

NATURAL RESOURCES AND ENVIRONMENTAL PROTECTION ACT (EXCERPT)
Act 451 of 1994

324.3304 Lake management plan as part of permit application; proposal for whole lake evaluation treatment; placement of specific conditions in permit; scientific rationale for permit denial.

Sec. 3304.

(1) An applicant shall provide a lake management plan as part of an application for permit, if a whole lake treatment is proposed.

(2) An applicant for a permit for a whole lake evaluation treatment may provide scientific evidence and documentation that the use of a specific pesticide, application rate, or means of application will selectively control an aquatic nuisance but not cause unacceptable impacts on native aquatic vegetation, other aquatic or terrestrial life, or human health. Such evaluation treatments include the use of fluridone at rates in excess of 6 parts per billion. The department may place special conditions in a permit issued under this subsection to require additional ambient monitoring to document possible adverse impacts on native aquatic vegetation or other aquatic life. If the department denies the application, the department shall provide to the applicant the scientific rationale for the denial, in writing.

History: Add. 2004, Act 246, Eff. Oct. 1, 2004

Compiler's Notes: Former MCL 324.3304, which pertained to violation of part as misdemeanor and penalty, was repealed by Act 27 of 1996, Imd. Eff. Feb. 26, 1996.
