- 2 (2) The coverage required under subsection (1) must include 3 drugs described in subsection (1) on the preferred drug list or 4 plan formulary. An insurer described in subsection (1) shall 5 include the drug for coverage as soon as practicable or before the 6 expiration of 90 days, whichever occurs first, after the drug is 7 approved by the United States Food and Drug Administration for use 8 in the treatment or management of pain and is available for retail 9 sale. The 14 insurer shall not use a review process under this subsection to 15 delay or block coverage of the drug under the health insurance policy or deny a covered individual further access to the drug 16 17 under the health insurance policy.
  - (3) In establishing and maintaining a preferred drug list or plan formulary, an insurer described in subsection (1) shall ensure that a drug described in subsection (1) is not disadvantaged or discouraged with respect to coverage relative to any opioid analysesic or narcotic drug that may be prescribed for the treatment or management of pain and is included on the preferred drug list or plan formulary. For purposes of this subsection, impermissible disadvantaging or discouragement includes, but is not limited to, the following:
