## BILL ANALYSIS

Telephone: (517) 373-5383  
Fax: (517) 373-1986

Senate Bill 107 (Substitute S-1 as reported)  
Sponsor: Senator Michael D. MacDonald  
Committee: Education and Career Readiness

### **CONTENT**

The bill would amend the Revised School Code to do the following:

- Require, by February 1, 2023, the Department of Education (MDE) to develop or adopt and make available two to three model instructional videos regarding the dangers of opioid drug abuse that would be suitable for grade 9 pupils.
- Specify that, beginning with the 2023-2024 school year, the board of a school district or board of directors of a public school academy that offered grade 9 would be encouraged to ensure that the video was implanted in the curriculum.

Proposed MCL 380.1170c

Legislative Analyst: Eleni Lionas

### **FISCAL IMPACT**

The bill would have a fiscal impact on the MDE and local high schools. The Department would experience one-time costs to develop or adopt a model instructional video. The final cost would depend on if the MDE decided to develop or adopt a model instructional video. The costs to adopt an already-developed model instructional video would be significantly less, and within current appropriations, than if the Department developed a model instructional video.

Local high schools would experience minor costs to ensure that the video was included in grade 9 curriculum. A school that added it to the health education class required under Michigan's high school graduation requirements likely would experience little to no fiscal impact compared to if the school decided to devote a period for grade 9 pupils to watch the instructional video outside of class.

Date Completed: 3-10-22
