for the fiscal year, membership is the average number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the pupil membership count day for the current school year and on the supplemental count day for the current school year, as determined by the department and calculated by adding the number of pupils registered for attendance on the pupil membership count day plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by a subsequent department audit, plus the final audited count from the supplemental count day for the current school year, and dividing that sum by 2.

(ii) If operations begin after the pupil membership count day for the fiscal year and not later than the supplemental count day for the fiscal year, membership is the final audited count of the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the supplemental count day for the current school year.

(j) If a district is the authorizing body for a public school academy, then, in the first school year in which pupils are counted in membership on the pupil membership count day in the public school academy, the determination of the district’s membership shall exclude from the district’s pupil count for the immediately preceding supplemental count day any pupils who are counted in the public school academy on that first pupil membership count day who were also counted in the district on the immediately preceding supplemental count day.

(k) In a district, public school academy, university school, or intermediate district operating an extended school year program approved by the superintendent, a pupil enrolled, but not scheduled to be in regular daily attendance on a pupil membership count day, shall be counted.

(l) Pupils to be counted in membership shall be not less than 5 years of age on December 1 and less than 20 years of age on September 1 of the school year except as follows:

(i) A special education pupil who is enrolled and receiving instruction in a special education program or service approved by the department, who does not have a high school diploma, and who is less than 26 years of age as of September 1 of the current school year shall be counted in membership.

(ii) A pupil who is determined by the department to meet all of the following may be counted in membership:

(A) Is enrolled in a public school academy or an alternative education high school diploma program, that is primarily focused on educating homeless pupils and that is located in a city with a population of more than 500,000.

(B) Had dropped out of school for more than 1 year and has re-entered school.

(C) Is less than 22 years of age as of September 1 of the current school year.

(m) An individual who has obtained a high school diploma shall not be counted in membership. An individual who has obtained a general educational development (G.E.D.) certificate shall not be counted in membership unless the individual is a student with a disability as defined in R 340.1702 of the Michigan administrative code. An individual participating in a job training program funded under former section 107a or a jobs program funded under former section 107b, administered by the Michigan strategic fund or the workforce development agency, or participating in any successor of either of those 2 programs, shall not be counted in membership.

(n) If a pupil counted in membership in a public school academy is also educated by a district or intermediate district as part of a cooperative education program, the pupil shall be counted in membership only in the public school academy unless a written agreement signed by all parties designates the party or parties in which the pupil shall be counted in membership, and the instructional time scheduled for the pupil in the district or intermediate district shall be included in the full-time equated membership determination under subdivision (q). However, for pupils receiving instruction in both a public school academy and in a district or intermediate district but not as a part of a cooperative education program, the following apply:

(i) If the public school academy provides instruction for at least 1/2 of the class hours specified in subdivision (q), the public school academy shall receive as its prorated share of the full-time equated membership for each of those pupils an amount equal to 1 times the product of the hours of instruction the public school academy provides divided by the number of hours specified in subdivision (q) for full-time equivalency, and the remainder of the full-time membership for each of those pupils shall be allocated to the district or intermediate district providing the remainder of the hours of instruction.

(ii) If the public school academy provides instruction for less than 1/2 of the class hours specified in subdivision (q), the district or intermediate district providing the remainder of the hours of instruction shall receive as its prorated share of the full-time equated membership for each of those pupils an amount equal to 1 times the product of the hours of instruction the district or intermediate district provides divided by the number of hours specified in subdivision (q) for full-time equivalency, and the remainder of the full-time membership for each of those pupils shall be allocated to the public school academy.

(o) An individual less than 16 years of age as of September 1 of the current school year who is being educated in an alternative education program shall not be counted in membership if there are also adult education participants being educated in the same program or classroom.

(p) The department shall give a uniform interpretation of full-time and part-time memberships.

(q) The number of class hours used to calculate full-time equated memberships shall be consistent with section 101(3). In determining full-time equated memberships for pupils who are enrolled in a postsecondary institution, a pupil shall not be considered to be less than a full-time equated pupil solely because of the effect of his or her postsecondary enrollment, including necessary travel time, on the number of class hours provided by the district to the pupil.

(r) Full-time equated memberships for pupils in kindergarten shall be determined by dividing the number of class hours scheduled and provided per year per kindergarten pupil by a number equal to 1/2 the number used for determining full-time equated memberships for pupils in grades 1 to 12. However, beginning in 2012-2013, full-time equated memberships for pupils in kindergarten shall be determined by dividing the number of class hours scheduled and provided per year per kindergarten pupil by the same number used for determining full-time equated memberships for pupils in grades 1 to 12.

