Rep. Bryan Posthumus, from the 90th District, offered the following invocation:

“Heavenly Father we are so grateful for all that You do for us, all that You provide for us. Lord, we humbly come before You, and we praise You, and we worship You. Lord God, we ask that You help give us guidance, give us wisdom, and give us courage. The things that we do in this body are consequential and have impacts around our entire state. With Your divine providence we ask that You help to instill Your wisdom into us. Lord, please guide the leaders of our country, the leaders of our state, and the leaders of our communities. It’s in Your Son’s name that we pray. Amen.”

The Speaker called the Speaker Pro Tempore to the Chair.

Rep. DeBoer having reserved the right to explain her protest against the passage of the bill, made the following statement:

“Mr. Speaker and members of the House:

I have consistently supported additional funding for our brave law enforcement officers, because making our local community safer and protecting victims will always be a top priority for me at the Capitol. We need more police on the streets, and those officers need the right tools to stay safe and fight crime effectively. My local law enforcement officers need new recruits, new equipment, safer vehicles, and more reliable personal protection. House Bill 4605 does not give them those tools. I am voting no because far too much of our funding bypasses our police in this bill and is instead funneled to the governor’s healthcare bureaucracy. There, that money could be used for a whole host of social justice programs that completely ignore our law enforcement. Efforts to clarify that ambiguity and dedicate that funding to actual public safety efforts were rejected. We need a real commitment to public safety and very clear spending bills that spend our public safety dollars on out top priorities. Without that, I cannot support this bill.”

Rep. Harris, having reserved the right to explain his protest against the passage of the bill, made the following statement:

“Mr. Speaker and members of the House:

As a 26 year law enforcement officer, I have consistently supported additional funding for our brave law enforcement officers. Making our local community safer and protecting victims will always be a top priority for me at the Capitol. We need more police on the streets, and those officers need the right tools to stay safe and fight crime effectively. My local law enforcement officers need new recruits, new equipment, safer vehicles, and more reliable personal protection. House Bill 4605 does not give them those tools. I am voting no because far too much of our limited funding bypasses our police in this bill and is instead funneled to the governor’s healthcare bureaucracy. There, that money could be used for a whole host of social justice programs that completely ignore our law enforcement. Efforts to clarify that ambiguity and dedicate that funding to actual public safety efforts were rejected. We need a real commitment to public safety and very clear spending bills that spend our public safety dollars on our top priorities. Without that, I cannot support this bill.”

Rep. Schmaltz, having reserved the right to explain her protest against the passage of the bill, made the following statement:

“Mr. Speaker and members of the House:

I will always support our law enforcement. I have consistently supported additional funding for our brave law enforcement officers, because making our local community safer and protecting victims will always be a top priority for me at the Capitol. We need more police on the streets, and those officers need the right tools to stay safe and fight crime effectively. Efforts to clarify that ambiguity and dedicate that funding to actual public safety efforts were rejected. We need a real commitment to public safety and very clear spending bills that spend our public safety dollars on our top priorities. Without that, I cannot support this bill.”

Rep. Jaime Greene, having reserved the right to explain her protest against the passage of the bill, made the following statement:

“Mr. Speaker and members of the House:

I consistently advocate for increased funding to support our courageous law enforcement officers, prioritizing the safety of our local community and the well-being of victims. Ensuring there are more police officers on our streets equipped with the necessary tools is paramount to effective crime prevention. My stance remains firm on the need for new recruits, upgraded equipment, safer vehicles, and reliable personal protection for our local law enforcement.

Regrettably, House Bill 4605 falls short in providing these essential resources. My dissenting vote stems from the bill’s allocation of funding, which, in my view, inadequately supports our police force. Instead, a significant portion of the limited funding is directed towards the governor’s healthcare bureaucracy. While I recognize the importance of healthcare initiatives, I firmly believe that these funds should be channeled into enhancing public safety efforts, specifically benefiting our law enforcement agencies.

Efforts to amend the bill and redirect the funding towards genuine public safety endeavors were unfortunately rebuffed. I firmly advocate for transparent and targeted spending, ensuring our public safety dollars are allocated to our highest priorities. Without a clear commitment to bolstering public safety and a precise allocation of resources, I find it impossible to lend my support to this bill.”

Rep. Phil Green, having reserved the right to explain his protest against the passage of the bill, made the following statement:

“Mr. Speaker and members of the House:

I have consistently supported additional funding for our brave law enforcement officers, because making our local community safer and protecting victims will always be a top priority for me at the Capitol. We need more police on the streets, and those officers need the right tools to stay safe and fight crime effectively. My local law enforcement officers need new recruits, new equipment, safer vehicles, and more reliable personal protection. This version of House Bill 4605 does not give them those tools. I am voting no because these bills leave out the local units of government, specifically the townships that provide policing to their communities. I want to see all local units of government that provide law enforcement to receive these funds. Without that, I cannot support this bill.”

Reps. Hall, Tisdell and Thompson having reserved the right to explain their protest against the passage of the bill, made the following statement:

“Mr. Speaker and members of the House:

Sec. 202. The appropriations made and expenditures authorized under this part and part 1 and the departments, commissions, boards, offices, and programs for which appropriations are made under this part and part 1 are subject to the management and budget act, 1984 PA 431, MCL 18.1101 to 18.1594.

Sec. 203. Funds appropriated in part 1 must be allocated and expended in a manner consistent with federal rules and regulations.

Sec. 204. Funds appropriated in part 1 are subject to applicable federal audit and reporting requirements. Prompt action shall be taken if instances of noncompliance are identified, including noncompliance identified in an audit finding. If any instance of noncompliance is identified, including noncompliance identified in an audit finding, the state budget director must take necessary and immediate action to rectify it. The state budget director must notify the senate and house appropriations committees and the senate and house fiscal agencies when an instance of noncompliance is identified.

Sec. 205. The state budget director must report on the status of funds appropriated in part 1, and all funds appropriated related to the coronavirus relief effort, to the senate and house appropriations committees and the senate and house fiscal agencies on a monthly basis until all funds are exhausted.

Sec. 206. (1) For any grant program or project funded in part 1 intended for a single recipient organization or local government, the grant program or project is for a public purpose and departments must follow procurement statutes of this state, including any bidding requirements, unless departments can fully validate, through information detailed in this part or public supporting documents, both of the following:

- (a) The specific organization or unit of local government that will receive or administer the funds.
- (b) How the funds will be administered and expended.

(2) Notwithstanding any other conditions or requirements for direct appropriation grants, departments must perform at least all of the following activities to administer the grants described in subsection (1):

(a) Develop a standard application process, grantee reporting requirements, and any other necessary documentation, including sponsorship information as specified under subsection (3).

(b) Establish a process to review, complete, and execute a grant agreement with a grant recipient. Grant agreements must be executed by departments only if all necessary documentation has been submitted and reviewed.

(c) Verify to the extent possible that a grant recipient will utilize funds for a public purpose that serves the economic prosperity, health, safety, or general welfare of the residents of this state.

(d) Review and verify all necessary information to ensure the grant recipient is reasonably able to execute the grant agreement and perform its fiduciary duty and is in compliance with all applicable state and federal statutes. Departments may deduct the cost of background checks performed as part of this verification from the amount of the designated grant award.

(e) Establish a standard timeline to review all documents submitted by grant recipients and provide a response within 45 business days regarding whether submitted documents by a grant recipient are sufficient or in need of additional information.

(3) A sponsor of a grant described in subsection (1) must be a legislator or the department. A legislative sponsor must be identified through a letter submitted by that legislator's office to the department and state budget director listing the grant recipient, the intended amount of the grant, a certification from that legislator that the grant is for a public purpose, and the specific citation of section and subsection of the public act that authorizes the grant, as applicable. If a legislative sponsor is not identified before January 15, 2024, or 30 days after the effective date of this act, departments must do 1 of the following:

(a) Identify the department as the sponsor.

(b) Decline to execute the grant agreement.

(4) An executed grant agreement under this section between the department and a grant recipient shall include, but not be limited to, all of the following:

(a) All necessary identifying information for the grant recipient, including any tax and financial information for departments to administer funds under this section.

(b) A description of the project for which the grant funds will be expended, including tentative timelines and the estimated budget. No expenditures outside of the project purpose, as stated in the executed grant agreement, shall be reimbursed from appropriations in part 1.

(c) Unless otherwise specified in department policy, a requirement that funds appropriated for the grants described in subsection (1) may be used only for expenditures that occur on or after the effective date of this act.

(d) At the discretion of departments, an initial disbursement of 50% to the grant recipient upon execution of the grant agreement consistent with part II, chapter 10, section 200 of the Financial Management Guide.

(e) A requirement that after the initial 50% disbursement, additional funds shall be disbursed only after verification that the initial payment has been fully expended, in accordance with the project purpose. The remaining funds must be disbursed after the grantee has provided sufficient documentation, as determined by departments, to verify that all expenditures were made in accordance with the project purpose.

(f) A requirement for reporting from the recipient to the department that provides the status of the project and an accounting of all funds expended by the recipient, as determined by the department.

