Senator Sylvia Santana of the 3rd District offered the following invocation:

O mighty God, we stand before you today with our hearts and our minds clear to hear Your daily instruction for this day. We pray for clarity in our decision-making because its impacts will ripple away to 10 million people. Let our hearing not be selective to others, but let us listen to the hearts of others openly, without judgement or biases for a more perfect Union.

Lord, You are the giver of life and from the earth we came and from the earth we shall return. We mourn the deaths of all Your children who have lost their lives during this pandemic and those who have lost their lives through the acts of others. Let us put our pride aside and do Your will on the earth. You have given us all the tools to create a beautiful life of true freedom for all.

Now let's get to work. Amen.

The President, Lieutenant Governor Gilchrist, led the members of the Senate in recital of the *Pledge of Allegiance*.

Motions and Communications

Senator Chang moved that Senators Ananich, Hertel and Hollier be temporarily excused from today's session.

Respectfully,
Gretchen Whitmer
Governor

The following message from the Governor was received on June 17, 2020, and read:

EXECUTIVE ORDER
No. 2020-124

**Temporary enhancements to operational capacity,
flexibility, and efficiency of pharmacies**

Rescission of Executive Order 2020-93

The novel coronavirus (COVID-19) is a respiratory disease that can result in serious illness or death. It is caused by a new strain of coronavirus not previously identified in humans and easily spread from person to person. Older adults and those with chronic health conditions are at particular risk, and there is an increased risk of rapid spread of COVID-19 among persons in close proximity to one another. There is currently no approved vaccine or antiviral treatment for this disease.

On March 10, 2020, the Department of Health and Human Services identified the first two presumptive-positive cases of COVID-19 in Michigan. On that same day, I issued Executive Order 2020-4. That order declared a state of emergency across the state of Michigan under section 1 of article 5 of the Michigan Constitution of 1963, the Emergency Management Act, 1976 PA 390, as amended (EMA), MCL 30.401 *et seq.*, and the Emergency Powers of the Governor Act of 1945, 1945 PA 302, as amended (EPGA), MCL 10.31 *et seq.*

Since then, the virus spread across Michigan, bringing deaths in the thousands, confirmed cases in the tens of thousands, and deep disruption to this state's economy, homes, and educational, civic, social, and religious institutions. On April 1, 2020, in response to the widespread and severe health, economic, and social harms posed by the COVID-19 pandemic, I issued Executive Order 2020-33. This order expanded on Executive Order 2020-4 and declared both a state of emergency and a state of disaster across the State of Michigan under section 1 of article 5 of the Michigan Constitution of 1963, the Emergency Management Act, and the Emergency Powers of the Governor Act of 1945. And on April 30, 2020, finding that COVID-19 had created emergency and disaster conditions across the State of Michigan, I issued Executive Order 2020-67 to continue the emergency declaration under the EPGA, as well as Executive Order 2020-68 to issue new emergency and disaster declarations under the EMA.

Those executive orders have been challenged in *Michigan House of Representatives and Michigan Senate v. Whitmer*. On May 21, 2020, the Court of Claims ruled that Executive Order 2020-67 is a valid exercise of authority under the Emergency Powers of the Governor Act but that Executive Order 2020-68 is not a valid exercise of authority under the Emergency Management Act. Both of those rulings are being challenged on appeal.

On May 22, 2020, I issued Executive Order 2020-99, again finding that the COVID-19 pandemic constitutes a disaster and emergency throughout the State of Michigan. That order constituted a state of emergency declaration under the Emergency Powers of the Governor Act of 1945. And, to the extent the governor may declare a state of emergency and a state of disaster under the Emergency Management Act when emergency and disaster conditions exist yet the legislature has declined to grant an extension request, that order also constituted a state of emergency and state of disaster declaration under that act.

The Emergency Powers of the Governor Act provides a sufficient legal basis for issuing this executive order. In relevant part, it provides that, after declaring a state of emergency, "the governor may promulgate reasonable orders, rules, and regulations as he or she considers necessary to protect life and property or to bring the emergency situation within the affected area under control." MCL 10.31(1).

Nevertheless, subject to the ongoing litigation and the possibility that current rulings may be overturned or otherwise altered on appeal, I also invoke the Emergency Management Act as a basis for executive action to combat the spread of COVID-19 and mitigate the effects of this emergency on the people of Michigan, with the intent to preserve the rights and protections provided by the EMA. The EMA vests the governor with broad powers and duties to "cop[e] with dangers to this state or the people of this state presented by a disaster or emergency," which the governor may implement through "executive orders, proclamations, and directives having the force and effect of law." MCL 30.403(1)–(2). This executive order falls within the scope of those powers and duties, and to the extent the governor may declare a state of emergency and a state of disaster under the Emergency Management Act when emergency and disaster conditions exist yet the legislature has not granted an extension request, they too provide a sufficient legal basis for this order.

To respond effectively to the urgent and steep demands created by this pandemic, the public requires increased access to therapeutic pharmaceuticals. Meeting this critical need requires swiftly but safely expanding access to pharmacy services. To that end, it is reasonable and necessary to provide temporary and limited relief from certain regulatory restrictions regarding pharmacies in order to enhance their operational capacity, flexibility, and efficiency.

Executive Order 2020-25 provided such relief. Executive Order 2020-56 and Executive Order 2020-93 both extended its duration. This order follows upon those orders, extending further the duration of that relief, as it remains reasonable and necessary to ensure the supply of pharmaceuticals while suppressing the spread of COVID-19 and protecting the public health and safety of this state and its residents. With this order, Executive Order 2020-93 is rescinded.

Acting under the Michigan Constitution of 1963 and Michigan law, I order the following:

1. Pharmacists located in any county in this state may dispense emergency refills of up to a sixty (60) day supply of any non-controlled maintenance medication for residents of any county in this state if, in the pharmacist's professional judgment, failure to refill the prescription might interrupt the patient's ongoing care and have a significant adverse effect on the patient's well-being.

2. The following shall apply to all emergency refills dispensed under section 1 of this order:

(a) The pharmacist must inform the patient that the prescription was refilled under section 1 of this order.

(b) The pharmacist must inform the prescriber in writing within a reasonable period of time of any refills the pharmacist dispensed under section 1 of this order.

(c) Prior to refilling a prescription under section 1 of this order, the pharmacist, clinic, or mobile pharmacy must make every reasonable effort to communicate with the prescriber regarding the refilling of the

prescription. The pharmacist must make an appropriate record of that effort, including the basis for proceeding under section 1 of this order.

(d) A prescriber must not incur any criminal or civil liability or licensing disciplinary action as the result of a pharmacist refilling a prescription under section 1 of this order.

3. Pharmacists may temporarily operate a pharmacy in an area not designated on the pharmacy license, but they may not prepare sterile drug products beyond low-risk preparations, as defined by United States Pharmacopeia (USP) standards, for immediate inpatient administration in such temporary facilities.

4. Pharmacists may dispense and/or administer drugs as needed to treat COVID-19 pursuant to protocols established by the Centers for Disease Control and Prevention or the National Institute of Health, or as determined appropriate by the chief medical executive of the Department of Health and Human Services or her designee.

5. Pharmacists may substitute a therapeutically equivalent medication for a medication subject to critical shortages without the authorization of a prescriber. The pharmacist must inform the patient of any such substitution. The pharmacist must inform the prescriber within a reasonable period of time of any prescriptions or refills dispensed under this section. A prescriber must not incur any criminal or civil liability or licensing disciplinary action as the result of a pharmacist filling or refilling a prescription under this section.

6. To increase the number of pharmacists who can serve patients during this time of need, preceptors may supervise student pharmacists remotely to fulfill eligibility for licensure and avoid delaying graduation.

7. Insurers and health maintenance organizations issuing health insurance or disability insurance policies that provide prescription drug benefits must cover any emergency refills of covered prescription drugs dispensed by a pharmacist under section 1 of this order. Insurers and health maintenance organizations must also allow for early refills of all 30-day or 60-day covered prescription maintenance medications to allow for up to a 90-day supply to be dispensed by a pharmacy, without regard to whether the pharmacy is mail-order or in-person. Insurers and health maintenance organizations may still apply policy or contract provisions governing out-of-network benefits and cost-sharing.