(s) For a district, university school, or public school academy that has pupils enrolled in a grade level that was not offered by the district, university school, or public school academy in the immediately preceding school year, the number of pupils enrolled in that grade level to be counted in membership is the average of the number of those pupils enrolled and in regular daily attendance on the pupil membership count day and the supplemental count day of the current school year, as determined by the department. Membership shall be calculated by adding the number of pupils registered for

attendance in that grade level on the pupil membership count day plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by subsequent department audit, plus the final audited count from the supplemental count day for the current school year, and dividing that sum by 2.

(t) A pupil enrolled in a cooperative education program may be counted in membership in the pupil's district of residence with the written approval of all parties to the cooperative agreement.

(u) If, as a result of a disciplinary action, a district determines through the district's alternative or disciplinary education program that the best instructional placement for a pupil is in the pupil's home or otherwise apart from the general school population, if that placement is authorized in writing by the district superintendent and district alternative or disciplinary education supervisor, and if the district provides appropriate instruction as described in this subdivision to the pupil at the pupil's home or otherwise apart from the general school population, the district may count the pupil in membership on a pro rata basis, with the proration based on the number of hours of instruction the district actually provides to the pupil divided by the number of hours specified in subdivision (q) for full-time equivalency. For the purposes of this subdivision, a district shall be considered to be providing appropriate instruction if all of the following are met:

(i) The district provides at least 2 nonconsecutive hours of instruction per week to the pupil at the pupil's home or otherwise apart from the general school population under the supervision of a certificated teacher.

(ii) The district provides instructional materials, resources, and supplies, except computers, that are comparable to those otherwise provided in the district's alternative education program.

(iii) Course content is comparable to that in the district's alternative education program.

(iv) Credit earned is awarded to the pupil and placed on the pupil's transcript.

(v) A pupil enrolled in an alternative or disciplinary education program described in section 25 shall be counted in membership in the district or public school academy that is educating the pupil.

(w) If a pupil was enrolled in a public school academy on the pupil membership count day, if the public school academy's contract with its authorizing body is revoked or the public school academy otherwise ceases to operate, and if the pupil enrolls in a district within 45 days after the pupil membership count day, the department shall adjust the district's pupil count for the pupil membership count day to include the pupil in the count.

(x) For a public school academy that has been in operation for at least 2 years and that suspended operations for at least 1 semester and is resuming operations, membership is the sum of the product of .90 times the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the first pupil membership count day or supplemental count day, whichever is first, occurring after operations resume, plus the product of .10 times the final audited count from the most recent pupil membership count day or supplemental count day that occurred before suspending operations, as determined by the superintendent.

(y) If a district's membership for a particular fiscal year, as otherwise calculated under this subsection, would be less than 1,550 pupils and the district has 4.5 or fewer pupils per square mile, as determined by the department, and, beginning in 2007-2008, if the district does not receive funding under section 22d(2), the district's membership shall be considered to be the membership figure calculated under this subdivision. If a district educates and counts in its membership pupils in grades 9 to 12 who reside in a contiguous district that does not operate grades 9 to 12 and if 1 or both of the affected districts request the department to use the determination allowed under this sentence, the department shall include the square mileage of both districts in determining the number of pupils per square mile for each of the districts for the purposes of this subdivision. The membership figure calculated under this subdivision is the greater of the following:

(i) The average of the district's membership for the 3-fiscal-year period ending with that fiscal year, calculated by adding the district's actual membership for each of those 3 fiscal years, as otherwise calculated under this subsection, and dividing the sum of those 3 membership figures by 3.

(ii) The district's actual membership for that fiscal year as otherwise calculated under this subsection.

(z) If a public school academy that is not in its first or second year of operation closes at the end of a school year and does not reopen for the next school year, the department shall adjust the membership count of the district in which a former pupil of the public school academy enrolls and is in regular daily attendance for the next school year to ensure that the district receives the same amount of membership aid for the pupil as if the pupil were counted in the district on the supplemental count day of the preceding school year.

(aa) Full-time equated memberships for preprimary-aged special education pupils who are not enrolled in kindergarten but are enrolled in a classroom program under R 340.1754 of the Michigan administrative code shall be determined by dividing the number of class hours scheduled and provided per year by 450. Full-time equated memberships for preprimary-aged special education pupils who are not enrolled in kindergarten but are receiving early childhood special education services under R 340.1755 of the Michigan administrative code shall be determined by dividing the number of hours of service scheduled and provided per year per pupil by 180.

(bb) A pupil of a district that begins its school year after Labor day who is enrolled in an intermediate district program that begins before Labor day shall not be considered to be less than a full-time pupil solely due to instructional time scheduled but not attended by the pupil before Labor day.

(cc) For the first year in which a pupil is counted in membership on the pupil membership count day in a middle college program, the membership is the average of the full-time equated membership on the pupil membership count day and on the supplemental count day for the current school year, as determined by the department. If a pupil was counted by the operating district on the immediately preceding supplemental count day, the pupil shall be excluded from the district's immediately preceding supplemental count for purposes of determining the district's membership.

(dd) A district that educates a pupil who attends a United States Olympic education center may count the pupil in membership regardless of whether or not the pupil is a resident of this state.

(ee) A pupil enrolled in a district other than the pupil's district of residence pursuant to section 1148(2) of the revised school code, MCL 380.1148, shall be counted in the educating district.

(5) "Public school academy" means that term as defined in the revised school code.

(6) "Pupil" means a person in membership in a public school. A district must have the approval of the pupil's district of residence to count the pupil in membership, except approval by the pupil's district of residence is not required for any of the following:

(a) A nonpublic part-time pupil enrolled in grades 1 to 12 in accordance with section 166b.

(b) A pupil receiving 1/2 or less of his or her instruction in a district other than the pupil's district of residence.

(c) A pupil enrolled in a public school academy or university school.

(d) A pupil enrolled in a district other than the pupil's district of residence under an intermediate district schools of choice pilot program as described in section 91a or former section 91 if the intermediate district and its constituent districts have been exempted from section 105.

(e) A pupil enrolled in a district other than the pupil's district of residence if the pupil is enrolled in accordance with section 105 or 105c.

(f) A pupil who has made an official written complaint or whose parent or legal guardian has made an official written complaint to law enforcement officials and to school officials of the pupil's district of residence that the pupil has been the victim of a criminal sexual assault or other serious assault, if the official complaint either indicates that the assault occurred at school or that the assault was committed by 1 or more other pupils enrolled in the school the pupil would otherwise attend in the district of residence or by an employee of the district of residence. A person who intentionally makes a false report of a crime to law enforcement officials for the purposes of this subdivision is subject to section 411a of the Michigan penal code, 1931 PA 328, MCL 750.411a, which provides criminal penalties for that conduct. (g) A pupil whose district of residence changed after the pupil membership count day and before the supplemental count day and who continues to be enrolled on the supplemental count day as a nonresident in the district in which he or she was enrolled as a resident on the pupil membership count day of the same school year.

(h) A pupil enrolled in an alternative education program operated by a district other than his or her district of residence who meets 1 or more of the following:

(i) The pupil has been suspended or expelled from his or her district of residence for any reason, including, but not limited to, a suspension or expulsion under section 1310, 1311, or 1311a of the revised school code, MCL 380.1310, 380.1311, and 380.1311a.

As used in this subdivision, "child" includes an adopted child, stepchild, or legal ward.

(k) An expelled pupil who has been denied reinstatement by the expelling district and is reinstated by another school board under section 1311 or 1311a of the revised school code, MCL 380.1311 and 380.1311a.

(p) A pupil enrolled in a district other than the pupil's district of residence as a qualifying pupil under section 22h(2).

However, if a district educates pupils who reside in another district and if the primary instructional site for those pupils is established by the educating district after 2009-2010 and is located within the boundaries of that other district, the educating district must have the approval of that other district to count those pupils in membership.

(7) "Pupil membership count day" of a district or intermediate district means:

(a) Except as provided in subdivision (b), the first Wednesday in October each school year or, for a district or building in which school is not in session on that Wednesday due to conditions not within the control of school authorities, with the approval of the superintendent, the immediately following day on which school is in session in the district or building.

A pupil who is excused from attendance on the pupil membership count day or supplemental count day and who fails to attend each of the classes in which the pupil is enrolled within 30 calendar days after the pupil membership count day or supplemental count day shall not be counted as 1.0 full-time equated membership. In addition, a pupil who was enrolled and in attendance in a district, intermediate district, or public school academy before the pupil membership count day or supplemental count day of a particular year but was expelled or suspended on the pupil membership count day or supplemental count day shall only be counted as 1.0 full-time equated membership if the pupil resumed attendance in the district, intermediate district, or public school academy within 45 days after the pupil membership count day or supplemental count day of that particular year. Pupils not counted as 1.0 full-time equated membership due to an absence from a class shall be counted as a prorated membership for the classes the pupil attended. For purposes of this subsection, "class" means a period of time in 1 day when pupils and a certificated teacher or legally qualified substitute teacher are together and instruction is taking place.