(g) A claw-back provision that allows the department of treasury to recoup or otherwise collect any funds that are declined, unspent, or otherwise misused.

(5) If appropriate to improve the administration or oversight of a grant described in subsection (1), departments may adopt a memorandum of understanding with other state departments to perform the required duties under this section.

(6) A grant recipient must respond to all reasonable information requests from departments related to grant expenditures and retain grant records for a period of not less than 7 years, and the grant may be subject to monitoring, site visits, and audits as determined by departments. The grant agreement required under this section must include signed assurance by the chief executive officer or other executive officer of the grant recipient that this requirement will be met.

(7) All funds awarded shall be expended by the grant recipient, and projects completed, by September 30, 2028. If, at that time, any unexpended funds remain, those funds must be returned by the grant recipient to the state treasury. If a grant recipient does not provide information sufficient to execute a grant agreement by June 1, 2024, funds associated with that grant must be returned to the state treasury.

(8) Any funds that are granted to a state department are appropriated in that department for the purpose of the intended grant.

(9) The state budget director may, on a case-by-case basis, extend the deadline in subsection (7) on request by a grant recipient. The state budget director must notify the chairs of the senate and house appropriations committees not later than 5 days after an extension is granted.

(10) Departments must post a report in a publicly accessible location on their websites not later than September 30, 2024. Reports must list the grant recipient, project purpose, and location of the project for each grant described in subsection (1), the status of funds allocated and disbursed under the grant agreement, and the legislative sponsor, if applicable.

(11) As applicable, the legislative sponsor of a grant described in subsection (1) must comply with all applicable laws concerning conflicts of interest in seeking a direct grant. A legislative sponsor must not seek a grant for a recipient if a conflict of interest exists.

(12) If departments reasonably determine the funds allocated for an executed grant agreement under this section were misused or their use misrepresented by the grant recipient, departments must not award any additional funds under that executed grant agreement and must refer the grant for review following internal audit protocols.

THE PEOPLE OF THE STATE OF MICHIGAN ENACT:

Sec. 6. (1) “Center program” means a program operated by a district or by an intermediate district for special education pupils from several districts in programs for pupils with autism spectrum disorder, pupils with severe cognitive impairment, pupils with moderate cognitive impairment, pupils with severe multiple impairments, pupils with hearing impairment, pupils with visual impairment, and pupils with physical impairment or other health impairment. Programs for pupils with emotional impairment housed in buildings that do not serve regular education pupils also qualify. Unless otherwise approved by the department, a center program either serves all constituent districts within an intermediate district or serves several districts with less than 50% of the pupils residing in the operating district. In addition, special education center program pupils placed part-time in noncenter programs to comply with the least restrictive environment provisions of section 1412 of the individuals with disabilities education act, 20 USC 1412, may be considered center program pupils for pupil accounting purposes for the time scheduled in either a center program or a noncenter program.

(2) “District and high school graduation rate” means the annual completion and pupil dropout rate that is calculated by the center pursuant to nationally recognized standards.

(3) “District and high school graduation report” means a report of the number of pupils, excluding adult education participants, in the district for the immediately preceding school year, adjusted for those pupils who have transferred into or out of the district or high school, who leave high school with a diploma or other credential of equal status.

(4) “Membership”, except as otherwise provided in this article, means for a district, a public school academy, or an intermediate district the sum of the product of .90 times the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance in the district, public school academy, or intermediate district on the pupil membership count day for the current school year, plus the product of .10 times the final audited count from the supplemental count day of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance in the district, public school academy, or intermediate district for the immediately preceding school year. A district’s, public school academy’s, or intermediate district’s membership is adjusted as provided under section 25e for pupils who enroll after the pupil membership count day in a strict discipline academy operating under sections 1311b to 1311m of the revised school code, MCL 380.1311b to 380.1311m. All pupil counts used in this subsection are as determined by the department and calculated by adding the number of pupils registered for attendance plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by a subsequent department audit. The amount of the foundation allowance for a pupil in membership is determined under section 20. In making the calculation of membership, all of the following, as applicable, apply to determining the membership of a district, a public school academy, or an intermediate district:

(a) Except as otherwise provided in this subsection, and pursuant to subsection (6), a pupil is counted in membership in the pupil’s educating district or districts. Except as otherwise provided in this subsection, an individual pupil must not be counted for more than a total of 1.0 full-time equated membership.

(b) If a pupil is educated in a district other than the pupil’s district of residence, if the pupil is not being educated as part of a cooperative education program, if the pupil’s district of residence does not give the educating district its approval to count the pupil in membership in the educating district, and if the pupil is not covered by an exception specified in subsection (6) to the requirement that the educating district must have the approval of the pupil’s district of residence to count the pupil in membership, the pupil is not counted in membership in any district.

(c) A special education pupil educated by the intermediate district is counted in membership in the intermediate district.

(d) A pupil placed by a court or state agency in an on-grounds program of a juvenile detention facility, a child caring institution, or a mental health institution, or a pupil funded under section 53a, is counted in membership in the district or intermediate district approved by the department to operate the program.

(e) A pupil enrolled in the Michigan Schools for the Deaf and Blind is counted in membership in the pupil’s intermediate district of residence.

(f) A pupil enrolled in a career and technical education program supported by a millage levied over an area larger than a single district or in an area vocational-technical education program established under section 690 of the revised school code, MCL 380.690, is counted in membership only in the pupil’s district of residence.

(g) A pupil enrolled in a public school academy is counted in membership in the public school academy.

(h) For the purposes of this section and section 6a, for a cyber school, as that term is defined in section 551 of the revised school code, MCL 380.551, that is in compliance with section 553a of the revised school code, MCL 380.553a, a pupil's participation in the cyber school's educational program is considered regular daily attendance, and for a district or public school academy, a pupil's participation in a virtual course as that term is defined in section 21f is considered regular daily attendance. Beginning July 1, 2021, this subdivision is subject to section 8c. It is the intent of the legislature that the immediately preceding sentence apply retroactively and is effective July 1, 2021. For the purposes of this subdivision, for a pupil enrolled in a cyber school, all of the following apply with regard to the participation requirement as described in this subdivision:

(i) Except as otherwise provided in this subdivision, the pupil shall participate in each scheduled course on pupil membership count day or supplemental count day, as applicable. If the pupil is absent on pupil membership count day or supplemental count day, as applicable, the pupil must attend and participate in class during the next 10 consecutive school days if the absence was unexcused, or during the next 30 calendar days if the absence was excused.

(ii) For a pupil who is not learning sequentially, 1 or more of the following must be met on pupil membership count day or supplemental count day, as applicable, for each scheduled course to satisfy the participation requirement under this subdivision:

(A) The pupil attended a live lesson from the teacher.

(B) The pupil logged into a lesson or lesson activity and the login can be documented.

(C) The pupil and teacher engaged in a subject-oriented telephone conversation.

(D) There is documentation of an email dialogue between the pupil and teacher.

(E) There is documentation of activity or work between the learning coach and pupil.

(F) An alternate form of attendance as determined and agreed upon by the cyber school and the pupil membership auditor was met.

(iii) For a pupil using sequential learning, the participation requirement under this subdivision is satisfied if either of the following occurs:

(A) Except as otherwise provided in this sub-subparagraph, the pupil and the teacher of record or mentor complete a 2-way interaction for 1 course during the week on which pupil membership count day or supplemental count day, as applicable, occurs, and the 3 consecutive weeks following that week. However, if a school break is scheduled during any of the weeks described in this sub-subparagraph that is 4 or more days in length or instruction has been canceled districtwide during any of the weeks described in this sub-subparagraph for 3 or more school days, the district is not required to ensure that the pupil and the teacher of record or mentor completed a 2-way interaction for that week. As used in this sub-subparagraph:

(I) "2-way interaction" means the communication that occurs between the teacher of record or mentor and pupil, where 1 party initiates communication and a response from the other party follows that communication. Responses as described in this sub-sub-subparagraph must be to the communication initiated by the teacher of record or mentor, and not some other action taken. This interaction may occur through, but is not limited to, means such as email, telephone, instant messaging, or face-to-face conversation. A parent- or legal-guardian-facilitated 2-way interaction is considered a 2-way interaction if the pupil is in any of grades K to 5 and does not yet possess the skills necessary to participate in 2-way interactions unassisted. The interactions described in this sub-sub-subparagraph must relate to a virtual course on the pupil's schedule and pertain to course content or progress.

(II) "Mentor" means a professional employee of the district who monitors the pupil's progress, ensures the pupil has access to needed technology, is available for assistance, and ensures access to the teacher of record. A mentor may also be the teacher of record if the mentor meets the definition of a teacher of record under this sub-subparagraph and the district is the provider for the course.

(III) "Teacher of record" means a teacher to whom all of the following apply:

(1) The teacher is responsible for providing instruction, determining instructional methods for each pupil, diagnosing learning needs, assessing pupil learning, prescribing intervention strategies and modifying lessons, reporting outcomes, and evaluating the effects of instruction and support strategies. The teacher of record may coordinate the distribution and assignment of the responsibilities described in this sub-sub-sub-subparagraph with other teachers participating in the instructional process for a course.

