## **ENROLLED HOUSE BILL No. 5913**

AN ACT to amend 1979 PA 94, entitled “An act to make appropriations to aid in the support of the public schools, the intermediate school districts, community colleges, and public universities of the state; to make appropriations for certain other purposes relating to education; to provide for the disbursement of the appropriations; to authorize the issuance of certain bonds and provide for the security of those bonds; to prescribe the powers and duties of certain state departments, the state board of education, and certain other boards and officials; to create certain funds and provide for their expenditure; to prescribe penalties; and to repeal acts and parts of acts,” by amending sections 6, 6a, 11p, 104, 201c, and 236g (MCL 388.1606, 388.1606a, 388.1611p, 388.1704, 388.1801c, and 388.1836g), sections 6 and 104 as amended by 2020 PA 146, section 6a as amended by 2007 PA 137, and sections 11p, 201c, and 236g as added by 2020 PA 146, and by adding section 98a.

*The People of the State of Michigan enact:*

Sec. 6. (1) “Center program” means a program operated by a district or by an intermediate district for special education pupils from several districts in programs for pupils with autism spectrum disorder, pupils with severe cognitive impairment, pupils with moderate cognitive impairment, pupils with severe multiple impairments, pupils with hearing impairment, pupils with visual impairment, and pupils with physical impairment or other health impairment. Programs for pupils with emotional impairment housed in buildings that do not serve regular education pupils also qualify. Unless otherwise approved by the department, a center program either serves all constituent districts within an intermediate district or serves several districts with less than 50% of the pupils residing in the operating district. In addition, special education center program pupils placed part-time in noncenter programs to comply with the least restrictive environment provisions of section 1412 of the individuals with disabilities education act, 20 USC 1412, may be considered center program pupils for pupil accounting purposes for the time scheduled in either a center program or a noncenter program.

(2) “District and high school graduation rate” means the annual completion and pupil dropout rate that is calculated by the center pursuant to nationally recognized standards.

(3) “District and high school graduation report” means a report of the number of pupils, excluding adult education participants, in the district for the immediately preceding school year, adjusted for those pupils who have transferred into or out of the district or high school, who leave high school with a diploma or other credential of equal status.

(4) “Membership”, except as otherwise provided in this subsection and this article, means for a district, a public school academy, or an intermediate district the sum of the product of .90 times the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance in the district, public school academy, or intermediate district on the pupil membership count day for the current school year, plus the product of .10 times the final audited count from the supplemental count day of full-time equated pupils in grades K to 12

actually enrolled and in regular daily attendance in the district, public school academy, or intermediate district for the immediately preceding school year. A district's, public school academy's, or intermediate district's membership is adjusted as provided under section 25e for pupils who enroll after the pupil membership count day in a strict discipline academy operating under sections 1311b to 1311m of the revised school code, MCL 380.1311b to 380.1311m. However, except as otherwise provided in this subsection, for a community district, membership means the sum of the product of .90 times the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance in the community district on the pupil membership count day for the current school year, plus the product of .10 times the final audited count from the supplemental count day of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance in the community district for the immediately preceding school year. For 2020-2021 only, membership means for a district, a public school academy, an intermediate district, or a community district, the sum of the product of .75 times the district's, public school academy's, intermediate district's, or community district's 2019-2020 membership as calculated under this section in 2019-2020 and the product of .25 times [the sum of (the product of .90 times the number of full-time equated pupils engaged in pandemic learning for fall 2020 or, for a public school academy that operates as a cyber school, as that term is defined in section 551 of the revised school code, MCL 380.551, the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance in the public school academy on pupil membership count day) and (the product of .10 times the final audited count from the supplemental count day of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance in the district, public school academy, intermediate district, or community district for the immediately preceding school year)]. All pupil counts used in this subsection are as determined by the department and calculated by adding the number of pupils registered for attendance plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by a subsequent department audit. The amount of the foundation allowance for a pupil in membership is determined under section 20. In making the calculation of membership, all of the following, as applicable, apply to determining the membership of a district, a public school academy, or an intermediate district:

(a) Except as otherwise provided in this subsection, and pursuant to subsection (6), a pupil is counted in membership in the pupil's educating district or districts. An individual pupil shall not be counted for more than a total of 1.0 full-time equated membership.