In addition, all other available federal funds, except those otherwise appropriated under section 11p, are appropriated for the fiscal year ending September 30, 2012.

(2) The appropriations under this section shall be allocated as provided in this article. Money appropriated under this section from the general fund shall be expended to fund the purposes of this article before the expenditure of money appropriated under this section from the state school aid fund.

(3) Any general fund allocations under this article that are not expended by the end of the state fiscal year are transferred to the school aid stabilization fund created under section 11a.

Sec. 11a. (1) The school aid stabilization fund is created as a separate account within the state school aid fund established by section 11 of article IX of the state constitution of 1963.

If the money in the school aid stabilization fund is insufficient to fully fund an amount equal to the projected shortfall, the state budget director shall notify the legislature as required under section 11(3) and state payments in an amount equal to the remainder of the projected shortfall shall be prorated in the manner provided under section 11(4).

(7) For 2011-2012, in addition to the appropriations in section 11, there is appropriated from the school aid stabilization fund to the state school aid fund the amount necessary to fully fund the allocations under this article.

Sec. 11m. From the appropriations in section 11, there is allocated for 2011-2012 an amount not to exceed \$8,500,000.00 for fiscal year cash-flow borrowing costs solely related to the state school aid fund established by section 11 of article IX of the state constitution of 1963.

Sec. 11q. (1) From the federal funds appropriated under section 11, there is allocated an amount estimated at \$4,700,000.00 for 2011-2012, which represents additional federal education jobs funding that was redistributed subsequent to the initial award to this state under section 101 of title I of Public Law 111-226 in 2010-2011. This money is allocated solely for the purposes identified in that section of federal law as that section was in effect in 2011.

(2) Funds under this section shall be allocated based on the eligible district's or public school academy's relative proportion of the funding received under former section 11p as that section was in effect for 2010-2011.

(3) A recipient of funding under this section shall meet all eligibility and reporting requirements specified under former section 11p as that section was in effect for 2010-2011.

Sec. 22a. (1) From the appropriation in section 11, there is allocated an amount not to exceed \$5,769,000,000.00 for 2011-2012 for payments to districts, qualifying university schools, and qualifying public school academies to guarantee each district, qualifying university school, and qualifying public school academy an amount equal to its 1994-95 total state and local per pupil revenue for school operating purposes under section 11 of article IX of the state constitution of 1963. Pursuant to section 11 of article IX of the state constitution of 1963, this guarantee does not apply to a district in a year in which the district levies a millage rate for school district operating purposes less than it levied in 1994. However, subsection (2) applies to calculating the payments under this section. Funds allocated under this section that are not expended in the state fiscal year for which they were allocated, as determined by the department, may be used to supplement the allocations under sections 22b and 51c in order to fully fund those calculated allocations for the same fiscal year.

(2) To ensure that a district receives an amount equal to the district's 1994-95 total state and local per pupil revenue for school operating purposes, there is allocated to each district a state portion of the district's 1994-95 foundation allowance in an amount calculated as follows:

(a) Except as otherwise provided in this subsection, the state portion of a district's 1994-95 foundation allowance is an amount equal to the district's 1994-95 foundation allowance or \$6,500.00, whichever is less, minus the difference between the sum of the product of the taxable value per membership pupil of all property in the district that is nonexempt property times the district's certified mills and, for a district with certified mills exceeding 12, the product of the taxable value per membership pupil of property in the district that is commercial personal property times the certified mills minus 12 mills and the quotient of the ad valorem property tax revenue of the district captured under tax increment financing acts divided by the district's membership. For a district that has a millage reduction required under section 31 of article IX of the state constitution of 1963, the state portion of the district's foundation allowance shall be calculated as if that reduction did not occur.

(b) For a district that had a 1994-95 foundation allowance greater than \$6,500.00, the state payment under this subsection shall be the sum of the amount calculated under subdivision (a) plus the amount calculated under this subdivision. The amount calculated under this subdivision shall be equal to the difference between the district's 1994-95 foundation allowance minus \$6,500.00 and the current year hold harmless school operating taxes per pupil. If the result of the calculation under subdivision (a) is negative, the negative amount shall be an offset against any state payment calculated under this subdivision. If the result of a calculation under this subdivision is negative, there shall not be a state payment or a deduction under this subdivision. The taxable values per membership pupil used in the calculations under this subdivision are as adjusted by ad valorem property tax revenue captured under tax increment financing acts divided by the district's membership.

(3) Beginning in 2003-2004, for pupils in membership in a qualifying public school academy or qualifying university school, there is allocated under this section to the authorizing body that is the fiscal agent for the qualifying public school academy for forwarding to the qualifying public school academy, or to the board of the public university operating the qualifying university school, an amount equal to the 1994-95 per pupil payment to the qualifying public school academy or qualifying university school under section 20.

(4) A district, qualifying university school, or qualifying public school academy may use funds allocated under this section in conjunction with any federal funds for which the district, qualifying university school, or qualifying public school academy otherwise would be eligible.

(5) For a district that is formed or reconfigured after June 1, 2000 by consolidation of 2 or more districts or by annexation, the resulting district's 1994-95 foundation allowance under this section beginning after the effective date of the consolidation or annexation shall be the average of the 1994-95 foundation allowances of each of the original or affected districts, calculated as provided in this section, weighted as to the percentage of pupils in total membership in the resulting district in the state fiscal year in which the consolidation takes place who reside in the geographic area of each of the original districts. If an affected district's 1994-95 foundation allowance is less than the 1994-95 basic foundation allowance, the amount of that district's 1994-95 foundation allowance shall be considered for the purpose of calculations under this subsection to be equal to the amount of the 1994-95 basic foundation allowance.

(6) Subject to conditions set forth in this subsection, from the allocation in subsection (1), there is allocated for 2011-2012 only an amount not to exceed \$6,000,000.00 for payments to districts that meet the eligibility requirements under this subsection, for the reduction in school operating revenues resulting from a settlement or other disposition of appeals described in subdivision (a). A payment may only be made under this subsection if a settlement agreement is

signed by all applicable parties. Payments made under this subsection shall be in accordance with the settlement agreement. All of the following apply to payments under this subsection:

(a) To be eligible for a payment under this subsection, a district shall be determined by the department and the department of treasury to meet all of the following:

(i) The district does not receive any state portion of its foundation allowance, as calculated under section 20(4).

(ii) Before January 1, 2011, the owner of a natural-gas-powered power plant located in a renaissance zone within the district's geographic boundaries for 2009 and 2010 appealed to the Michigan tax tribunal an order of the state tax commission for tax years 2009 and 2010 pursuant to section 154 of the general property tax act, 1893 PA 206, MCL 211.154, and appealed to the state tax commission the 2011 classification and valuation of the power plant.

(iii) The district received a reduced amount of local school operating revenue for tax years 2009, 2010, and 2011 as a result of the exemptions of industrial personal property and commercial personal property under section 1211 of the revised school code, MCL 380.1211.

(iv) A settlement agreement has been signed to resolve the Michigan tax tribunal appeal described in subparagraph (ii) and a memorandum of understanding that stipulates terms of the settlement has been executed by the parties.

(b) A payment made under this subsection shall be in addition to renaissance zone reimbursement amounts paid in the 2009-2010 and 2010-2011 state fiscal years under section 26a to districts eligible for payment under this subsection. The 2009-2010 and 2010-2011 state fiscal year payments under section 26a to a district receiving a payment under this subsection shall not be reduced as a result of the reduction to the district's 2009 and 2010 taxable value of real property under the appeals described in subdivision (a)(ii).

(3) In order to receive an allocation under subsection (1), each district shall do all of the following:

(a) Administer in each grade level that it operates in grades 1 to 5 a standardized assessment approved by the department of grade-appropriate basic educational skills. (6) From the allocation in subsection (1), the department shall pay up to \$1,000,000.00 in litigation costs incurred by this state associated with lawsuits filed by 1 or more districts or intermediate districts against this state. (7) It is the intent of the legislature that all constitutional obligations of this state have been fully funded under sections 22a, 31d, 51a, 51c, and 152a. If a claim is made by an entity receiving funds under this article that challenges the legislative determination of the adequacy of this funding or alleges that there exists an unfunded constitutional requirement, the state budget director may escrow or allocate from the discretionary funds for nonmandated payments under this section the amount as may be necessary to satisfy the claim before making any payments to districts under subsection (2). If funds are escrowed, the escrowed funds are a work project appropriation and the funds are carried forward into the following fiscal year. (d) The district offering to enroll qualifying pupils under this subsection may limit the number of qualifying pupils it accepts in a grade, school, or program, at its discretion, and may use that limit as the reason for refusal to enroll a qualifying pupil.