8. Pharmacists may supervise pharmacy technicians and other pharmacy staff remotely. Supervision must be conducted through a real-time, continuous audiovisual camera system, capable of allowing the pharmacist to visually identify the markings on tablets and capsules. The pharmacist must have access to all relevant patient information to accomplish the remote supervision and must be available at all times during the supervision to provide real-time patient consultation. A pharmacy technician may not perform sterile or nonsterile compounding without a pharmacist on the premises.

9. Pharmacies holding a license, certificate, or other permit in good standing issued by another state must be deemed licensed to do business in this state. These out-of-state licensed pharmacies must not deliver controlled substances into this state; must abide by all Michigan regulations applicable to the practice of pharmacy, but need not have a pharmacist-in-charge with a license to practice in Michigan; and must hold a current accreditation from a national organization approved by the Michigan Board of Pharmacy before providing sterile compounding services to patients in this state.

10. Wholesale distributors holding a license, certificate, or other permit in good standing issued by another state must be deemed licensed to do business in this state. These out-of-state wholesale distributors must not deliver controlled substances into this state and must abide by all Michigan regulations applicable to a Michigan-licensed wholesale distributor.

11. To the extent any statutes, rules, or regulations may be inconsistent with this order, strict compliance with them is temporarily suspended. This includes, but is not limited to: sections 17707(5), 17739(2)(c), 17739a(3), 17741(1)-(2), 17743, 17748, 17748a, 17748b, 17751, 17755(3), and 17763(b) of the Public Health Code, 1978 PA 368, as amended, MCL 333.17707(5), 333.17739(2)(c), 333.17739a(3), 333.17741(1)-(2), 333.17743, 333.17748, 333.17748a, 333.17748b, 333.17751, 333.17755(3), and 333.17763(b); and Rules 338.473(2), 338.473a(5)(a), 338.477(1)-(2), 338.482(2)-(3), 338.486(1)(b), 338.486(3), 338.489(3), 338.490(3), 338.490(4)(a), 338.490(5), 338.3041(4), and 338.3162(1) of the Michigan Administrative Code.

12. This order is effective immediately and continues through July 14, 2020 at 11:59 p.m.

13. Consistent with MCL 10.33 and MCL 30.405(3), a willful violation of this order is a misdemeanor.

14. Executive Order 2020-93 is rescinded.

Given under my hand and the Great Seal of the State of Michigan.

Recess

Senator MacGregor moved that the Senate recess subject to the call of the Chair. The motion prevailed, the time being 10:54 a.m.

11:22 a.m.

The Senate was called to order by the President, Lieutenant Governor Gilchrist.

By unanimous consent the Senate proceeded to the order of

General Orders

Senator MacGregor moved that the Senate resolve itself into the Committee of the Whole for consideration of the General Orders calendar.

The motion prevailed, and the President, Lieutenant Governor Gilchrist, designated Senator MacDonald as Chairperson.

After some time spent therein, the Committee arose; and the President, Lieutenant Governor Gilchrist, having resumed the Chair, the Committee reported back to the Senate, favorably and without amendment, the following bills:

Senate Bill No. 785, entitled

A bill to amend 1931 PA 328, entitled "The Michigan penal code," by amending section 42b (MCL 750.42b), as added by 1992 PA 273.

Senate Bill No. 786, entitled

A bill to amend 1971 PA 79, entitled "Age of majority act of 1971," by amending section 3 (MCL 722.53). The bills were placed on the order of Third Reading of Bills.

Statements

Senator Moss asked and was granted unanimous consent to make a statement and moved that the statement be printed in the Journal.

The motion prevailed.

Senator Moss' statement is as follows:

I'm going to continue this ongoing conversation about LGBTQ rights here in Michigan as our resolution to declare June as LGBTQ Pride Month lingers in committee—and I think you can tell that aggravates me quite a deal—and our legislation to amend the Elliott-Larsen Civil Rights Act has not moved in the last 12 months—really, the last 40 years. This is important. Our community has never had this robust conversation in this chamber before. It's timely. We are approaching the 51st anniversary of the Stonewall rebellion, and, of course, we made a huge gain this week with the Supreme Court decision affirming that it is illegal to fire someone based on their sexual orientation or gender identity.

