Senate Bill 723 (as discharged)  
Sponsor: Senator Ken Horn  
Committee: Economic and Small Business Development (discharged)

### **CONTENT**

The bill would amend the Neighborhood Enterprise Zone Act to specify that an application for the construction of a new facility could be filed after a building permit was issued if the area in which the new facility was located were designated as a neighborhood enterprise zone by the governing body of the local governmental unit in July 1996, instead of January 2016, and if the building permit were issued for that facility in October 2017, instead of August 2016 or August 2019.

MCL 207.774

Legislative Analyst: Tyler VanHuyse

### **FISCAL IMPACT**

The bill, by allowing additional exemptions in neighborhood enterprise zones, could result in a loss of State and local property taxes. The potential loss would depend on the specific characteristics of the property eligible under the bill. The potential revenue loss would affect local property taxes where the neighborhood enterprise zones were located as well as State property taxes via the State Education Tax. Since school operating mills also would be reduced, costs to the School Aid Fund would increase if the foundation allowance were maintained.