(b) If a pupil is educated in a district other than the pupil's district of residence, if the pupil is not being educated as part of a cooperative education program, if the pupil's district of residence does not give the educating district its approval to count the pupil in membership in the educating district, and if the pupil is not covered by an exception specified in subsection (6) to the requirement that the educating district must have the approval of the pupil's district of residence to count the pupil in membership, the pupil is not counted in membership in any district.

(c) A special education pupil educated by the intermediate district is counted in membership in the intermediate district.

(d) A pupil placed by a court or state agency in an on-grounds program of a juvenile detention facility, a child caring institution, or a mental health institution, or a pupil funded under section 53a, is counted in membership in the district or intermediate district approved by the department to operate the program.

(e) A pupil enrolled in the Michigan Schools for the Deaf and Blind is counted in membership in the pupil's intermediate district of residence.

(f) A pupil enrolled in a career and technical education program supported by a millage levied over an area larger than a single district or in an area vocational-technical education program established under section 690 of the revised school code, MCL 380.690, is counted in membership only in the pupil's district of residence.

(g) A pupil enrolled in a public school academy is counted in membership in the public school academy.

(h) For the purposes of this section and section 6a, for a cyber school, as that term is defined in section 551 of the revised school code, MCL 380.551, that is in compliance with section 553a of the revised school code, MCL 380.553a, a pupil's participation in the cyber school's educational program is considered regular daily attendance, and for a district or public school academy, a pupil's participation in a virtual course as that term is defined in section 21f is considered regular daily attendance. For the purposes of this subdivision, for a pupil enrolled in a cyber school and utilizing sequential learning, participation means that term as defined in the pupil accounting manual, section 5-o-d: requirements for counting pupils in membership-subsection 10.

(i) For a new district or public school academy beginning its operation after December 31, 1994, membership for the first 2 full or partial fiscal years of operation is determined as follows:

(i) Except as otherwise provided in this subparagraph, if operations begin before the pupil membership count day for the fiscal year, membership is the average number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the pupil membership count day for the current school year and on the supplemental count day for the current school year, as determined by the department and calculated by adding

the number of pupils registered for attendance on the pupil membership count day plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by a subsequent department audit, plus the final audited count from the supplemental count day for the current school year, and dividing that sum by 2. However, for 2020-2021 only, if operations begin before the pupil membership count day for the fiscal year, except for a public school academy that operates as a cyber school, as that term is defined in section 551 of the revised school code, MCL 380.551, membership is the average number of full-time equated pupils engaged in pandemic learning for fall 2020 and full-time equated pupils engaged in pandemic learning for spring 2021, as that term is defined in section 6a, as determined by the department and calculated by adding the number of pupils registered for attendance on the pupil membership count day plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by a subsequent department audit, plus the final audited count from the supplemental count day for the current school year, and dividing that sum by 2.

(ii) If operations begin after the pupil membership count day for the fiscal year and not later than the supplemental count day for the fiscal year, membership is the final audited count of the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the supplemental count day for the current school year, but, for 2020-2021 only, except for a public school academy that operates as a cyber school, as that term is defined in section 551 of the revised school code, MCL 380.551, membership is the final audited count of the number of full-time equated pupils engaged in pandemic learning for spring 2021, as that term is defined in section 6a.

(j) If a district is the authorizing body for a public school academy, then, in the first school year in which pupils are counted in membership on the pupil membership count day in the public school academy, the determination of the district's membership excludes from the district's pupil count for the immediately preceding supplemental count day any pupils who are counted in the public school academy on that first pupil membership count day who were also counted in the district on the immediately preceding supplemental count day.

(k) For an extended school year program approved by the superintendent, a pupil enrolled, but not scheduled to be in regular daily attendance, on a pupil membership count day, is counted in membership.

(l) To be counted in membership, a pupil must meet the minimum age requirement to be eligible to attend school under section 1147 of the revised school code, MCL 380.1147, or must be enrolled under subsection (3) of that section, and must be less than 20 years of age on September 1 of the school year except as follows:

(i) A special education pupil who is enrolled and receiving instruction in a special education program or service approved by the department, who does not have a high school diploma, and who is less than 26 years of age as of September 1 of the current school year is counted in membership.