But as I said last week, we are more than just a community of struggle. We are a community of support and love. I want to highlight today one of the most significant LGBTQ institutions in Michigan—Affirmations, the state's largest LGBTQ community center in my district in Ferndale. Affirmations has a 31-year history of providing resources, support, a safe space for the LGBTQ community of metro Detroit, and hosts diverse programming, including a large send-off celebration in the fall for the late Aimee Stephens before she went to the Supreme Court in Washington, D.C.

But I'm not even going to go and dive into the decades of rich history. Most timely perhaps is probably just how they've adjusted to serve during the COVID-19 crisis. As Oakland County in my district was hit especially hard by the health pandemic and Affirmations shuttered its doors in late March, their team, led by executive director Dave Garcia, reimagined how they would continue to operate and provide programming to vulnerable populations. They quickly shifted their support groups to Zoom; including 14 weekly tele-recovery groups; 13 weekly tele-support and discussion groups targeting youth, seniors, and those struggling with identity; tele-counseling sessions; and even just an open tele-group for youth to drop in when they are seeking comradery, companionship, or just someone to talk to. They called in weekly to check in on seniors in our community; provided weekly food delivery to those with no means of transportation; and created a

successful weekly food pickup partnership where people can stop by the center on Fridays to pick up nonperishable foods, fresh fruits and vegetables, hygiene kits, and meals donated by local Ferndale restaurants—no questions asked, and not exclusive to the LGBTQ community.

I'm going to repeat that. If you are hungry, Affirmations is an LGBTQ-driven community center that supports everyone. Some of their best partnerships have developed during this time of crisis, including with Gleaner's Food Bank and Auntie Na's Village. That provides me with a lot of pride about what our community is capable of and the value we provide to Michiganders of all backgrounds. It is the very definition of why we celebrate LGBTQ pride.

Recess

Senator MacGregor moved that the Senate recess subject to the call of the Chair.
The motion prevailed, the time being 5:48 p.m.

5:56 p.m.

The Senate was called to order by the President pro tempore, Senator Nesbitt.

The question being on concurring in the substitute made to the bill by the House,
Senator Irwin offered the following amendments:

1. Amend page 7, following line 2, by inserting:

“Homeless sheltering grants 10,000,000”

2. Amend page 7, line 6, by striking out “327,500,000” and inserting “337,500,000” and adjusting the subtotals, totals, and section 201 accordingly.

3. Amend page 39, following line 2, by inserting:

“Sec. 605. (1) From the funds appropriated in part 1 for homeless sheltering grants, the department of treasury shall provide grants for the payment or reimbursement to local units of government which have or are providing temporary housing to homeless individuals related to that local unit’s response to the COVID-19 pandemic.

(2) The department of treasury shall make available on its website all forms, and information needed for applicants to apply for payments or reimbursements. Applicants will have until September 30, 2020, to apply for a payment or reimbursement. Payments and reimbursements will be made on a first-come, first-served basis, and must be made no later than 45 days after all required information is submitted.

(3) The department of treasury shall not award more than \$5,000,000 million to any applicant.

(4) The department of treasury shall provide a report to the senate and house appropriations committees, the senate and house fiscal agencies, and the state budget office not later than December 1, 2020. The report shall include a list by payment or reimbursement recipient on the date each was approved, the payment or reimbursement amount, and a description of the sheltering services provided to the local unit of government’s homeless population.

(5) As used in this section, “applicant” means a city, village, township, and county.

(6) The unexpended funds appropriated in part 1 for homeless sheltering grants are designated as a work project appropriation. Any unencumbered or unallotted funds shall not lapse at the end of the fiscal year and shall be available for expenditures for projects under this section until the projects have been completed. The following is in compliance with section 451a(1) of the management and budget act, 1984 PA 431, MCL 18.1451a:

(a) The purpose of the work project is to provide a payment or reimbursement to applicants for sheltering costs associated with homeless programming related to the COVID-19 pandemic.

(b) The project will be accompanied by utilizing state employees to provide payments or reimbursements to eligible applicants.