(2) The teacher is certified for the grade level or is working under a valid substitute permit, authorization, or approval issued by the department.

(3) The teacher has a personnel identification code provided by the center.

(IV) "Week" means a period that starts on Wednesday and ends the following Tuesday.

(B) The pupil completes a combination of 1 or more of the following activities for each scheduled course on pupil membership count day or supplemental count day, as applicable:

(I) Documented attendance in a virtual course where synchronous, live instruction occurred with the teacher.

(II) Documented completion of a course assignment.

(III) Documented completion of a course lesson or lesson activity.

(IV) Documented pupil access to an ongoing lesson, which does not include a login.

(V) Documented physical attendance on pupil membership count day or supplemental count day, as applicable, in each scheduled course, if the pupil will attend at least 50% of the instructional time for each scheduled course on-site, face-to-face with the teacher of record. As used in this sub-sub-subparagraph, "teacher of record" means that term as defined in subparagraph (iii)(A).

(iv) For purposes of subparagraph (iii), each scheduled course currently being attempted by the pupil, rather than every course on the pupil's schedule for the entire term, is considered a part of each scheduled course for the pupil.

(i) For a new district or public school academy beginning its operation after December 31, 1994, membership for the first 2 full or partial fiscal years of operation is determined as follows:

(i) If operations begin before the pupil membership count day for the fiscal year, membership is the average number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the pupil membership count day for the current school year and on the supplemental count day for the current school year, as determined by the department and calculated by adding the number of pupils registered for attendance on the pupil membership count day plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by a subsequent department audit, plus the final audited count from the supplemental count day for the current school year, and dividing that sum by 2.

(ii) If operations begin after the pupil membership count day for the fiscal year and not later than the supplemental count day for the fiscal year, membership is the final audited count of the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the supplemental count day for the current school year.

(j) If a district is the authorizing body for a public school academy, then, in the first school year in which pupils are counted in membership on the pupil membership count day in the public school academy, the determination of the district's membership excludes from the district's pupil count for the immediately preceding supplemental count day any pupils who are counted in the public school academy on that first pupil membership count day who were also counted in the district on the immediately preceding supplemental count day.

(k) For an extended school year program approved by the superintendent, a pupil enrolled, but not scheduled to be in regular daily attendance, on a pupil membership count day, is counted in membership.

(l) To be counted in membership, a pupil must meet the minimum age requirement to be eligible to attend school under section 1147 of the revised school code, MCL 380.1147, and must be less than 20 years of age on September 1 of the school year except as follows:

(i) A special education pupil who is enrolled and receiving instruction in a special education program or service approved by the department, who does not have a high school diploma, and who is less than 26 years of age as of September 1 of the current school year is counted in membership.

(ii) A pupil who is determined by the department to meet all of the following may be counted in membership:

(A) Is enrolled in a public school academy or an alternative education high school diploma program, that is primarily focused on educating pupils with extreme barriers to education, such as being homeless as that term is defined under 42 USC 11302.

(B) Had dropped out of school.

(C) Is less than 22 years of age as of September 1 of the current school year.

(iii) If a child does not meet the minimum age requirement to be eligible to attend school for that school year under section 1147 of the revised school code, MCL 380.1147, but will be 5 years of age not later than December 1 of that school year, the district may count the child in membership for that school year if the parent or legal guardian has notified the district in writing that the parent or legal guardian intends to enroll the child in kindergarten for that school year.

(m) An individual who has achieved a high school diploma is not counted in membership. An individual who has achieved a high school equivalency certificate is not counted in membership unless the individual is a student with a disability as that term is defined in R 340.1702 of the Michigan Administrative Code. An individual participating in a job training program funded under former section 107a or a jobs program funded under former section 107b, administered by the department of labor and economic opportunity, or participating in any successor of either of those 2 programs, is not counted in membership.

(n) If a pupil counted in membership in a public school academy is also educated by a district or intermediate district as part of a cooperative education program, the pupil is counted in membership only in the public school academy unless a written agreement signed by all parties designates the party or parties in which the pupil is counted in membership, and the instructional time scheduled for the pupil in the district or intermediate district is included in the full-time equated membership determination under subdivision (q) and section 101. However, for pupils receiving instruction in both a public school academy and in a district or intermediate district but not as a part of a cooperative education program, the following apply:

(i) If the public school academy provides instruction for at least 1/2 of the class hours required under section 101, the public school academy receives as its prorated share of the full-time equated membership

for each of those pupils an amount equal to 1 times the product of the hours of instruction the public school academy provides divided by the number of hours required under section 101 for full-time equivalency, and the remainder of the full-time membership for each of those pupils is allocated to the district or intermediate district providing the remainder of the hours of instruction.

(ii) If the public school academy provides instruction for less than 1/2 of the class hours required under section 101, the district or intermediate district providing the remainder of the hours of instruction receives as its prorated share of the full-time equated membership for each of those pupils an amount equal to 1 times the product of the hours of instruction the district or intermediate district provides divided by the number of hours required under section 101 for full-time equivalency, and the remainder of the full-time membership for each of those pupils is allocated to the public school academy.

(o) An individual less than 16 years of age as of September 1 of the current school year who is being educated in an alternative education program is not counted in membership if there are also adult education participants being educated in the same program or classroom.

(p) The department shall give a uniform interpretation of full-time and part-time memberships.

(q) The number of class hours used to calculate full-time equated memberships must be consistent with section 101. In determining full-time equated memberships for pupils who are enrolled in a postsecondary institution or for pupils engaged in an internship or work experience under section 1279h of the revised school code, MCL 380.1279h, a pupil is not considered to be less than a full-time equated pupil solely because of the effect of the pupil's postsecondary enrollment or engagement in the internship or work experience, including necessary travel time, on the number of class hours provided by the district to the pupil.

(r) Full-time equated memberships for pupils in kindergarten are determined by dividing the number of instructional hours scheduled and provided per year per kindergarten pupil by the same number used for determining full-time equated memberships for pupils in grades 1 to 12. However, to the extent allowable under federal law, for a district or public school academy that provides evidence satisfactory to the department that it used federal title I money in the 2 immediately preceding school fiscal years to fund full-time kindergarten, full-time equated memberships for pupils in kindergarten are determined by dividing the number of class hours scheduled and provided per year per kindergarten pupil by a number equal to 1/2 the number used for determining full-time equated memberships for pupils in grades 1 to 12. The change in the counting of full-time equated memberships for pupils in kindergarten that took effect for 2012-2013 is not a mandate.

(s) For a district or a public school academy that has pupils enrolled in a grade level that was not offered by the district or public school academy in the immediately preceding school year, the number of pupils enrolled in that grade level to be counted in membership is the average of the number of those pupils enrolled and in regular daily attendance on the pupil membership count day and the supplemental count day of the current school year. Membership is calculated by adding the number of pupils registered for attendance in that grade level on the pupil membership count day plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by subsequent department audit, plus the final audited count from the supplemental count day for the current school year, and dividing that sum by 2.

(t) A pupil enrolled in a cooperative education program may be counted in membership in the pupil's district of residence with the written approval of all parties to the cooperative agreement.

(u) If, as a result of a disciplinary action, a district determines through the district's alternative or disciplinary education program that the best instructional placement for a pupil is in the pupil's home or otherwise apart from the general school population, if that placement is authorized in writing by the district superintendent and district alternative or disciplinary education supervisor, and if the district provides appropriate instruction as described in this subdivision to the pupil at the pupil's home or otherwise apart from the general school population, the district may count the pupil in membership on a pro rata basis, with the proration based on the number of hours of instruction the district actually provides to the pupil divided by the number of hours required under section 101 for full-time equivalency. For the purposes of this subdivision, a district is considered to be providing appropriate instruction if all of the following are met:

(i) The district provides at least 2 nonconsecutive hours of instruction per week to the pupil at the pupil's home or otherwise apart from the general school population under the supervision of a certificated teacher.

(ii) The district provides instructional materials, resources, and supplies that are comparable to those otherwise provided in the district's alternative education program.

(iii) Course content is comparable to that in the district's alternative education program.

(iv) Credit earned is awarded to the pupil and placed on the pupil's transcript.

(v) If a pupil was enrolled in a public school academy on the pupil membership count day, if the public school academy's contract with its authorizing body is revoked or the public school academy otherwise ceases to operate, and if the pupil enrolls in a district within 45 days after the pupil membership count day, the department shall adjust the district's pupil count for the pupil membership count day to include the pupil in the count.

(w) For a public school academy that has been in operation for at least 2 years and that suspended operations for at least 1 semester and is resuming operations, membership is the sum of the product of .90 times the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the first pupil membership count day or supplemental count day, whichever is first, occurring after operations resume, plus the product of .10 times the final audited count from the most recent pupil membership count day or supplemental count day that occurred before suspending operations, as determined by the superintendent.