(ii) A pupil who is determined by the department to meet all of the following may be counted in membership:

(A) Is enrolled in a public school academy or an alternative education high school diploma program, that is primarily focused on educating pupils with extreme barriers to education, such as being homeless as defined under 42 USC 11302.

(B) Had dropped out of school.

(C) Is less than 22 years of age as of September 1 of the current school year.

(iii) If a child does not meet the minimum age requirement to be eligible to attend school for that school year under section 1147 of the revised school code, MCL 380.1147, but will be 5 years of age not later than December 1 of that school year, the district may count the child in membership for that school year if the parent or legal guardian has notified the district in writing that he or she intends to enroll the child in kindergarten for that school year.

(m) An individual who has achieved a high school diploma is not counted in membership. An individual who has achieved a high school equivalency certificate is not counted in membership unless the individual is a student with a disability as that term is defined in R 340.1702 of the Michigan Administrative Code. An individual participating in a job training program funded under former section 107a or a jobs program funded under former section 107b, administered by the department of labor and economic opportunity, or participating in any successor of either of those 2 programs, is not counted in membership.

(n) If a pupil counted in membership in a public school academy is also educated by a district or intermediate district as part of a cooperative education program, the pupil is counted in membership only in the public school academy unless a written agreement signed by all parties designates the party or parties in which the pupil is counted in membership, and the instructional time scheduled for the pupil in the district or intermediate district is included in the full-time equated membership determination under subdivision (q) and section 101. However, for pupils receiving instruction in both a public school academy and in a district or intermediate district but not as a part of a cooperative education program, the following apply:

(i) If the public school academy provides instruction for at least 1/2 of the class hours required under

section 101, the public school academy receives as its prorated share of the full-time equated membership for each of those pupils an amount equal to 1 times the product of the hours of instruction the public school academy provides divided by the number of hours required under section 101 for full-time equivalency, and the remainder of the full-time membership for each of those pupils is allocated to the district or intermediate district providing the remainder of the hours of instruction.

(ii) If the public school academy provides instruction for less than 1/2 of the class hours required under section 101, the district or intermediate district providing the remainder of the hours of instruction receives as its prorated share of the full-time equated membership for each of those pupils an amount equal to 1 times the product of the hours of instruction the district or intermediate district provides divided by the number of hours required under section 101 for full-time equivalency, and the remainder of the full-time membership for each of those pupils is allocated to the public school academy.

(o) An individual less than 16 years of age as of September 1 of the current school year who is being educated in an alternative education program is not counted in membership if there are also adult education participants being educated in the same program or classroom.

(p) The department shall give a uniform interpretation of full-time and part-time memberships.

(q) The number of class hours used to calculate full-time equated memberships must be consistent with section 101. In determining full-time equated memberships for pupils who are enrolled in a postsecondary institution or for pupils engaged in an internship or work experience under section 1279h of the revised school code, MCL 380.1279h, a pupil is not considered to be less than a full-time equated pupil solely because of the effect of his or her postsecondary enrollment or engagement in the internship or work experience, including necessary travel time, on the number of class hours provided by the district to the pupil.

(r) Full-time equated memberships for pupils in kindergarten are determined by dividing the number of instructional hours scheduled and provided per year per kindergarten pupil by the same number used for determining full-time equated memberships for pupils in grades 1 to 12. However, to the extent allowable under federal law, for a district or public school academy that provides evidence satisfactory to the department that it used federal title I money in the 2 immediately preceding school fiscal years to fund full-time kindergarten, full-time equated memberships for pupils in kindergarten are determined by dividing the number of class hours scheduled and provided per year per kindergarten pupil by a number equal to 1/2 the number used for determining full-time equated memberships for pupils in grades 1 to 12. The change in the counting of full-time equated memberships for pupils in kindergarten that took effect for 2012-2013 is not a mandate.

(s) For a district or a public school academy that has pupils enrolled in a grade level that was not offered by the district or public school academy in the immediately preceding school year, the number of pupils enrolled in that grade level to be counted in membership is the average of the number of those pupils enrolled and in regular daily attendance on the pupil membership count day and the supplemental count day of the current school year, but, for 2020-2021 only, except for a public school academy that operates as a cyber school, as that term is defined in section 551 of the revised school code, MCL 380.551, the number of pupils enrolled in that grade level to be counted in membership is the average of the number of those pupils engaged in pandemic learning for fall 2020 and the number of those pupils engaged in pandemic learning for spring 2021, as that term is defined in section 6a, as determined by the department. Membership is calculated by adding the number of pupils registered for attendance in that grade level on the pupil membership count day plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by subsequent department audit, plus the final audited count from the supplemental count day for the current school year, and dividing that sum by 2.

(t) A pupil enrolled in a cooperative education program may be counted in membership in the pupil's district of residence with the written approval of all parties to the cooperative agreement.

(u) If, as a result of a disciplinary action, a district determines through the district's alternative or disciplinary education program that the best instructional placement for a pupil is in the pupil's home or otherwise apart from the general school population, if that placement is authorized in writing by the district superintendent and district alternative or disciplinary education supervisor, and if the district provides appropriate instruction as described in this subdivision to the pupil at the pupil's home or otherwise apart from the general school population, the district may count the pupil in membership on a pro rata basis, with the proration based on the number of hours of instruction the district actually provides to the pupil divided by the number of hours required under section 101 for full-time equivalency. For the purposes of this subdivision, a district is considered to be providing appropriate instruction if all of the following are met:

(i) The district provides at least 2 nonconsecutive hours of instruction per week to the pupil at the pupil's home or otherwise apart from the general school population under the supervision of a certificated teacher.

(ii) The district provides instructional materials, resources, and supplies that are comparable to those otherwise provided in the district's alternative education program.

(iii) Course content is comparable to that in the district's alternative education program.

(iv) Credit earned is awarded to the pupil and placed on the pupil's transcript.

(v) If a pupil was enrolled in a public school academy on the pupil membership count day, if the public school academy's contract with its authorizing body is revoked or the public school academy otherwise ceases to operate, and if the pupil enrolls in a district within 45 days after the pupil membership count day, the department shall adjust the district's pupil count for the pupil membership count day to include the pupil in the count.

(w) For a public school academy that has been in operation for at least 2 years and that suspended operations for at least 1 semester and is resuming operations, membership is the sum of the product of .90 times the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the first pupil membership count day or supplemental count day, whichever is first, occurring after operations resume, plus the product of .10 times the final audited count from the most recent pupil membership count day or supplemental count day that occurred before suspending operations, as determined by the superintendent, but, for 2020-2021 only, except for a public school academy that operates as a cyber school, as that term is defined in section 551 of the revised school code, MCL 380.551, membership is the sum of the product of .90 times the number of full-time equated pupils engaged in pandemic learning for fall 2020 or the number of full-time equated pupils engaged in pandemic learning for spring 2021, as that term is defined in section 6a, whichever applies first after operations resume, plus the product of .10 times the final audited count from the most recent pupil membership count day or supplemental count day that occurred before suspending operations, as determined by the superintendent.

(x) If a district's membership for a particular fiscal year, as otherwise calculated under this subsection, would be less than 1,550 pupils and the district has 4.5 or fewer pupils per square mile, as determined by the department, and if the district does not receive funding under section 22d(2), the district's membership is considered to be the membership figure calculated under this subdivision. If a district educates and counts in its membership pupils in grades 9 to 12 who reside in a contiguous district that does not operate grades 9 to 12 and if 1 or both of the affected districts request the department to use the determination allowed under this sentence, the department shall include the square mileage of both districts in determining the number of pupils per square mile for each of the districts for the purposes of this subdivision. The membership figure calculated under this subdivision is the greater of the following:

(i) The average of the district's membership for the 3-fiscal-year period ending with that fiscal year, calculated by adding the district's actual membership for each of those 3 fiscal years, as otherwise calculated under this subsection, and dividing the sum of those 3 membership figures by 3.

(ii) The district's actual membership for that fiscal year as otherwise calculated under this subsection.

(y) Full-time equated memberships for special education pupils who are not enrolled in kindergarten but are enrolled in a classroom program under R 340.1754 of the Michigan Administrative Code are determined by dividing the number of class hours scheduled and provided per year by 450. Full-time equated memberships for special education pupils who are not enrolled in kindergarten but are receiving early childhood special education services under R 340.1755 or R 340.1862 of the Michigan Administrative Code are determined by dividing the number of hours of service scheduled and provided per year per-pupil by 180.

(z) A pupil of a district that begins its school year after Labor Day who is enrolled in an intermediate district program that begins before Labor Day is not considered to be less than a full-time pupil solely due to instructional time scheduled but not attended by the pupil before Labor Day.

(aa) For the first year in which a pupil is counted in membership on the pupil membership count day in a middle college program, the membership is the average of the full-time equated membership on the pupil membership count day and on the supplemental count day for the current school year, as determined by the department. If a pupil described in this subdivision was counted in membership by the operating district on the immediately preceding supplemental count day, the pupil is excluded from the district's immediately preceding supplemental count for the purposes of determining the district's membership.

(bb) A district or public school academy that educates a pupil who attends a United States Olympic Education Center may count the pupil in membership regardless of whether or not the pupil is a resident of this state.

(cc) A pupil enrolled in a district other than the pupil's district of residence under section 1148(2) of the revised school code, MCL 380.1148, is counted in the educating district.

(dd) For a pupil enrolled in a dropout recovery program that meets the requirements of section 23a, the pupil is counted as 1/12 of a full-time equated membership for each month that the district operating the program reports that the pupil was enrolled in the program and was in full attendance. However, if the special membership counting provisions under this subdivision and the operation of the other membership counting provisions under this subsection result in a pupil being counted as more than 1.0 FTE in a fiscal year, the payment made for the pupil under sections 22a and 22b must not be based on more than 1.0 FTE for that pupil, and any portion of an FTE for that pupil that exceeds 1.0 is instead paid under section 25g. The district operating the program shall

report to the center the number of pupils who were enrolled in the program and were in full attendance for a month not later than 30 days after the end of the month. A district shall not report a pupil as being in full attendance for a month unless both of the following are met:

(i) A personalized learning plan is in place on or before the first school day of the month for the first month the pupil participates in the program.

(ii) The pupil meets the district's definition under section 23a of satisfactory monthly progress for that month or, if the pupil does not meet that definition of satisfactory monthly progress for that month, the pupil did meet that definition of satisfactory monthly progress in the immediately preceding month and appropriate interventions are implemented within 10 school days after it is determined that the pupil does not meet that definition of satisfactory monthly progress.

(ee) A pupil participating in a virtual course under section 21f is counted in membership in the district enrolling the pupil.

(ff) If a public school academy that is not in its first or second year of operation closes at the end of a school year and does not reopen for the next school year, the department shall adjust the membership count of the district or other public school academy in which a former pupil of the closed public school academy enrolls and is in regular daily attendance for the next school year to ensure that the district or other public school academy receives the same amount of membership aid for the pupil as if the pupil were counted in the district or other public school academy on the supplemental count day of the preceding school year.

(gg) If a special education pupil is expelled under section 1311 or 1311a of the revised school code, MCL 380.1311 and 380.1311a, and is not in attendance on the pupil membership count day because of the expulsion, and if the pupil remains enrolled in the district and resumes regular daily attendance during that school year, the district's membership is adjusted to count the pupil in membership as if he or she had been in attendance on the pupil membership count day.

(hh) A pupil enrolled in a community district is counted in membership in the community district.

(ii) A part-time pupil enrolled in a nonpublic school in grades K to 12 in accordance with section 166b shall not be counted as more than 0.75 of a full-time equated membership.

(jj) A district that borders another state or a public school academy that operates at least grades 9 to 12 and is located within 20 miles of a border with another state may count in membership a pupil who is enrolled in a course at a college or university that is located in the bordering state and within 20 miles of the border with this state if all of the following are met:

(i) The pupil would meet the definition of an eligible student under the postsecondary enrollment options act, 1996 PA 160, MCL 388.511 to 388.524, if the course were an eligible course under that act.

(ii) The course in which the pupil is enrolled would meet the definition of an eligible course under the postsecondary enrollment options act, 1996 PA 160, MCL 388.511 to 388.524, if the course were provided by an eligible postsecondary institution under that act.

