## SUMMARY:

Senate Bill 1006 amends the Social Welfare Act to allow individuals with certain drug-related felony warrants or convictions to receive food assistance if otherwise eligible.

Specifically, the bill directs that provisions that prohibit the Department of Health and Human Services (DHHS) from granting food assistance to an individual with an outstanding felony warrant do not apply to someone who has an outstanding felony warrant for a violation of Part 74 (Offenses and Penalties) of Article 7 (Controlled Substances) of the Public Health Code.

The bill also provides that, under the option granted to states by 21 USC 862a(d)(1), an individual convicted under federal or state law of a felony involving possession, distribution, or use of a controlled substance is exempt from the prohibition in 21 USC 862a(a) against eligibility for food assistance program benefits for those convictions.<sup>1</sup>

The bill took effect January 4, 2021.

MCL 400.10b and 400.14m

## FISCAL IMPACT:

Senate Bill 1006 would result in increased caseloads—and costs—for the Food Assistance Program (FAP), which is administered by DHHS but funded through federal Supplemental Nutrition Assistance Program (SNAP) revenues.

The bill would allow individuals with drug-related felonies, who would otherwise be eligible for FAP, to apply for and receive food assistance. FAP caseload would likely increase, but by an undetermined amount. If caseload costs exceed appropriated amounts, a supplemental or contingency transfer would be required to expend additional federal SNAP revenue received. However, the bill would likely not result in any additional costs requiring state revenue.