(x) If a district's membership for a particular fiscal year, as otherwise calculated under this subsection, would be less than 1,550 pupils, the district has 4.5 or fewer pupils per square mile, as determined by the department, and the district does not receive funding under section 22d(2), the district's membership is considered to be the membership figure calculated under this subdivision. If a district educates and counts in its membership pupils in grades 9 to 12 who reside in a contiguous district that does not operate grades 9 to 12 and if 1 or both of the affected districts request the department to use the determination allowed under this sentence, the department shall include the square mileage of both districts in determining the number of pupils per square mile for each of the districts for the purposes of this subdivision. If a district has established a community engagement advisory committee in partnership with the department of treasury, is required to submit a deficit elimination plan or an enhanced deficit elimination plan under section 1220 of the revised school code, MCL 380.1220, and is located in a city with a population between 9,000 and 11,000, as determined by the department, that is in a county with a population between 150,000 and 160,000, as determined by the department, the district's membership is considered to be the membership figure calculated under this subdivision. The membership figure calculated under this subdivision is the greater of the following:

(i) The average of the district's membership for the 3-fiscal-year period ending with that fiscal year, calculated by adding the district's actual membership for each of those 3 fiscal years, as otherwise calculated under this subsection, and dividing the sum of those 3 membership figures by 3.

(ii) The district's actual membership for that fiscal year as otherwise calculated under this subsection.

(y) Full-time equated memberships for special education pupils who are not enrolled in kindergarten but are enrolled in a classroom program under R 340.1754 of the Michigan Administrative Code are determined by dividing the number of class hours scheduled and provided per year by 450. Full-time equated memberships for special education pupils who are not enrolled in kindergarten but are receiving early childhood special education services under R 340.1755 or R 340.1862 of the Michigan Administrative Code are determined by dividing the number of hours of service scheduled and provided per year per pupil by 180.

(z) A pupil of a district that begins its school year after Labor Day who is enrolled in an intermediate district program that begins before Labor Day is not considered to be less than a full-time pupil solely due to instructional time scheduled but not attended by the pupil before Labor Day.

(aa) For the first year in which a pupil is counted in membership on the pupil membership count day in a middle college program, the membership is the average of the full-time equated membership on the pupil membership count day and on the supplemental count day for the current school year, as determined by the department. If a pupil described in this subdivision was counted in membership by the operating district on the immediately preceding supplemental count day, the pupil is excluded from the district's immediately preceding supplemental count for the purposes of determining the district's membership.

(bb) A district or public school academy that educates a pupil who attends a United States Olympic Education Center may count the pupil in membership regardless of whether or not the pupil is a resident of this state.

(cc) A pupil enrolled in a district other than the pupil's district of residence under section 1148(2) of the revised school code, MCL 380.1148, is counted in the educating district.

(dd) For a pupil enrolled in a dropout recovery program that meets the requirements of section 23a, the pupil is counted as 1/12 of a full-time equated membership for each month that the district operating the program reports that the pupil was enrolled in the program and was in full attendance. However, if the special membership counting provisions under this subdivision and the operation of the other membership counting provisions under this subsection result in a pupil being counted as more than 1.0 FTE in a fiscal year, the payment made for the pupil under sections 22a and 22b must not be based on more than 1.0 FTE for that pupil, and any portion of an FTE for that pupil that exceeds 1.0 is instead paid under section 25g. The district operating the program shall report to the center the number of pupils who were enrolled in the program and were in full attendance for a month not later than 30 days after the end of the month. A district shall not report a pupil as being in full attendance for a month unless both of the following are met:

(i) A personalized learning plan is in place on or before the first school day of the month for the first month the pupil participates in the program.

(ii) **Either of the following is met:**

(A) The pupil meets the district's definition under section 23a of satisfactory monthly progress for that month or, if the pupil does not meet that definition of satisfactory monthly progress for that month, the pupil did meet that definition of satisfactory monthly progress in the immediately preceding month and appropriate interventions, as defined by the district, are implemented within 10 school days after it is determined that the pupil does not meet that definition of satisfactory monthly progress.

(B) For the first 2 months that the pupil participates in the program, the pupil earns 0.25 credit by the end of the second month. A pupil described in this sub-subparagraph may be retroactively reported as being in full attendance for the first month that the pupil participated in the program.

(ee) A pupil participating in a virtual course under section 21f is counted in membership in the district enrolling the pupil.

(ff) If a public school academy that is not in its first or second year of operation closes at the end of a school year and does not reopen for the next school year, the department shall adjust the membership count of the district or other public school academy in which a former pupil of the closed public school academy enrolls and is in regular daily attendance for the next school year to ensure that the district or other public school academy receives the same amount of membership aid for the pupil as if the pupil were counted in the district or other public school academy on the supplemental count day of the preceding school year.

(gg) If a special education pupil is expelled under section 1311 or 1311a of the revised school code, MCL 380.1311 and 380.1311a, and is not in attendance on the pupil membership count day because of the expulsion, and if the pupil remains enrolled in the district and resumes regular daily attendance during that school year, the district's membership is adjusted to count the pupil in membership as if the pupil had been in attendance on the pupil membership count day.

(hh) A pupil enrolled in a community district is counted in membership in the community district.

(ii) A part-time pupil enrolled in a nonpublic school in grades K to 12 in accordance with section 166b must not be counted as more than 0.75 of a full-time equated membership.

(jj) A district that borders another state or a public school academy that operates at least grades 9 to 12 and is located within 20 miles of a border with another state may count in membership a pupil who is enrolled in a course at a college or university that is located in the bordering state and within 20 miles of the border with this state if all of the following are met:

(i) The pupil would meet the definition of an eligible student under the postsecondary enrollment options act, 1996 PA 160, MCL 388.511 to 388.524, if the course were an eligible course under that act.

(ii) The course in which the pupil is enrolled would meet the definition of an eligible course under the postsecondary enrollment options act, 1996 PA 160, MCL 388.511 to 388.524, if the course were provided by an eligible postsecondary institution under that act.

(iii) The department determines that the college or university is an institution that, in the other state, fulfills a function comparable to a state university or community college, as those terms are defined in section 3 of the postsecondary enrollment options act, 1996 PA 160, MCL 388.513, or is an independent nonprofit degree-granting college or university.

(iv) The district or public school academy pays for a portion of the pupil's tuition at the college or university in an amount equal to the eligible charges that the district or public school academy would pay to an eligible postsecondary institution under the postsecondary enrollment options act, 1996 PA 160, MCL 388.511 to 388.524, as if the course were an eligible course under that act.

(v) The district or public school academy awards high school credit to a pupil who successfully completes a course as described in this subdivision.

(kk) A pupil enrolled in a middle college program may be counted for more than a total of 1.0 full-time equated membership for any of the school years in which the pupil is enrolled in the middle college program, but the total full-time equated membership for that pupil for all of the school years in which the pupil is enrolled in high school must not be greater than 5.00 full-time equated membership if the pupil is enrolled in more than the minimum number of instructional days and hours required under section 101 and the pupil is expected to complete the 5-year program with both a high school diploma and at least 60 transferable college credits or is expected to earn an associate's degree in fewer than 5 years. A pupil who graduates with both a high school diploma and at least 60 transferable college credits or an associate degree at least 1 semester early is considered to have completed the middle college program in fewer than 5 years.

(ll) If a district's or public school academy's membership for a particular fiscal year, as otherwise calculated under this subsection, includes pupils counted in membership who are enrolled under section 166b, all of the following apply for the purposes of this subdivision:

(i) If the district's or public school academy's membership for pupils counted under section 166b equals or exceeds 5% of the district's or public school academy's membership for pupils not counted in membership under section 166b in the immediately preceding fiscal year, then the growth in the district's or public school academy's membership for pupils counted under section 166b must not exceed 10%.

(ii) If the district's or public school academy's membership for pupils counted under section 166b is less than 5% of the district's or public school academy's membership for pupils not counted in membership under section 166b in the immediately preceding fiscal year, then the district's or public school academy's membership for pupils counted under section 166b must not exceed the greater of the following:

(A) Five percent of the district's or public school academy's membership for pupils not counted in membership under section 166b.

(B) Ten percent more than the district's or public school academy's membership for pupils counted under section 166b in the immediately preceding fiscal year.

Sec. 20. (1) All of the following apply:

(a) For 2022-2023, the target foundation allowance is \$9,150.00.

(b) For 2023-2024, the target foundation allowance is \$9,608.00.

(2) The department shall calculate the amount of each district's foundation allowance as provided in this section, using a target foundation allowance in the amount specified in subsection (1).

(3) Except as otherwise provided in this section, the department shall calculate the amount of a district's foundation allowance as follows, using in all calculations the total amount of the district's foundation allowance as calculated before any proration:

(a) For a district that had a foundation allowance for the immediately preceding fiscal year that was equal to the target foundation allowance for the immediately preceding fiscal year, the district receives a foundation allowance in an amount equal to the target foundation allowance described in subsection (1) for the current fiscal year.

(b) For a district that had a foundation allowance for the immediately preceding fiscal year that was greater than the target foundation allowance for the immediately preceding fiscal year, the district's foundation allowance is an amount equal to the lesser of (the sum of the district's foundation allowance for the immediately preceding fiscal year plus any per pupil amount calculated under section 20m(2) in the immediately preceding fiscal year plus the increase in the target foundation allowance for the current fiscal year, as compared to the immediately preceding fiscal year) or (the product of the district's foundation allowance for the immediately preceding fiscal year times the percentage increase in the United States Consumer Price Index in the calendar year ending in the immediately preceding fiscal year as reported by the May revenue estimating conference conducted under section 367b of the management and budget act, 1984 PA 431, MCL 18.1367b).

~~(c) For a district that has a foundation allowance that is less than the target foundation allowance in the current fiscal year but had a foundation allowance in fiscal year 2020-2021 that was greater than the target foundation allowance in effect for that fiscal year, the district's foundation allowance is an amount equal to the lesser of (the sum of the district's foundation allowance for fiscal year 2020-2021 plus the increase in the target foundation allowance for the current fiscal year, as compared to fiscal year 2020-2021) or (the product of the district's foundation allowance for the immediately preceding fiscal year times the percentage increase in the United States Consumer Price Index in the calendar year ending in the immediately preceding fiscal year as reported by the May revenue estimating conference conducted under section 367b of the management and budget act, 1984 PA 431, MCL 18.1367b).~~

(c) For a district that had a foundation allowance in the immediately preceding fiscal year that was less than the target foundation allowance in effect for that fiscal year, the district's foundation allowance is an amount equal to the lesser of (the sum of district's foundation allowance for the immediately preceding fiscal year plus any per pupil amount calculated under section 20m(2) in the immediately preceding fiscal year plus the increase in the target foundation allowance for the current fiscal year, as compared to the immediately preceding fiscal year) or (the product of the district's foundation allowance for the immediately preceding fiscal year times the percentage increase in the United States Consumer Price Index in the calendar year ending in the immediately preceding fiscal year as reported by the May revenue estimating conference conducted under section 367b of the management and budget act, 1984 PA 431, MCL 18.1367b).

(d) For a district that has a foundation allowance that is not a whole dollar amount, the department shall round the district's foundation allowance up to the nearest whole dollar.

(4) Except as otherwise provided in this subsection, the state portion of a district's foundation allowance is an amount equal to the district's foundation allowance or the target foundation allowance for the current fiscal year, whichever is less, minus the local portion of the district's foundation allowance. Except as otherwise provided in this subsection, for a district described in subsection (3)(b) and (c), the state portion of the district's foundation allowance is an amount equal to the target foundation allowance minus the district's foundation allowance supplemental payment per pupil calculated under section 20m and minus the local portion of the district's foundation allowance. For a district that has a millage reduction required under section 31 of article IX of the state constitution of 1963, the department shall calculate the state portion of

the district's foundation allowance as if that reduction did not occur. For a receiving district, if school operating taxes continue to be levied on behalf of a dissolved district that has been attached in whole or in part to the receiving district to satisfy debt obligations of the dissolved district under section 12 of the revised school code, MCL 380.12, the taxable value per membership pupil of property in the receiving district used for the purposes of this subsection does not include the taxable value of property within the geographic area of the dissolved district. For a community district, if school operating taxes continue to be levied by a qualifying school district under section 12b of the revised school code, MCL 380.12b, with the same geographic area as the community district, the taxable value per membership pupil of property in the community district to be used for the purposes of this subsection does not include the taxable value of property within the geographic area of the community district.

(5) The allocation calculated under this section for a pupil is based on the foundation allowance of the pupil's district of residence. For a pupil enrolled under section 105 or 105c in a district other than the pupil's district of residence, the allocation calculated under this section is based on the lesser of the foundation allowance of the pupil's district of residence or the foundation allowance of the educating district. For a pupil in membership in a K-5, K-6, or K-8 district who is enrolled in another district in a grade not offered by the pupil's district of residence, the allocation calculated under this section is based on the foundation allowance of the educating district if the educating district's foundation allowance is greater than the foundation allowance of the pupil's district of residence. The calculation under this subsection must take into account a district's per-pupil allocation under section 20m.

(6) Except as otherwise provided in this subsection, for pupils in membership, other than special education pupils, in a public school academy, the allocation calculated under this section is an amount per membership pupil other than special education pupils in the public school academy equal to the target foundation allowance specified in subsection (1), or, for a public school academy that was issued a contract under section 552 of the revised school code, MCL 380.552, to operate as a school of excellence that is a cyber school, \$9,150.00. Notwithstanding section 101, for a public school academy that begins operations after the pupil membership count day, the amount per membership pupil calculated under this subsection must be adjusted by multiplying that amount per membership pupil by the number of hours of pupil instruction provided by the public school academy after it begins operations, as determined by the department, divided by the minimum number of hours of pupil instruction required under section 101(3). The result of this calculation must not exceed the amount per membership pupil otherwise calculated under this subsection.

(7) For pupils in membership, other than special education pupils, in a community district, the allocation calculated under this section is an amount per membership pupil other than special education pupils in the community district equal to the foundation allowance of the qualifying school district, as described in section 12b of the revised school code, MCL 380.12b, that is located within the same geographic area as the community district.

(8) Subject to subsection (4), for a district that is formed or reconfigured after June 1, 2002 by consolidation of 2 or more districts or by annexation, the resulting district's foundation allowance under this section beginning after the effective date of the consolidation or annexation is the lesser of the sum of the average of the foundation allowances of each of the original or affected districts, calculated as provided in this section, weighted as to the percentage of pupils in total membership in the resulting district who reside in the geographic area of each of the original or affected districts plus \$100.00 or the highest foundation allowance among the original or affected districts. This subsection does not apply to a receiving district unless there is a subsequent consolidation or annexation that affects the district. The calculation under this subsection must take into account a district's per-pupil allocation under section 20m.

(9) The department shall round each fraction used in making calculations under this section to the fourth decimal place and shall round the dollar amount of an increase in the target foundation allowance to the nearest whole dollar.

(10) For 2022-2023, state payments related to payment of the foundation allowance for a special education pupil are not calculated under this section but are instead calculated as follows:

(a) Twenty-five percent is calculated under section 51a.

(b) Seventy-five percent is calculated under section 51e.

(11) For 2023-2024, state payments related to payment of the foundation allowance for a special education pupil are not calculated under this section but are instead calculated under section 51e.

(12) To assist the legislature in determining the target foundation allowance for the subsequent fiscal year, each revenue estimating conference conducted under section 367b of the management and budget act, 1984 PA 431, MCL 18.1367b, must calculate a pupil membership factor, a revenue adjustment factor, and an index as follows:

(a) The pupil membership factor is computed by dividing the estimated membership in the school year ending in the current fiscal year, excluding intermediate district membership, by the estimated membership

for the school year ending in the subsequent fiscal year, excluding intermediate district membership. If a consensus membership factor is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(b) The revenue adjustment factor is computed by dividing the sum of the estimated total state school aid fund revenue for the subsequent fiscal year plus the estimated total state school aid fund revenue for the current fiscal year, adjusted for any change in the rate or base of a tax the proceeds of which are deposited in that fund and excluding money transferred into that fund from the countercyclical budget and economic stabilization fund under the management and budget act, 1984 PA 431, MCL 18.1101 to 18.1594, by the sum of the estimated total school aid fund revenue for the current fiscal year plus the estimated total state school aid fund revenue for the immediately preceding fiscal year, adjusted for any change in the rate or base of a tax the proceeds of which are deposited in that fund. If a consensus revenue factor is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(c) The index is calculated by multiplying the pupil membership factor by the revenue adjustment factor. If a consensus index is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for state school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(13) Payments to districts and public school academies are not made under this section. Rather, the calculations under this section are used to determine the amount of state payments under section 22b.

(14) If an amendment to section 2 of article VIII of the state constitution of 1963 allowing state aid to some or all nonpublic schools is approved by the voters of this state, each foundation allowance or per-pupil payment calculation under this section may be reduced.

(15) As used in this section:

(a) "Certified mills" means the lesser of 18 mills or the number of mills of school operating taxes levied by the district in 1993-94.

(b) "Current fiscal year" means the fiscal year for which a particular calculation is made.

(c) "Dissolved district" means a district that loses its organization, has its territory attached to 1 or more other districts, and is dissolved as provided under section 12 of the revised school code, MCL 380.12.

(d) "Immediately preceding fiscal year" means the fiscal year immediately preceding the current fiscal year.

(e) "Local portion of the district's foundation allowance" means an amount that is equal to the difference between (the sum of the product of the taxable value per membership pupil of all property in the district that is nonexempt property times the district's certified mills and, for a district with certified mills exceeding 12, the product of the taxable value per membership pupil of property in the district that is commercial personal property times the certified mills minus 12 mills) and (the quotient of the product of the captured assessed valuation under tax increment financing acts times the district's certified mills divided by the district's membership excluding special education pupils).

(b) Funds must be distributed to each district **and intermediate district** at the lesser of the quartile's median cost per rider or the actual transportation cost per general education student at the district **or intermediate district**.

(c) If funds are insufficient to fully fund payments under this section, payments may be prorated on an equal percentage basis.