(e) A qualifying pupil shall not be granted or refused enrollment based on intellectual, academic, artistic, or other ability, talent, or accomplishment, or lack thereof, or based on a mental or physical disability, except that a district may refuse to admit a qualifying pupil if the applicant does not meet the same criteria, other than residence, that an applicant who is a resident of the district must meet to be accepted for enrollment in a grade or a specialized, magnet, or intradistrict choice school or program to which the applicant applies.

All of the following apply to a grant under this subsection:

(a) The memorandum of agreement must meet all of the following requirements:

(i) Transfers the functions of managing the distressed district to the managing district and specifies the powers, duties, rights, obligations, functions, and responsibilities that are transferred to the managing district and the services to be provided by the managing district.

(iii) Both the identity of the managing district and the content of the memorandum of agreement are approved by the state treasurer.

(iv) If the memorandum of agreement makes an intermediate district the managing district for the distressed district, the distressed district is located within that intermediate district.

(b) The total amount of the managing district's grant under this subsection is the per pupil amount described in subsection (1) multiplied by the number of full-time equated qualifying pupils who remain enrolled in the distressed district and who are actually enrolled and in regular daily attendance in the distressed district in grades K to 12 on March 22, 2012, as reported by the managing district to the center for educational performance and information by not later than May 2, 2012. All pupil counts used in this subsection are as determined by the department and calculated by adding the number of pupils registered for attendance as defined by rules promulgated by the superintendent, and as corrected by a subsequent department audit.

(4) Notwithstanding section 17b, grant payments under this section shall be paid on a schedule and in a manner determined by the department.

(5) As used in this section:

Each intermediate district shall receive an amount equal to the state share of those costs that are clearly and directly attributable to the educational programs for pupils placed in facilities described in this section that are located within the intermediate district's boundaries. The intermediate districts receiving payments under this section shall cooperate with the department of human services to ensure that all funding allocated under this section is utilized by the intermediate district and department of human services for educational programs for pupils described in this section. Allocations under this subsection shall be made as follows:

(b) After the allocations under subdivision (a), districts and intermediate districts for which the payments calculated under subdivision (a) do not fulfill the specified percentages shall be paid the amount necessary to achieve the specified percentages for the district or intermediate district.

(3) From the funds allocated under subsection (1), there is allocated for 2011-2012 an amount not to exceed \$1,000,000.00 to make payments to districts and intermediate districts under this subsection. If the amount allocated to a district or intermediate district for a fiscal year under subsection (2)(b) is less than the sum of the amounts allocated to the district or intermediate district for 1996-97 under sections 52 and 58, there is allocated to the district or intermediate district for the fiscal year an amount equal to that difference, adjusted by applying the same proration factor that was used in the distribution of funds under section 52 in 1996-97 as adjusted to the district's or intermediate district's necessary costs of special education used in calculations for the fiscal year. This adjustment is to reflect reductions in special education program operations or services between 1996-97 and subsequent fiscal years. Adjustments for reductions in special education program operations or services shall be made in a manner determined by the department and shall include adjustments for program or service shifts.

(4) If the department determines that the sum of the amounts allocated for a fiscal year to a district or intermediate district under subsection (2)(a) and (b) is not sufficient to fulfill the specified percentages in subsection (2), then the shortfall shall be paid to the district or intermediate district during the fiscal year beginning on the October 1 following the determination and payments under subsection (3) shall be adjusted as necessary. If the department determines that the sum of the amounts allocated for a fiscal year to a district or intermediate district under subsection (2)(a) and (b) exceeds the sum of the amount necessary to fulfill the specified percentages in subsection (2), then the department shall deduct the amount of the excess from the district's or intermediate district's payments under this act for the fiscal year beginning on the October 1 following the determination and payments under subsection (3) shall be adjusted as necessary. However, if the amount allocated under subsection (2)(a) in itself exceeds the amount necessary to fulfill the specified percentages in subsection (2), there shall be no deduction under this subsection.

(5) State funds shall be allocated on a total approved cost basis. Federal funds shall be allocated under applicable federal requirements, except that an amount not to exceed \$3,500,000.00 may be allocated by the department for 2011-2012 to districts, intermediate districts, or other eligible entities on a competitive grant basis for programs, equipment, and services that the department determines to be designed to benefit or improve special education on a statewide scale.

