## PUBLIC HEALTH CODE (EXCERPT) Act 368 of 1978

## 333.5455 Definitions; C.

Sec. 5455.

- (1) "Clearance levels" means the values that indicate the maximum amount of lead permitted in dust on a surface following completion of an abatement as listed in rules promulgated by the department.
  - (2) "Clearance professional" means 1 or more of the following individuals when performing clearance testing:
  - (a) A certified inspector.
  - (b) A certified risk assessor.
  - (c) A certified clearance technician.
- (3) "Common area" means a portion of a building that is generally accessible to all occupants of the building. Common area includes, but is not limited to, a hallway, a stairway, a laundry and recreational room, a playground, a community center, a garage, and a boundary fence.
- (4) "Component" or "building component" means a specific design or structural element or fixture of a building, residential dwelling, or child occupied facility that is distinguished by its form, function, and location. Component or building component, includes but is not limited to, a specific interior or exterior design or structural element or fixture.
- (5) "Containment" means a process to protect workers and the environment by controlling exposure to a dust lead hazard and debris created during an abatement.
- (6) "Course agenda" means an outline of the key topics to be covered during an accredited training program, including the time allotted to teach each topic.
- (7) "Course test" means an evaluation of the overall effectiveness of the accredited training program by testing a trainee's knowledge and retention of the topics covered during the accredited training program.
- (8) "Course test blueprint" means written documentation identifying the proportion of course test questions devoted to each major topic in the accredited training program curriculum.