(2) In addition to the funds allocated under subsection (1), from the school transportation fund money appropriated under section 11, there is allocated for 2022-2023 only an amount not to exceed \$200,000.00 to an intermediate district for a study on district transportation costs. (2) For a district or public school academy to be eligible to receive funding under this section, other than funding under subsection (7), ~~or (8), (19), or (20),~~ the district or public school academy, for grades K to 12, must comply with the requirements under section 1280f of the revised school code, MCL 380.1280f, and ~~shall~~ **must** use resources to address early literacy and numeracy, and for at least grades K to 12 or, if the district or public school academy does not operate all of grades K to 12, for all of the grades it operates, must implement a multi-tiered system of supports that is an evidence-based framework that uses data driven problem solving to integrate academic and behavioral instruction and that uses intervention delivered to all pupils in varying intensities based on pupil needs. The multi-tiered system of supports described in this subsection must provide at least all of the following essential components:

(a) Team-based leadership.

(b) A tiered delivery system.

(c) Selection and implementation of instruction, interventions, and supports.

(d) A comprehensive screening and assessment system.

(3) From the state school aid fund money allocated under subsection (1), there is allocated for 2023-2024 an amount not to exceed \$952,000,000.00 to continue a weighted foundation per pupil payment for districts and public school academies enrolling economically disadvantaged pupils. The department shall pay under this subsection to each eligible district or eligible public school academy an amount per pupil equal to a percentage calculated under subsection (4) multiplied by the target foundation allowance for the following, as applicable:

(a) Except as otherwise provided under subdivision (b), (c), or (d) the greater of the following:

(i) The number of membership pupils in the district or public school academy who are determined to be economically disadvantaged, as reported to the center in the form and manner prescribed by the center not later than the fifth Wednesday after the pupil membership count day of the immediately preceding fiscal year.

(ii) If the district or public school academy is in the community eligibility program, the number of pupils determined to be eligible based on the product of the identified student percentage multiplied by the total number of pupils in the district or public school academy, as reported to the center in the form and manner prescribed by the center not later than the fifth Wednesday after the pupil membership count day of the immediately preceding fiscal year. These calculations must be made at the building level. This subparagraph only applies to an eligible district or eligible public school academy for the fiscal year immediately following the first fiscal year in which it is in the community eligibility program. As used in this subparagraph, "identified student percentage" means the quotient of the number of pupils in an eligible district or eligible public school academy who are determined to be economically disadvantaged, as reported to the center in a

form and manner prescribed by the center, not later than the fifth Wednesday after the pupil membership count day in the fiscal year preceding the first fiscal year in which the eligible district or eligible public school academy is in the community eligibility program, divided by the total number of pupils counted in an eligible district or eligible public school academy on the pupil membership count day in the fiscal year preceding the first fiscal year in which the eligible district or eligible public school academy is in the community eligibility program.

(b) If the district or public school academy began operations as a district or public school academy after the pupil membership count day of the immediately preceding school year, the number of membership pupils in the district or public school academy who are determined to be economically disadvantaged, as reported to the center in the form and manner prescribed by the center not later than the fifth Wednesday after the pupil membership count day of the current fiscal year.

(d) If, for a particular fiscal year, the number of membership pupils in a district or public school academy who are determined under subdivision (a) to be economically disadvantaged or to be eligible based on the identified student percentage varies by more than 20 percentage points from the number of those pupils in the district or public school academy as calculated under subdivision (a) for the immediately preceding fiscal year caused by an egregious reporting error by the district or public school academy, the department may choose to have the calculations under subdivision (a) instead be made using the number of membership pupils in the district or public school academy who are determined to be economically disadvantaged, as reported to the center in the form and manner prescribed by the center not later than the fifth Wednesday after the supplemental count day of the immediately preceding fiscal year.

(4) Each district or public school academy must be assigned to an opportunity index score each fiscal year, the value of which is the quotient of the number of economically disadvantaged pupils as determined under subsection (3) for the district or public school academy and the total number of pupils in the district or public school academy in the immediately preceding fiscal year, multiplied by 100 and rounded up to the nearest whole number. Each district or public school academy must be assigned an opportunity index band as follows:

(a) A district or public school academy with an opportunity index score greater than or equal to 0 but less than 20 must be assigned to band 1 and shall receive reimbursement under subsection (3) at a rate of at least 35.0% and less than 36.0%. The reimbursement rate under this subdivision must be an amount equal to the district's opportunity index score minus 1, multiplied by the band adjustment factor applicable to this subdivision, plus 35.0%.

(b) A district or public school academy with an opportunity index score greater than or equal to 20 but less than 44 must be assigned to band 2 and shall receive reimbursement under subsection (3) at a rate of at least 36.0% and less than 37.5%. The reimbursement rate under this subdivision must be an amount equal to the district's opportunity index score minus 20, multiplied by the band adjustment factor applicable to this subdivision, plus 36.0%.

(c) A district or public school academy with an opportunity index score greater than or equal to 44 but less than 59 must be assigned to band 3 and shall receive reimbursement under subsection (3) at a rate of at least 37.5% and less than 39.0%. The reimbursement rate under this subdivision must be an amount equal to the district's opportunity index score minus 44, multiplied by the band adjustment factor applicable to this subdivision, plus 37.5%.

(d) A district or public school academy with an opportunity index score greater than or equal to 59 but less than 73 must be assigned to band 4 and shall receive reimbursement under subsection (3) at a rate of at least 39.0% and less than 42.0%. The reimbursement rate under this subdivision must be an amount equal to the district's opportunity index score minus 59, multiplied by the band adjustment factor applicable to this subdivision, plus 39.0%.

(e) A district or public school academy with an opportunity index score greater than or equal to 73 but less than 85 must be assigned to band 5 and shall receive reimbursement under subsection (3) at a rate of at least 42.0% and less than 47.0%. The reimbursement rate under this subdivision must be an amount equal to the district's opportunity index score minus 73, multiplied by the band adjustment factor applicable to this subdivision, plus 42.0%.

(f) A district or public school academy with an opportunity index score greater than or equal to 85 must be assigned to band 6 and shall receive reimbursement under subsection (3) at a rate of 47.0%.

(g) As used in this subsection, "band adjustment factor" means an amount equal to the difference between the lowest and highest reimbursement bounds for each band, divided by the number of possible opportunity index scores in that band.

(5) Except as otherwise provided in this section, a district or public school academy receiving funding under this section shall use that money only to provide instructional programs and direct noninstructional services, including, but not limited to, medical, mental health, or counseling services, for at-risk pupils; for school health clinics; and for the purposes of subsection (6), (7), ~~or (8)~~, **(19), or (20)**. In addition, a district that is a school district of the first class or a district or public school academy in which at least 50% of the pupils in membership were determined to be economically disadvantaged in the immediately preceding state fiscal year, as determined and reported as described in subsection (3), may use the funds it receives under this section for school security or school parent liaison personnel. The uses of the funds described in the immediately preceding sentence must align to the needs assessment and the multi-tiered system of supports model and, for funds spent on parent liaison personnel, must connect parents to the school community. A district or public school academy shall not use any of the money received under this section for administrative costs. The instruction or direct noninstructional services provided under this section may be conducted before or after regular school hours or by adding extra school days to the school year.

When making funding decisions for new adolescent health centers under this subsection, the department and department of health and human services shall prioritize support for primary health care services in unserved counties as of July 14, 2022. An amount not to exceed 4% of the funds allocated for 2023-2024 under this subsection must be made available for technical support and coordination services from a nonprofit organization exclusively dedicated to serving adolescent health centers in this state and that has a membership that includes federally qualified health centers, local public health departments, hospital systems, and public school districts. As a requirement of being awarded the funds under this subsection as prescribed under this subsection, a nonprofit organization described in this subsection shall make readily available technical support and coordination services to all child and adolescent health centers in this state. **Funds appropriated under this subsection are a work project appropriation and any unexpended funds for 2023-2024 are carried forward into 2024-2025. The purpose of the work project is to continue to improve child and adolescent health center program sites and improve delivery of patient care. The estimated completion date of the work project is September 30, 2025.**

Subject to the availability of funds, if proration is necessary under this subsection, the department must ensure that no district receives an amount less than 11.5% of the target foundation for each economically disadvantaged pupil enrolled in the district.

(16) If a district is dissolved pursuant to section 12 of the revised school code, MCL 380.12, the intermediate district to which the dissolved district was constituent shall determine the estimated number of pupils that are economically disadvantaged and that are enrolled in each of the other districts within the intermediate district and provide that estimate to the department for the purposes of distributing funds under this section within 60 days after the district is declared dissolved.

(18) The department shall collaborate with the department of health and human services to prioritize assigning Pathways to Potential success coaches to elementary schools that have a high percentage of pupils in grades K to 3 who are not proficient in English language arts, based upon state assessments for pupils in those grades.

The allocations under this subsection are for the purpose of reimbursing districts and intermediate districts for special education programs, services, and special education personnel as prescribed in article 3 of the revised school code, MCL 380.1701 to 380.1761; net tuition payments made by intermediate districts to the Michigan Schools for the Deaf and Blind; and special education programs and services for pupils who are eligible for special education programs and services according to statute or rule. For meeting the costs of special education programs and services not reimbursed under this article, a district or intermediate district may use money in general funds or special education funds, not otherwise restricted, or contributions from districts to intermediate districts, tuition payments, gifts and contributions from individuals or other entities, or federal funds that may be available for this purpose, as determined by the intermediate district plan prepared under article 3 of the revised school code, MCL 380.1701 to 380.1761. Notwithstanding section 17b, the department shall make payments of federal funds to districts, intermediate districts, and other eligible entities under this section on a schedule determined by the department.