(iii) The department determines that the college or university is an institution that, in the other state, fulfills a function comparable to a state university or community college, as those terms are defined in section 3 of the postsecondary enrollment options act, 1996 PA 160, MCL 388.513, or is an independent nonprofit degree-granting college or university.

(iv) The district or public school academy pays for a portion of the pupil's tuition at the college or university in an amount equal to the eligible charges that the district or public school academy would pay to an eligible postsecondary institution under the postsecondary enrollment options act, 1996 PA 160, MCL 388.511 to 388.524, as if the course were an eligible course under that act.

(v) The district or public school academy awards high school credit to a pupil who successfully completes a course as described in this subdivision.

(kk) A pupil enrolled in a middle college program may be counted for more than a total of 1.0 full-time equated membership if the pupil is enrolled in more than the minimum number of instructional days and hours required under section 101 and the pupil is expected to complete the 5-year program with both a high school diploma and at least 60 transferable college credits or is expected to earn an associate's degree in fewer than 5 years.

(ll) If a district's or public school academy's membership for a particular fiscal year, as otherwise calculated under this subsection, includes pupils counted in membership who are enrolled under section 166b, all of the following apply for the purposes of this subdivision:

(i) If the district's or public school academy's membership for pupils counted under section 166b equals or exceeds 5% of the district's or public school academy's membership for pupils not counted in membership under section 166b in the immediately preceding fiscal year, then the growth in the district's or public school academy's membership for pupils counted under section 166b must not exceed 10%.

(ii) If the district's or public school academy's membership for pupils counted under section 166b is less than 5% of the district's or public school academy's membership for pupils not counted in membership under section 166b in the immediately preceding fiscal year, then the district's or public school academy's membership for pupils counted under section 166b must not exceed the greater of the following:

(A) 5% of the district's or public school academy's membership for pupils not counted in membership under section 166b.

(B) 10% more than the district's or public school academy's membership for pupils counted under section 166b in the immediately preceding fiscal year.

(iii) If 1 or more districts consolidate or are parties to an annexation, then the calculations under subparagraphs (i) and (ii) must be applied to the combined total membership for pupils counted in those districts for the fiscal year immediately preceding the consolidation or annexation.

(5) "Public school academy" means that term as defined in section 5 of the revised school code, MCL 380.5.

(6) "Pupil" means an individual in membership in a public school. A district must have the approval of the pupil's district of residence to count the pupil in membership, except approval by the pupil's district of residence is not required for any of the following:

(a) A nonpublic part-time pupil enrolled in grades K to 12 in accordance with section 166b.

(b) A pupil receiving 1/2 or less of his or her instruction in a district other than the pupil's district of residence.

(c) A pupil enrolled in a public school academy.

(d) A pupil enrolled in a district other than the pupil's district of residence under an intermediate district schools of choice pilot program as described in section 91a or former section 91 if the intermediate district and its constituent districts have been exempted from section 105.

(e) A pupil enrolled in a district other than the pupil's district of residence if the pupil is enrolled in accordance with section 105 or 105c.

(f) A pupil who has made an official written complaint or whose parent or legal guardian has made an official written complaint to law enforcement officials and to school officials of the pupil's district of residence that the pupil has been the victim of a criminal sexual assault or other serious assault, if the official complaint either indicates that the assault occurred at school or that the assault was committed by 1 or more other pupils enrolled in the school the pupil would otherwise attend in the district of residence or by an employee of the district of residence. A person who intentionally makes a false report of a crime to law enforcement officials for the purposes of this subdivision is subject to section 411a of the Michigan penal code, 1931 PA 328, MCL 750.411a, which provides criminal penalties for that conduct. As used in this subdivision:

(i) "At school" means in a classroom, elsewhere on school premises, on a school bus or other school-related vehicle, or at a school-sponsored activity or event whether or not it is held on school premises.

(ii) "Serious assault" means an act that constitutes a felony violation of chapter XI of the Michigan penal code, 1931 PA 328, MCL 750.81 to 750.90h, or that constitutes an assault and infliction of serious or aggravated injury under section 81a of the Michigan penal code, 1931 PA 328, MCL 750.81a.

