Senate Resolution No. 71.

A resolution commemorating June 8-16, 2013, as Aquatic Invasive Species Awareness Week in the state of Michigan.

Whereas, Michigan and its economy are defined by the Great Lakes and depend on its great abundance of fresh water for manufacturing, tourism, fishing, public water supplies, agriculture, and numerous other uses; and

Whereas, Preventing the introduction of aquatic invasive species ultimately benefits the state of Michigan, and stopping the introduction of these species would eliminate the need of the state business, industry, and citizens from employing costly methods to control and manage them; and

Whereas, Michigan has taken the lead in protecting the Great Lakes from aquatic invasive species from a number of pathways, including ballast water, canals and waterways, organisms in trade, and recreational activities; and

Whereas, Over 180 nonindigenous aquatic invasive species have been introduced to the Great Lakes, many of which are displacing native species, disrupting habitats, and degrading natural, managed, and agricultural landscapes, resulting in millions of dollars for control efforts each year; and

Whereas, Michigan has over 1 million registered boaters and many other recreational, commercial, and industrial users of over 11,000 lakes and ponds and over 36,000 miles of streams, many of which are impacted by aquatic invasive species; and

Whereas, Aquatic invasive species awareness is an important first step toward behavior change, which prevents the introduction and spread of aquatic invasive species; and

Whereas, Spring marks the beginning of water-related recreational activities in Michigan; and

Whereas, Aquatic Invasive Species Awareness Week is an opportunity for government to join forces with business, industry, environmental groups, community organizations, and citizens to take action against the introduction and spread of aquatic invasive species; and now, therefore, be it