(2) From the funds allocated under subsection (1), there is allocated the amount necessary, estimated at ~~\$350,400,000.00~~ **\$357,400,000.00** for 2022-2023 and estimated at \$368,000,000.00 for 2023-2024, for

payments toward reimbursing districts and intermediate districts for 28.6138% of total approved costs of special education, excluding costs reimbursed under section 53a, and 70.4165% of total approved costs of special education transportation. Allocations under this subsection are made as follows:

(a) For 2022-2023, the department shall calculate the initial amount allocated to a district under this subsection toward fulfilling the specified percentages by multiplying the district's special education pupil membership, excluding pupils described in subsection (11), times 25% of the foundation allowance under section 20 of the pupil's district of residence, plus 25% of the amount of the district's per-pupil allocation under section 20m, not to exceed 25% of the target foundation allowance for the current fiscal year, or, for a special education pupil in membership in a district that is a public school academy, times an amount equal to 25% of the amount per membership pupil calculated under section 20(6). For an intermediate district, the amount allocated under this subdivision toward fulfilling the specified percentages is an amount per special education membership pupil, excluding pupils described in subsection (11), and is calculated in the same manner as for a district, using 25% of the foundation allowance under section 20 of the pupil's district of residence, not to exceed 25% of the target foundation allowance for the current fiscal year, and that district's per-pupil allocation under section 20m.

(b) For 2022-2023, after the allocation under subdivision (a), the department shall pay a district or intermediate district for which the payments calculated under subdivision (a) do not fulfill the specified percentages the amount necessary to achieve the specified percentages for the district or intermediate district.

(c) Beginning in 2023-2024, subdivisions (a) and (b) no longer apply.

(3) From the funds allocated under subsection (1), there is allocated for 2022-2023 an amount not to exceed \$1,000,000.00 and there is allocated for 2023-2024 an amount not to exceed \$1,000,000.00 to make payments to districts and intermediate districts under this subsection. If the amount allocated to a district or intermediate district for the fiscal year under subsection (2) is less than the sum of the amounts allocated to the district or intermediate district for 1996-97 under sections 52 and 58, there is allocated to the district or intermediate district for the fiscal year an amount equal to that difference, adjusted by applying the same proration factor that was used in the distribution of funds under section 52 in 1996-97 as adjusted to the district's or intermediate district's necessary costs of special education used in calculations for the fiscal year. This adjustment is to reflect reductions in special education program operations or services between 1996-97 and subsequent fiscal years. The department shall make adjustments for reductions in special education program operations or services in a manner determined by the department and shall include adjustments for program or service shifts.

(4) If the department determines that the sum of the amounts allocated for a fiscal year to a district or intermediate district under subsection (2) is not sufficient to fulfill the specified percentages in subsection (2), ~~then~~ the department shall pay the shortfall to the district or intermediate district during the fiscal year beginning on the October 1 following the determination and shall adjust payments under subsection (3) as necessary. If the department determines that the sum of the amounts allocated for a fiscal year to a district or intermediate district under subsection (2) exceeds the sum of the amount necessary to fulfill the specified percentages in subsection (2), ~~then~~ the department shall deduct the amount of the excess from the district's or intermediate district's payments under this article for the fiscal year beginning on the October 1 following the determination and shall adjust payments under subsection (3) as necessary. For 2022-2023, if the amount allocated under subsection (2)(a) in itself exceeds the amount necessary to fulfill the specified percentages in subsection (2), there is no deduction under this subsection.

(5) State funds are allocated on a total approved cost basis. Federal funds are allocated under applicable federal requirements.

(6) From the amount allocated in subsection (1), there is allocated an amount not to exceed \$2,200,000.00 for 2022-2023 and there is allocated an amount not to exceed \$2,200,000.00 for 2023-2024 to reimburse 100% of the net increase in necessary costs incurred by a district or intermediate district in implementing the revisions in the administrative rules for special education that became effective on July 1, 1987. As used in this subsection, "net increase in necessary costs" means the necessary additional costs incurred solely because of new or revised requirements in the administrative rules minus cost savings permitted in implementing the revised rules. The department shall determine net increase in necessary costs in a manner specified by the department.

(7) For purposes of this section and sections 51b to 58, all of the following apply:

(a) "Total approved costs of special education" are determined in a manner specified by the department and may include indirect costs, but must not exceed 115% of approved direct costs for section 52 and section 53a programs. The total approved costs include salary and other compensation for all approved special education personnel for the program, including payments for Social Security and Medicare and public school employee retirement system contributions. The total approved costs do not include salaries or other compensation paid to administrative personnel who are not special education personnel as that term is

defined in section 6 of the revised school code, MCL 380.6. Costs reimbursed by federal funds, other than those federal funds included in the allocation made under this article, are not included. Special education approved personnel not utilized full time in the evaluation of students or in the delivery of special education programs, ancillary, and other related services are reimbursed under this section only for that portion of time actually spent providing these programs and services, with the exception of special education programs and services provided to youth placed in child caring institutions or juvenile detention programs approved by the department to provide an on-grounds education program.

(b) A district or intermediate district that employed special education support services staff to provide special education support services in 2003-2004 or in a subsequent fiscal year and that in a fiscal year after 2003-2004 receives the same type of support services from another district or intermediate district shall report the cost of those support services for special education reimbursement purposes under this article. This subdivision does not prohibit the transfer of special education classroom teachers and special education classroom aides if the pupils counted in membership associated with those special education classroom teachers and special education classroom aides are transferred and counted in membership in the other district or intermediate district in conjunction with the transfer of those teachers and aides.

(c) If the department determines before bookclosing for a fiscal year that the amounts allocated for that fiscal year under subsections (2), (3), (6), and (11) and sections 53a, 54, and 56 will exceed expenditures for that fiscal year under subsections (2), (3), (6), and (11) and sections 53a, 54, and 56, then for a district or intermediate district whose reimbursement for that fiscal year would otherwise be affected by subdivision (b), subdivision (b) does not apply to the calculation of the reimbursement for that district or intermediate district and the department shall calculate reimbursement for that district or intermediate district in the same manner as it was for 2003-2004. If the amount of the excess allocations under subsections (2), (3), (6), and (11) and sections 53a, 54, and 56 is not sufficient to fully fund the calculation of reimbursement to those districts and intermediate districts under this subdivision, then the department shall prorate calculations and resulting reimbursement under this subdivision on an equal percentage basis. The amount of reimbursement under this subdivision for a fiscal year must not exceed \$2,000,000.00 for any district or intermediate district.

(d) Reimbursement for ancillary and other related services, as that term is defined by R 340.1701c of the Michigan Administrative Code, is not provided when those services are covered by and available through private group health insurance carriers or federal reimbursed program sources unless the department and district or intermediate district agree otherwise and that agreement is approved by the state budget director. Expenses, other than the incidental expense of filing, must not be borne by the parent. In addition, the filing of claims must not delay the education of a pupil. A district or intermediate district is responsible for payment of a deductible amount and for an advance payment required until the time a claim is paid.

(e) If an intermediate district purchases a special education pupil transportation service from a constituent district that was previously purchased from a private entity; if the purchase from the constituent district is at a lower cost, adjusted for changes in fuel costs; and if the cost shift from the intermediate district to the constituent does not result in any net change in the revenue the constituent district receives from payments under sections 22b and 51c, then upon application by the intermediate district, the department shall direct the intermediate district to continue to report the cost associated with the specific identified special education pupil transportation service and shall adjust the costs reported by the constituent district to remove the cost associated with that specific service.

(8) A pupil who is enrolled in a full-time special education program conducted or administered by an intermediate district or a pupil who is enrolled in the Michigan Schools for the Deaf and Blind is not included in the membership count of a district, but is counted in membership in the intermediate district of residence.

(9) Special education personnel transferred from 1 district to another to implement the revised school code are entitled to the rights, benefits, and tenure to which the individual would otherwise be entitled had that individual been employed by the receiving district originally.

(10) If a district or intermediate district uses money received under this section for a purpose other than the purpose or purposes for which the money is allocated, the department may require the district or intermediate district to refund the amount of money received. The department shall deposit money that is refunded in the state treasury to the credit of the state school aid fund.

(11) From the funds allocated in subsection (1), there is allocated the amount necessary, estimated at \$2,000,000.00 for 2022-2023 and estimated at \$2,000,000.00 for 2023-2024, to pay the foundation allowances for pupils described in this subsection. The department shall calculate the allocation to a district under this subsection by multiplying the number of pupils described in this subsection who are counted in membership in the district times the sum of the foundation allowance under section 20 of the pupil's district of residence, plus the amount of the district's per-pupil allocation under section 20m, not to exceed the target foundation allowance for the current fiscal year, or, for a pupil described in this subsection who is counted in membership in a district that is a public school academy, times an amount equal to the amount per

membership pupil under section 20(6). The department shall calculate the allocation to an intermediate district under this subsection in the same manner as for a district, using the foundation allowance under section 20 of the pupil's district of residence not to exceed the target foundation allowance for the current fiscal year and that district's per-pupil allocation under section 20m. This subsection applies to all of the following pupils:

(a) Pupils described in section 53a.

