**House Bill 5241 as introduced**  
**Sponsor: Rep. Daire Rendon**  
**Committee: Insurance**  
**Complete to 12-2-19**

Analysis available at  
<http://www.legislature.mi.gov>

### SUMMARY:

House Bill 5241 would amend Chapter 8 (Assets and Liabilities) of the Insurance Code to remove a provision that currently exempts certain insurers from the requirement to establish reserves using a principle-based valuation that meets certain conditions for policies or contracts as specified in the manual of valuation instructions (*Valuation Manual*) adopted by the National Association of Insurance Commissioners (NAIC).

In 2009, the NAIC adopted revisions to its standard valuation model law, authorizing the use of the *Valuation Manual*, which contains the minimum reserve standards for various life and health insurance and annuity contracts.<sup>1</sup> The *Valuation Manual* was to become operative when 42 states representing at least 75% of direct written premiums adopted the 2009 revisions. Michigan adopted the revisions in 2014.<sup>2</sup> The *Valuation Manual* became operative on January 1, 2017.<sup>3</sup> The adoption of the 2009 revisions is an NAIC accreditation requirement effective January 1, 2020.<sup>4</sup>

Under current law, a Michigan-based company is exempt from the principle-based valuation and *Valuation Manual* requirements if it meets both of the following:

- The company has less than \$500.0 million of ordinary life premiums and, if the company is a member of a group of life insurers, the group has combined ordinary life premiums of less than \$1.0 billion.
- The company reported total adjusted capital of at least 450% of the authorized control level risk-based capital in the most recent risk-based capital report and the appointed actuary has provided an unqualified opinion on the reserves.

However, a company exempt as above may elect in writing to be bound for a calendar year by the requirements.

The bill would eliminate this exemption and election.