(6) From the amount allocated in subsection (1), there is allocated an amount not to exceed \$2,200,000.00 for 2011-2012 to reimburse 100% of the net increase in necessary costs incurred by a district or intermediate district in implementing the revisions in the administrative rules for special education that became effective on July 1, 1987. As used in this subsection, "net increase in necessary costs" means the necessary additional costs incurred solely because of new or revised requirements in the administrative rules minus cost savings permitted in implementing the revised rules. Net increase in necessary costs shall be determined in a manner specified by the department.

(7) For purposes of sections 51a to 58, all of the following apply:

(a) "Total approved costs of special education" shall be determined in a manner specified by the department and may include indirect costs, but shall not exceed 115% of approved direct costs for section 52 and section 53a programs. The total approved costs include salary and other compensation for all approved special education personnel for the program, including payments for social security and medicare and public school employee retirement system contributions. The total approved costs do not include salaries or other compensation paid to administrative personnel who are not special education personnel as defined in section 6 of the revised school code, MCL 380.6. Costs reimbursed by federal funds, other than those federal funds included in the allocation made under this article, are not included. Special education approved personnel not utilized full time in the evaluation of students or in the delivery of special education programs, ancillary, and other related services shall be reimbursed under this section only for that portion of time actually spent providing these programs and services, with the exception of special education programs and services provided to youth placed in child caring institutions or juvenile detention programs approved by the department to provide an on-grounds education program.

(b) Beginning with the 2004-2005 fiscal year, a district or intermediate district that employed special education support services staff to provide special education support services in 2003-2004 or in a subsequent fiscal year and that in a fiscal year after 2003-2004 receives the same type of support services from another district or intermediate district shall report the cost of those support services for special education reimbursement purposes under this article. This subdivision does not prohibit the transfer of special education classroom teachers and special education classroom aides if the pupils counted in membership associated with those special education classroom teachers and special education classroom aides are transferred and counted in membership in the other district or intermediate district in conjunction with the transfer of those teachers and aides.

(c) If the department determines before bookclosing for a fiscal year that the amounts allocated for that fiscal year under subsections (2), (3), (6), and (11) and sections 53a, 54, and 56 will exceed expenditures for that fiscal year under subsections (2), (3), (6), and (11) and sections 53a, 54, and 56, then for a district or intermediate district whose reimbursement for that fiscal year would otherwise be affected by subdivision (b), subdivision (b) does not apply to the

calculation of the reimbursement for that district or intermediate district and reimbursement for that district or intermediate district shall be calculated in the same manner as it was for 2003-2004. If the amount of the excess allocations under subsections (2), (3), (6), and (11) and sections 53a, 54, and 56 is not sufficient to fully fund the calculation of reimbursement to those districts and intermediate districts under this subdivision, then the calculations and resulting reimbursement under this subdivision shall be prorated on an equal percentage basis.

(d) Reimbursement for ancillary and other related services, as defined by R 340.1701c of the Michigan administrative code, shall not be provided when those services are covered by and available through private group health insurance carriers or federal reimbursed program sources unless the department and district or intermediate district agree otherwise and that agreement is approved by the state budget director. Expenses, other than the incidental expense of filing, shall not be borne by the parent. In addition, the filing of claims shall not delay the education of a pupil. A district or intermediate district shall be responsible for payment of a deductible amount and for an advance payment required until the time a claim is paid.

(e) Beginning with calculations for 2004-2005, if an intermediate district purchases a special education pupil transportation service from a constituent district that was previously purchased from a private entity; if the purchase from the constituent district is at a lower cost, adjusted for changes in fuel costs; and if the cost shift from the intermediate district to the constituent does not result in any net change in the revenue the constituent district receives from payments under sections 22b and 51c, then upon application by the intermediate district, the department shall direct the intermediate district to continue to report the cost associated with the specific identified special education pupil transportation service and shall adjust the costs reported by the constituent district to remove the cost associated with that specific service.

(8) A pupil who is enrolled in a full-time special education program conducted or administered by an intermediate district or a pupil who is enrolled in the Michigan schools for the deaf and blind shall not be included in the membership count of a district, but shall be counted in membership in the intermediate district of residence.

(9) Special education personnel transferred from 1 district to another to implement the revised school code shall be entitled to the rights, benefits, and tenure to which the person would otherwise be entitled had that person been employed by the receiving district originally.

(10) If a district or intermediate district uses money received under this section for a purpose other than the purpose or purposes for which the money is allocated, the department may require the district or intermediate district to refund the amount of money received. Money that is refunded shall be deposited in the state treasury to the credit of the state school aid fund.