(g) A pupil whose district of residence changed after the pupil membership count day and before the supplemental count day and who continues to be enrolled on the supplemental count day as a nonresident in the district in which he or she was enrolled as a resident on the pupil membership count day of the same school year.

(h) A pupil enrolled in an alternative education program operated by a district other than his or her district of residence who meets 1 or more of the following:

This training model must also ensure that the tool produces reliable data and that there are a sufficient number of trainers to train all kindergarten teachers statewide.

(c) By March 1, 2022, and each year thereafter, the department and the intermediate district that receives funding under this subsection shall report to the house and senate appropriations subcommittees on state school aid, the house and senate fiscal agencies, and the state budget director on the results of the statewide implementation, including, but not limited to, an evaluation of the demonstrated readiness of kindergarten pupils statewide and the effectiveness of state and federal early childhood programs that are designed for school readiness under this state's authority, including the great start readiness program and the great start readiness/Head Start blended program, as referenced under section 32d. By September 1, 2022, and each year thereafter, the department and the center shall provide a method for districts and public school academies with kindergarten enrollment to look up and verify their student enrollment data for pupils who were enrolled in a publicly funded early childhood program in the year before kindergarten, including the individual great start readiness program, individual great start readiness/Head Start blended program, individual title I preschool program, individual section 31a preschool program, individual early childhood special education program, or individual developmental kindergarten or program for young 5-year-olds in which each tested child was enrolled. (5) The department may recommend, but may not require, districts to allow pupils to use an external keyboard with tablet devices for online M-STEP testing, including, but not limited to, open-ended test items such as constructed response or equation builder items.

(6) Notwithstanding section 17b, the department shall make payments on behalf of districts, intermediate districts, and other eligible entities under this section on a schedule determined by the department.

(7) From the allocation in subsection (1), there is allocated an amount not to exceed \$500,000.00 for 2019-2020 for the operation of an online reporting tool to provide student-level assessment data in a secure environment to educators, parents, and pupils immediately after assessments are scored. The department and the center shall ensure that any data collected by the online reporting tool do not provide individually identifiable student data to the federal government.

(8) In order to receive state aid under this article for 2020-2021, a district shall meet both of the following requirements:

(a) Within the first 9 weeks of the 2020-2021 school year, the district shall administer 1 or more benchmark assessments provided by a provider approved under subsection (9), benchmark assessments described in subsection (10), or local benchmark assessments, or any combination thereof, to all pupils in grades K to 8 to measure proficiency in reading and mathematics.

(b) In addition to the benchmark assessment or benchmark assessments administered under subdivision (a), by not later than the last day of the 2020-2021 school year, the district shall administer 1 or more benchmark assessments provided by a provider approved under subsection (9), benchmark assessments described in subsection (10), or local benchmark assessments, or any combination thereof, to all pupils in grades K to 8 to measure proficiency in reading and mathematics.

(9) The department shall approve at least 4 but not more than 5 providers of benchmark assessments for the purposes of subsection (8). The department shall inform districts of all of the providers approved under this subsection in an equitable manner. The benchmark assessment data under this subsection may also be used to measure pupils' growth based on their performance on state summative assessments to identify districts and schools where pupil achievement has increased or decreased. However, the benchmark assessment data under this subsection must not be utilized for the state accountability system. It is the intent of the legislature that the benchmark assessment data under this subsection be primarily utilized to determine the loss of learning, if any, resulting from the COVID-19 pandemic. After the administration of statewide assessments resumes, the department shall also provide a report to the governor and the senate and house standing committees responsible for education legislation identifying the specific pupil groups whose expected trajectory toward grade-level proficiency were most impacted by school closures that occurred pursuant to the COVID-19 pandemic.

(13) If a district administers a benchmark assessment or benchmark assessments under this section, the district shall provide each pupil's data from the benchmark assessment or benchmark assessments, as available, to the pupil's parent or legal guardian within 30 days of administering the benchmark assessment or benchmark assessments.

(16) It is the intent of the legislature to appropriate funding for a study to be conducted by a higher education institution or other entity that is not a state governmental entity that has expertise in conducting a study described in this subsection.