(c) The total estimated cost of the work project is \$10,000,000.00.

(d) The tentative completion date is December 30, 2020.”.

Senator Polehanki offered the following amendments:

1. Amend page 7, following line 2, by inserting:

“Unemployment insurance grant program 100,000,000”

2. Amend page 7, line 6, after “fund” by striking out “327,500,000” and inserting “427,500,000” and adjusting the subtotals, totals, and section 201 accordingly.

3. Amend page 39, following line 2, by inserting:

“Sec. 605. (1) From the funds appropriated in part 1 for the unemployment insurance grant program, \$100,000,000.00 shall be used by the department of treasury, in coordination with the unemployment insurance agency, to create and operate a grant program for individuals who have applied for unemployment insurance benefits but who are currently experiencing a delay in receiving unemployment insurance benefits because of an unemployment insurance agency delay in determining eligibility and processing claims. The unemployment insurance agency shall work with the department of treasury as needed to assist with implementation of the grant program, which shall include assistance in identifying unemployment insurance applicants eligible to receive a grant under the unemployment insurance grant program.

(2) The unemployment insurance grant program shall do all of the following:

(a) Provide grants of \$1,000.00 to individuals who have applied for unemployment insurance benefits but who are currently experiencing a delay in receiving unemployment insurance benefits because they are awaiting a determination by the unemployment insurance agency.

(b) Prioritize the distribution of grants such that unemployment insurance applicants who are experiencing the longest delay are the first to receive a grant.

(c) Ensure that grants are not provided to individuals with a claim that has been affirmatively identified as fraudulent.

(3) The department of treasury may retain up to 1.0% of the appropriated funds in part 1 to administer the unemployment insurance grant program.

(4) The department of treasury shall provide a biweekly report that provides updates on the implementation of the program, including updates on the distribution of payments. The reports shall be submitted to the senate and house appropriations committees, the senate and house fiscal agencies, and the state budget office.”

The bill was referred to the Secretary for enrollment printing and presentation to the Governor.

Senators Irwin, Stamas, Hollier, Geiss, Brinks, Bayer, Polehanki and Hertel asked and were granted unanimous consent to make statements and moved that the statements be printed in the Journal.

The motion prevailed.

Senator Irwin’s first statement is as follows:

This amendment is an attempt to put this Legislature in the position of helping meet emergent needs relative to the COVID-19 response. I’m not sure if this was an issue in all of your communities but certainly in my community in Washtenaw County, one of the first and most important orders of business in terms of maintaining the stay-at-home order successfully was to secure housing for our homeless population. Now, in my community that meant local governments stepping up in a moment of need when the state wasn’t there and wasn’t prepared with its checkbook to make it right, those units of government stepped up and made sure their homeless population was not on the street right at the heart of the COVID-19 crisis. I think it’s right and just for this Legislature to stand with our local governments and to make sure that they are made whole for meeting the emergent needs of their homeless population. I’d ask my colleagues to support this amendment and meet the needs of our homeless citizens and our local governments who stepped up to ensure that those homeless citizens were able to comply with the stay-at-home order.

Senator Stamas’ first statement is as follows:

This package is a bipartisan COVID-19 relief bill that was negotiated between the Senate, the House, and the Governor’s office. This legislation sends millions of dollars to Michigan families, frontline workers, schools, and many more deserving citizens. These last-minute amendments that are before us have never been part of the discussion and are only now being put forward to score political points. We have more federal dollars to address these issues that I hope to send to our schools as well. I welcome your productive input going forward, but I cannot support last-minute political tactics. I urge a “no” vote on all of these amendments and I welcome a “yes” vote on this bill and look forward to a positive discussion on the additional dollars that are coming forward for COVID-19 relief.

Senator Irwin’s second statement is as follows:

I rise to tell you that I certainly appreciate the offer from my colleague and hope to continue working on how we can best meet the needs of our local governments and our citizens throughout the period when we decide how to best spend the coronavirus relief dollars, but I can assure that meeting the needs of our homeless population is something that I put on the table very early in this process multiple times and our homeless individuals are absolutely not a political prop. They are folks who live in our state who are citizens and they deserve our support.

