

NATURAL RESOURCES AND ENVIRONMENTAL PROTECTION ACT (EXCERPT)
Act 451 of 1994

324.60901 Definitions.

Sec. 60901.

As used in this part:

- (a) "Classification system" means a mechanism to identify the current use of land and any structures on the land.
- (b) "Data management system" means a mechanism which relies on a computer to manipulate, store, and retrieve information collected and updated during a resource inventory.
- (c) "Inventory" means the land resource and current use inventory.
- (d) "Regional planning commission" means a regional planning commission designated by the governor pursuant to executive directive to carry out planning in a multicounty region of the state.
- (e) "Technical assistance" means the aid that the department shall provide to municipalities, counties, and other interested groups and individuals, on the use of the land resource and current use inventory and related information for planning and resource management decisions.