(11) From the funds allocated in subsection (1), there is allocated the amount necessary, estimated at \$5,000,000.00 for 2011-2012, to pay the foundation allowances for pupils described in this subsection. The allocation to a district under this subsection shall be calculated by multiplying the number of pupils described in this subsection who are counted in membership in the district times the foundation allowance under section 20 of the pupil's district of residence, not to exceed the basic foundation allowance under section 20 for the current fiscal year, or, for a pupil described in this subsection who is counted in membership in a district that is a public school academy or university school, times an amount equal to the amount per membership pupil under section 20(6). The allocation to an intermediate district under this subsection shall be calculated in the same manner as for a district, using the foundation allowance under section 20 of the pupil's district of residence, not to exceed the basic foundation allowance under section 20 for the current fiscal year. This subsection applies to all of the following pupils:

(a) Pupils described in section 53a.

(b) Pupils counted in membership in an intermediate district who are not special education pupils and are served by the intermediate district in a juvenile detention or child caring facility.

(c) Pupils with an emotional impairment counted in membership by an intermediate district and provided educational services by the department of community health.

(12) If it is determined that funds allocated under subsection (2) or (11) or under section 51c will not be expended, funds up to the amount necessary and available may be used to supplement the allocations under subsection (2) or (11) or under section 51c in order to fully fund those allocations. After payments under subsections (2) and (11) and section 51c, the remaining expenditures from the allocation in subsection (1) shall be made in the following order:

(a) 100% of the reimbursement required under section 53a.

(b) 100% of the reimbursement required under subsection (6).

(c) 100% of the payment required under section 54.

(d) 100% of the payment required under subsection (3).

(e) 100% of the payments under section 56.

(13) The allocations under subsections (2), (3), and (11) shall be allocations to intermediate districts only and shall not be allocations to districts, but instead shall be calculations used only to determine the state payments under section 22b.

(14) If a public school academy enrolls pursuant to this section a pupil who resides outside of the intermediate district in which the public school academy is located and who is eligible for special education programs and services according to statute or rule, or who is a child with disabilities, as defined under the individuals with disabilities education act, Public Law 108-446, the provision of special education programs and services and the payment of the added costs of special education programs and services for the pupil are the responsibility of the district and intermediate district in which the pupil resides unless the enrolling district or intermediate district has a written agreement with the district or intermediate district in which the pupil resides or the public school academy for the purpose of providing the pupil with a free appropriate public education and the written agreement includes at least an agreement on the responsibility for the payment of the added costs of special education programs and services for the pupil.

Sec. 51c. Funds allocated under this section that are not expended in the state fiscal year for which they were allocated, as determined by the department, may be used to supplement the allocations under sections 22a and 22b in order to fully fund those calculated allocations for the same fiscal year.

Sec. 74. (1) From the amount appropriated in section 11, there is allocated an amount not to exceed \$3,233,900.00 for 2011-2012 for the purposes of this section.

The payments shall be in an amount determined by the department not to exceed 75% of the actual cost of instruction and driver compensation for each public or nonpublic school bus driver attending a course of instruction. For the purpose of computing compensation, the hourly rate allowed each school bus driver shall not exceed the hourly rate received for driving a school bus. Reimbursement compensating the driver during the course of instruction shall be made by the department to the college or university or intermediate district providing the course of instruction.

(3) From the allocation in subsection (1), there is allocated each fiscal year the amount necessary to pay the reasonable costs of nonspecial education auxiliary services transportation provided pursuant to section 1323 of the revised school code, MCL 380.1323. Districts funded under this subsection shall not receive funding under any other section of this article for nonspecial education auxiliary services transportation.

(4) From the funds allocated in subsection (1), there is allocated an amount not to exceed \$1,608,900.00 for 2011-2012 for reimbursement to districts and intermediate districts for costs associated with the inspection of school buses and pupil transportation vehicles by the department of state police as required under section 715a of the Michigan vehicle code, 1949 PA 300, MCL 257.715a, and section 39 of the pupil transportation act, 1990 PA 187, MCL 257.1839. The department of state police shall prepare a statement of costs attributable to each district for which bus inspections are provided and submit it to the department and to each affected district in a time and manner determined jointly by the department and the department of state police. The department shall reimburse each district and intermediate district for costs detailed on the statement within 30 days after receipt of the statement. Districts for which services are provided shall make payment in the amount specified on the statement to the department of state police within 45 days after receipt of the statement. The total reimbursement of costs under this subsection shall not exceed the amount allocated under this subsection. Notwithstanding section 17b, payments to eligible entities under this subsection shall be paid on a schedule prescribed by the department.