Senator Hollier’s first statement is as follows:

In the spirit of bipartisanship, I think much of what we’ve been talking about over the last couple of weeks is how the coronavirus has disproportionately affected members particularly of my community in Detroit. I recognize and have heard my colleagues on the other side time and time again discuss the incredible impact that COVID-19 is having on the mental health of your constituents, particularly as it relates to suicide, and as my wife is a clinical psychologist and knowing that mental health is so critically important to me and to

everyone in this chamber, I offer an amendment to add \$30 million of COVID-19 response to address this huge gap in mental health coverage, particularly as it relates to suicide prevention. I know we all want to make sure that we don't lose any more of our constituents, people whom we love, whom we are committed to, due to the stress and lack of services and counseling and availability of resources. We have these federal dollars, there's no question that there is a need, of which the people in this chamber have clearly said and told and spoken of the need for. I would ask for your support as we seek to address this glaring hole in the response to COVID-19.

Senator Hollier's second statement is as follows:

Colleagues, again I rise to ask for your assistance in voting on additional funding for summer school programs. As you will recall, when this bill initially left the Senate Chamber, we all—in a very bipartisan manner—worked to ensure that summer schools have the resources that they need to provide good instruction. Summer school has always been an unfunded mandate. It has always been something that districts struggled to do. And particularly this year, where schools are grappling with addressing students both at distance and trying to figure out ways to have them in person and supplement the learning that is not happening. And so as much as many of you supported summer school programming and these additional dollars as it came out of the Senate Chamber, I'd ask that you do so again and return it to funding to ensure that summer schools this summer have the funding that they need to ensure our children across the state are educated and get the credit recovery that was missed by so much time away.

Senator Geiss' statement is as follows:

I rise before you to ask for your support in making this amendment to provide not more than \$10 million to create a fund to help reimburse employers for the cost of paid sick leave for employees who have had COVID-19 symptoms who have had to quarantine due to potential exposure to COVID-19, who have cared for someone who is symptomatic for COVID-19. As we all know, Executive Order No. 2020-36, which was extended by Executive Order No. 2020-100, is for protecting workers who stay at home and stay safe when they or their close contacts are sick. While we do already have an earned paid sick leave law in place, it leaves many workers behind and especially for our small businesses, to be able to cover the costs of providing paid sick leave when people need to stay home in order to care for themselves or care for their loved ones. I ask for your support on this amendment.

Senator Irwin's third statement is as follows:

We know that summer learning loss is a huge problem in our education system. It's been a problem for a long, long time. It hits districts with a higher percentage of at-risk families even harder. But this year is different. This year we had school close early. Kids were out of school for a couple of months and now they are facing a summer that is uncertain. We also know that kids in some districts have navigated and kids in some families have navigated this COVID-19 response quite nicely. Some districts and some families have been successful with online learning or virtual learning. But we also know that there are a lot of families that have not. Some families have no access. Some families are struggling with poverty. Parents are going back to work. And I know that there are dollars in here that will provide a tiny, tiny percentage of need in terms of getting devices and paying for connections, but these connections that are kids need are not just virtual, they are human.

We know that thousands of kids in Michigan suffer neglect and poverty. We know that children in childhood poverty—there are thousands and thousands and thousands of them here in Michigan. And we know that summer camps are cancelled. Parents are scrambling. I don't know if you've heard from parents in your district, but I've heard from parents in my district who are asking what are they going to do this summer with their kids? They are being asked to go back to work. All of the camps that they had planned to send their kids to are all cancelled. All the low-cost opportunities that our school districts were running are cancelled. And they want to know what they can do. That's why I'm proposing this fund to help families and children with summer enrichment. I have been talking about this for months, since the beginning of this crisis; since schools shut down. We need better summer enrichment.

So I'm proposing this grant fund for summer learning and engagement be passed right now. We have been talking about it too long and the folks who need to do this have to get these plans in place today. Summer is upon us. So, this Legislature has a chance to step up right now for our youth. A chance to get our families back on track. A chance to support our working families who are trying to go back to work and are wondering what to do with their kids. And a chance to staunch the summer learning loss that I know many of you are worried about. You should, knowing \$10 million of assessments are trying to measure how much summer learning loss there has been. But I am asking you with this amendment, Are you willing to spend \$10 million to try to stop that summer learning loss? Are you willing to spend the same amount of money that you are willing to give the testing companies on trying to give these kids the human support they need? Please vote "yes."