(b) Pupils counted in membership in an intermediate district who are not special education pupils and are served by the intermediate district in a juvenile detention or child caring facility.

(c) Pupils with an emotional impairment counted in membership by an intermediate district and provided educational services by the department of health and human services.

(12) If it is determined that funds allocated under subsection (2) or (11) or under section 51c will not be expended, funds up to the amount necessary and available may be used to supplement the allocations under subsection (2) or (11) or under section 51c in order to fully fund those allocations. After payments under subsections (2) and (11) and section 51c, the department shall expend the remaining funds from the allocation in subsection (1) in the following order:

(a) One hundred percent of the reimbursement required under section 53a.

(b) One hundred percent of the reimbursement required under subsection (6).

(c) One hundred percent of the payment required under section 54.

(d) One hundred percent of the payment required under subsection (3).

(e) One hundred percent of the payments under section 56.

(13) The allocations under subsections (2), (3), and (11) are allocations to intermediate districts only and are not allocations to districts, but instead are calculations used only to determine the state payments under section 22b.

(14) If a public school academy that is not a cyber school, as that term is defined in section 551 of the revised school code, MCL 380.551, enrolls under this section a pupil who resides outside of the intermediate district in which the public school academy is located and who is eligible for special education programs and services according to statute or rule, or who is a child with a disability, as that term is defined under the individuals with disabilities education act, Public Law 108-446, the intermediate district in which the public school academy is located and the public school academy shall enter into a written agreement with the intermediate district in which the pupil resides for the purpose of providing the pupil with a free appropriate public education, and the written agreement must include at least an agreement on the responsibility for the payment of the added costs of special education programs and services for the pupil. If the public school academy that enrolls the pupil does not enter into an agreement under this subsection, the public school academy shall not charge the pupil's resident intermediate district or the intermediate district in which the public school academy is located the added costs of special education programs and services for the pupil, and the public school academy is not eligible for any payouts based on the funding formula outlined in the resident or nonresident intermediate district's plan. If a pupil is not enrolled in a public school academy under this subsection, the provision of special education programs and services and the payment of the added costs of special education programs and services for a pupil described in this subsection are the responsibility of the district and intermediate district in which the pupil resides.

(15) For the purpose of receiving its federal allocation under part B of the individuals with disabilities education act, Public Law 108-446, a public school academy that is a cyber school, as that term is defined in section 551 of the revised school code, MCL 380.551, and is in compliance with section 553a of the revised school code, MCL 380.553a, directly receives the federal allocation under part B of the individuals with disabilities education act, Public Law 108-446, from the intermediate district in which the cyber school is located, as the subrecipient. If the intermediate district does not distribute the funds described in this subsection to the cyber school by the part B application due date of July 1, the department may distribute the funds described in this subsection directly to the cyber school according to the formula prescribed in 34 CFR 300.705 and 34 CFR 300.816. Beginning July 1, 2021, this subsection is subject to section 8c. It is the intent of the legislature that the immediately preceding sentence apply retroactively and is effective July 1, 2021.

(16) For a public school academy that is a cyber school, as that term is defined in section 551 of the revised school code, MCL 380.551, and is in compliance with section 553a of the revised school code, MCL 380.553a, that enrolls a pupil under this section, the intermediate district in which the cyber school is located shall ensure that the cyber school complies with sections 1701a, 1703, 1704, 1751, 1752, 1756, and 1757 of the revised school code, MCL 380.1701a, 380.1703, 380.1704, 380.1751, 380.1752, 380.1756, and 380.1757; applicable rules; and the individuals with disabilities education act, Public Law 108-446. Beginning July 1, 2021, this subsection is subject to section 8c. It is the intent of the legislature that the immediately preceding sentence apply retroactively and is effective July 1, 2021.

(17) For the purposes of this section, the department or the center shall only require a district or intermediate district to report information that is not already available from the financial information database maintained by the center.

(d) "High school equivalency certificate" means that term as defined in section 4.

(3) An individual must meet all of the following criteria and financial thresholds each year to be eligible for a Michigan achievement scholarship awarded under this section:

(a) Be a resident of this state for at least the immediately preceding year.

(b) Have graduated from high school in this state with a diploma or certificate of completion or achieved a high school equivalency certificate in 2023 or after.

For the purposes of this subdivision, participation in a dual enrollment, early college, or other similar program while attending high school does not disqualify a student from being considered a first-time enrollee.

(d) Maintain satisfactory academic progress, as defined by the eligible institution in which the student is enrolled.

(e) Not be incarcerated in a corrections institution.

(f) Not be in default on a federal student loan.

For the purposes of this subparagraph, the department of treasury, in collaboration with the state budget office and the house and senate fiscal agencies, may calculate a student aid index number or may issue administrative guidance for the student aid index eligibility of students with more than 1 member of the student's household or the student's parents' household attending a postsecondary institution during that academic year. It is the intent of the legislature that the utilization of a student aid index instead of expected family contribution does not adversely impact the eligibility of students with multiple members of the student's household or the student's parents' household in college.

(h) For the purpose of determining eligibility under subdivision (g), an individual is considered to have met the requirements of subdivision (g) if the individual received the Michigan achievement scholarship in academic year 2023-2024, was determined to have an expected family contribution of \$25,000.00 or less in academic year 2023-2024, and has completed the Free Application for Federal Student Aid for the subsequent award cycles.

(i) The legislature finds and declares that the student aid index thresholds in subdivision (g) are temporary and intended to apply only for academic year 2024-2025. It is the intent of the legislature that the legislature and executive branch work collaboratively to use Michigan achievement scholarship uptake and other relevant data to establish a more permanent measure of financial need for the Michigan achievement scholarship for subsequent academic years.

“(3) If, within 30 days following a meeting described in subsection (2), the chief elected official of each affected local unit communicates that it has a compatible renewable energy ordinance to the electric provider or IPP planning to construct the energy facility, then the electric provider or IPP shall file for approval with the respective local unit subject to the following provisions:

(a) This section is not applicable to a proposed energy facility that is located in more than one local unit of government, unless each affected local unit has a compatible renewable energy ordinance.

(b) An application submitted under this section shall comply with the requirements of section 225(1), except for section 225(1)(j) and (r). The local unit of government may require other information necessary to determine compliance with the compatible renewable energy ordinance.

(c) A local unit of government exercising siting jurisdiction pursuant to a compatible renewable energy ordinance must either approve or deny the application within 4 months of receiving an application. The applicant and local unit of government may jointly agree to extend this deadline by up to 4 months.

(d) If a local unit of government amends its zoning ordinance in a manner that places additional requirements on the development of energy facilities within its jurisdiction that are more restrictive than those in section 226(8), it will be deemed to no longer have a compatible renewable energy ordinance.

(e) If a local unit of government fails to approve or deny the application within 4 months, denies an application that complies with the requirements of section 226(8), or amends its zoning ordinance as

described in subdivision (c), the applicant may submit an application for a certificate to the commission. If the proposed energy facility is located in more than one local unit of government and any local unit of government takes an action that would trigger this subdivision, the applicant may submit an application for a certificate to the commission.

(f) An applicant submitting an application to the commission pursuant to this subsection does not need to comply with subsection (1) or 226(1), or the requirement to submit a summary of community outreach and education efforts under section 225(1)(j).

(4) If a local unit of government approves an application pursuant to this section, construction of the proposed energy facility must begin within 5 years from the date the permit is granted and any challenges to the grant of the permit are concluded. The local unit of government may extend this timeline at the request of the applicant without requiring a new application. A permit issued under this section may not be revoked by the local unit except upon material noncompliance with the permit by the applicant.

(5) If the commission approves an application for a certificate submitted under subsection (3)(e), the local unit of government is considered to no longer have a compatible renewable energy ordinance, unless the commission finds that the local unit of government's denial of the application was reasonably related to the applicant's failure to provide information required by subsection (3)(a).

(6) Nothing in this section shall be construed to limit remedies available to an applicant to appeal a denial by a local unit of government under any other law of this State.”.

HBs 5120-5123 strip control away from local communities concerning the construction of large-scale solar and wind energy projects.

These bills give the unelected Michigan Public Service Commission the sole authority to permit large solar and wind construction. The three-member board is made up of unelected bureaucrats appointed by the governor, and the governor is publicly supporting a plan to add thousands of square miles of new wind and solar farms in rural communities no matter how valuable these contracts may be to certain industries.

Constituents have voiced their concerns about wind and solar projects.

Under House Bill 5120-5123, the MPSC will force the projects on local communities whether they with little regard for residents’ concerns. These unelected commission members could remake our entire electric grid with far-left policy as their goal and the people of Michigan would have no ability to hold them accountable.

For these reasons, I cannot support these bills.”