Senator Stamas' second statement is as follows:

I truly appreciate the good Senator from the 18th District's passion and know his heart is true on finding support for all our families in the state of Michigan as we struggle through these difficult times. In this supplemental, we do have \$18 million for credit and instructional recovery to help students as we move forward, but I certainly look forward to working with the good Senator from the 18th District and all my colleagues as we move forward with over \$2 billion remaining to invest in our schools, invest in our kids, and our Michigan families. Unfortunately, I cannot support his amendment today. I look forward to the conversation in the future.

Senator Brinks' statement is as follows:

My amendment increases the direct-care worker hazard pay from two dollars an hour to three dollars an hour, and applies this raise to a broader range of direct-care providers—including those who work in skilled-nursing facilities and area agencies on aging. I'm supportive of the changes that the House of Representatives made to broaden the types of direct-care workers eligible for the pay increase and to ensure that it also applies to nurses and respiratory therapists but they should still be paid at the three dollar increase at a minimum.

It's no secret that direct-care workers are woefully underpaid, often making less than fast food employees. We have been advocating for permanent wage increase to no avail for years. The COVID-19 pandemic has sharply illustrated the vital importance of direct-care workers in our health care system. They provide critical care in our hospitals and long-term care facilities and in our CMH facilities. Every day they go to work, they risk their lives to care for our loved ones, they go home to their families and they put them at risk too. They have been the lifeline for serving our seniors, for serving disabled people, and other vulnerable populations who face greater challenges amidst this public health crisis. They should never have to worry about putting food on their tables or gas in their cars, but especially not during a global health pandemic. I ask for your support of my amendment.

Senator Stamas' third statement is as follows:

I do appreciate the remarks from the Senator from the 29th District. As the bill left this chamber originally, it did include a three dollar increase and through negotiations both with the House of Representatives and with the Governor's office, unfortunately we are at two dollars, and these two dollars are well-deserved. But I also want to thank many of the organizations that these care workers are at in their efforts to step up during these difficult times and add additional pay as they move forward without direct dollars from the state. And so with that, I do agree that the care workers do deserve much more and over a longer period of time we need to continue to work and I have fought myself to add additional dollars. But today, for this amendment, I must ask that we vote "no" so we may move forward with Michigan families with what we do have and that we can continue to work with the \$2 billion we have to help our Michigan families going forward.

Senator Bayer's statement is as follows:

I appreciate all the good spending for our families in this bill. I am going to ask you to support one amendment that we have talked about in the past. This is to provide mental health support for youth in schools. In the United States 20 to 25 percent of youth display mental health needs. Increases in the last few years are serious in depression, anxiety, and self-harm. A recently completed research project out of Wayne State University studied youth mental health across Michigan in four Michigan school districts—one in rural northern Michigan, one in urban southeast Michigan, and two in semi-rural west Michigan; all Title I qualified schools—and they found 30 percent were depressed fairly often or worse, 25 percent were anxious fairly often or worse, and 55 percent of those students in these schools have mental health needs and were not helping them. It is worse now. The first calls that I had gotten for help from my school districts when they had to shut down was to ask for mental health help for their students, especially the high school students whose futures were thrust up in the air. We didn't respond and we need to help these kids. Please support this amendment for the mental health of our children.

Senator Stamas' fourth statement is as follows:

There are so many worthy causes that we need to continue to address. Mental health is certainly one that many of us here in this chamber are very passionate about, as the good Senator has spoken. We need to continue to work with our schools. We have \$2 billion remaining of the federal COVID dollars to get out to help those that are suffering not only with what is directly happening in the workforce but with what is happening at home and within our schools, and I look forward to that discussion as we move forward to continue to help all Michigan families in these very challenging times. But I cannot support the amendment at this time and would ask that our members vote "no" on this amendment.

Senator Polehanki's statement is as follows:

This amendment would allocate \$100 million in CARES Act dollars for bridge loans to those currently awaiting assistance from the Unemployment Agency. Under my amendment, those who are backlogged in the system would be able to receive a \$1,000 loan. This money would be a lifeline for those who are struggling to make ends meet during this pandemic. There are reforms that we need to make in our unemployment system and I look forward to having those conversations, but today—right now—we can provide direct relief to constituents in every one of our districts. Our constituents need this relief.

Senator Hertel's first statement is as follows:

The most frustrating thing that I believe that any of us or our staffs or certainly the people of the state of Michigan have experienced during all of the COVID situation is the unemployment crisis that has been caused by it. All of our offices know these struggles. They hear the constituents who need help and will do almost anything to get it. And while our staffs know of this frustration, it is not comparable to those who need help and are still waiting. And I can promise you that no amount of hearings, no amount of op-eds, no amount of Facebook posts are going to solve this problem. At the end of the day, we have a responsibility to work together. Now, I think there is some important legislation that we can work on and other things we can do to solve it, but I think one of the biggest frustrations for people is that they just can't find a person to talk to. There is something very powerful about actually being able to speak to a person. And what this amendment does is provide funding for real, in-person offices for unemployment across our state.

There are areas of our state, like the Upper Peninsula, where there are no unemployment offices available for citizens. And when we know that they are being deluged with calls—when they are being deluged and waiting on a website to work, waiting on a phone line—the ability to go look a person in the eyes, explain to them your problem, and have that person care, work, and solve it is an incredibly powerful thing. So what I would ask of each of you—I understand that this wasn't part of the agreement. There were lots of discussions and I think that there are things that we need to work on together. But this is something that we can do right now that would change the lives of those people that we are working with every single day, trying to solve their problem—to be able to look someone in the eye and say, as a person, I'm going to fix your problem. I ask that you vote "yes" on this amendment.

Senator Stamas' fifth statement is as follows:

To the Senator from the 23rd District, you're right. Each of us in this chamber have seen and heard the hundreds, the thousands of those individuals calling our office, calling across the state to have someone tell them where their claim is. Yet, here today, we still stand adding \$29 million more to help put individuals forward. We have over 300 individuals the Governor has told us that are now helping in excess to try to resolve these issues. Yet, here we stand today talking about our Michigan residents not being heard. I agree with you. Each of these citizens needs to be looked in the eye and given an answer. I have supported, and we are supporting, additional dollars to make sure these individuals are going to be. But even with these dollars and putting an office out there, with the executive orders in place, just only recently have we even opened the Secretary of State's offices so that individuals can come in only by a strict appointment, only in limited numbers, to help our citizens achieve the needs that they need. I cannot support this at this time. I do not think that these dollars would give you your answer. I ask that our members here vote "no" on this amendment.

Senator Hertel's second statement is as follows:

One of the other concerns we heard a lot about is the safety and the situation in our nursing homes. Obviously, this is a concern for everyone in this chamber, and it should be. It is time for us to put our money where our mouth is. This money would go to upgrading the safety protocol in nursing homes and making sure that those residents who are in those nursing homes are protected. We all know that COVID-19 disproportionately affects those of older ages. This will go to actually making investments to make sure that those places are safe.

Senator Stamas' sixth statement is as follows:

Once again, the Senator from the 23rd District is correct, which is why we do have dollars to ensure that our nursing homes are receiving additional PPE dollars—are looking and the state has the ability to go in and give training to assist our nursing homes as we have asked and we have seen too many residents with COVID be placed in our nursing homes. This is certainly challenging and is certainly one thing we need to take time and additional dollars to help them. These are our grandparents; these are our families. You are right, Senator. It is time that we continue to step forward and find those—this is not the time on this bill to do that. We have put those dollars in there to make sure we add additional training, and I ask the members to vote "no" on this amendment.

Senator Stamas' seventh statement is as follows:

I rise as we have gone through these amendments to now ask each member of this body to support this bill. This bill does support our first responders, it does support our care workers. We are in need of the funding for the small businesses to help our Michigan families. Helping the rental and water assistance programs will also assist in many of our families in process. Is this bill perfect? No. But does it make a difference for our families? It does. I ask for your support on this bill.
